INTRODUCTION

This Programme Guide is a tool for anybody who would like to have a thorough knowledge of what the Erasmus+ Programme is about. This document is mainly addressed to those who wish to be:

- participating organisations: meaning those organisations, institutions, bodies organising activities supported by the Programme;
- participants: meaning those individuals (students, trainees, apprentices, pupils, adult learners, young people, volunteers, or professors, teachers, trainers, youth workers, professionals in the field of education, training, youth and sport, etc.) involved in activities organised by the participating organisations.

Every year, thousands of projects are submitted by organisations across Europe in order to receive financial support from the Erasmus+ Programme; for this reason, the Commission has set up a transparent evaluation process that aims at providing grants for the best projects:

- for most Actions, all the rules and conditions for receiving a grant from the Programme are specified in this Programme Guide;
- for some other Actions, which are only mentioned in this Programme Guide, the rules and conditions for receiving a grant are described in specific calls for proposals published by or on behalf of the European Commission.

When planning an application, potential participating organisations can also be inspired and informed by other reference documents; some of these documents are listed in Annex IV of this Guide.

HOW TO READ THE PROGRAMME GUIDE

The Programme Guide has three main parts:

- Part A offers a general overview of the Programme. It gives information about the objectives, priorities and main features of the Programme, the Programme Countries, the implementing structures and the overall budget available. This section is addressed to those who wish to have a general overview of the scope and the structure of the Programme.
- Part B provides specific information about the Actions of the Programme that are covered by this Guide. This section is mainly addressed to those who are interested in knowing more in detail which types of projects are supported by the Programme. The information provided in this section is further detailed in Annex I of this Guide.
- Part C gives detailed information on procedures for grant application and selection of projects, as well as the financial and administrative provisions linked to the award of an Erasmus+ grant. This section is addressed to all those who intend to submit a project proposal under the framework of the Erasmus+ Programme.

Furthermore, this Guide includes the following Annexes:

- Annex I: Additional rules and information relating to the Actions covered by the Programme Guide
- Annex II: Dissemination Guidelines for beneficiaries
- Annex III: Glossary of the key terms used in this Guide
- Annex IV: Useful references and contact details

PART A - GENERAL INFORMATION ABOUT THE ERASMUS+ PROGRAMME

Erasmus+ is the EU Programme in the fields of education, training, youth and sport for the period 2014-2020¹. Education, training, youth and sport can make a major contribution to help tackle socio-economic changes, the key challenges that Europe will be facing until the end of the decade and to support the implementation of the European policy agenda for growth, jobs, equity and social inclusion.

Fighting rising levels of unemployment - particularly among young people - has become one of the most urgent tasks for European governments. Too many young people leave school prematurely running a high risk of being unemployed and socially marginalised. The same risk threatens many adults with low skills. Technologies are changing the way in which society operates, and there is a need to ensure the best use is made of them. EU businesses need to become more competitive through talent and innovation.

Europe needs more cohesive and inclusive societies which allow citizens to play an active role in democratic life. Education and youth work are key to prevent violent radicalisation by promoting common European values, fostering social integration, enhancing intercultural understanding and a sense of belonging to a community. Erasmus+ is an important instrument to promote the inclusion of people with disadvantaged backgrounds, especially newly arrived migrants, in response to critical events affecting European countries.

Another challenge relates to the development of social capital among young people, the empowerment of young people and their ability to participate actively in society, in line with the provisions of the Lisbon Treaty to "encourage the participation of young people in democratic life in Europe". This issue can also be targeted through non-formal learning activities, which aim at enhancing the skills and competences of young people as well as their active citizenship. Moreover, there is a need to provide youth organisations and youth workers with training and cooperation opportunities, to develop their professionalism and the European dimension of youth work.

Well-performing education and training systems and youth policies can help to tackle these challenges by providing people with the skills required by the labour market and the economy, while allowing them to play an active role in society and achieve personal fulfilment. Reforms in education, training and youth can strengthen progress towards these goals, on the basis of a shared vision between policy makers and stakeholders, sound evidence and cooperation across different fields and levels.

The Erasmus+ Programme is designed to support Programme Countries' efforts to efficiently use the potential of Europe's talent and social assets in a lifelong learning perspective, linking support to formal, non-formal and informal learning throughout the education, training and youth fields. The Programme also enhances the opportunities for cooperation and mobility with Partner Countries, notably in the fields of higher education and youth.

In accordance with one of the new elements introduced in the Lisbon Treaty, Erasmus+ also supports activities aiming at developing the European dimension in sport, by promoting cooperation between bodies responsible for sports. The Programme promotes the creation and development of European networks, providing opportunities for cooperation among stakeholders and the exchange and transfer of knowledge and know-how in different areas relating to sport and physical activity. This reinforced cooperation will notably have positive effects in developing the potential of Europe's human capital by helping reduce the social and economic costs of physical inactivity.

The Programme supports actions, cooperation and tools consistent with the objectives of the Europe 2020 Strategy and its flagship initiatives, such as Youth on the Move and the Agenda for new skills and jobs. The Programme also contributes to achieve the objectives of the Education and Training Strategic Framework for European cooperation in Education and Training and of the European Youth Strategy through the Open Methods of Coordination.

This investment in knowledge, skills and competences will benefit individuals, institutions, organisations and society as a whole by contributing to growth and ensuring equity, prosperity and social inclusion in Europe and beyond.

¹ REGULATION (EU) No 1288/2013 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 11 December 2013 establishing 'Erasmus+' the Union programme for education, training, youth and sport (<http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=OJ:L:2013:347:0050:0073:EN:PDF>)

The Erasmus+ Programme Guide is drafted in accordance with the Erasmus+ annual Work Programme adopted by the European Commission, and therefore may be revised to reflect the priorities and lines of action defined in the Work Programmes adopted in the following years. The implementation of this Guide is also subject to the availability of the appropriations provided for in the draft budget after the adoption of the budget for the year by the Budgetary Authority or as provided for in the system of provisional twelfths.

BUILDING ON PAST EXPERIENCE, LOOKING TOWARDS THE FUTURE

The Erasmus+ Programme builds on the achievements of more than 25 years of European programmes in the fields of education, training and youth, covering both an intra-European as well as an international cooperation dimension. Erasmus+ is the result of the integration of the following European programmes implemented by the Commission during the period 2007-2013:

- The Lifelong Learning Programme
- The Youth in Action Programme
- The Erasmus Mundus Programme
- Tempus
- Alfa
- Edulink
- Programmes of cooperation with industrialised countries in the field of higher education

These programmes have been supporting Actions in the fields of higher education (including its international dimension), vocational education and training, school education, adult education and youth (including its international dimension).

Erasmus+ aims at going beyond these programmes, by promoting synergies and cross-fertilisation throughout the different fields of education, training and youth, removing artificial boundaries between the various Actions and project formats, fostering new ideas, attracting new actors from the world of work and civil society and stimulating new forms of cooperation.

It is therefore crucial that the Programme is associated with a strong brand name that is widely recognised. For this reason, all the Actions and activities supported under the Programme will have to be communicated first and foremost by using the "Erasmus+" brand name. However, to help participants and beneficiaries of former programmes to find their way into Erasmus+, for the purpose of communication and dissemination, the following names may be used for those Actions targeting a specific sector, in addition to the common "Erasmus+" brand name, as follows:

- "Erasmus+: Comenius", in relation to the activities of the Programme exclusively related to the field of school education;
- "Erasmus+: Erasmus", in relation to the activities of the Programme exclusively related to the field of higher education and targeting Programme Countries;
- "Erasmus+: Erasmus Mundus", in relation to the Erasmus Mundus Joint Masters Degrees;
- "Erasmus+: Leonardo da Vinci", in relation to the activities of the Programme exclusively related to the field of vocational education and training;
- "Erasmus+: Grundtvig", in relation to the activities of the Programme exclusively related to the field of adult learning;
- "Erasmus+: Youth in Action", in relation to the activities of the Programme exclusively related to the field of youth non-formal and informal learning;
- "Erasmus+: Jean Monnet", in relation to the activities of the Programme exclusively associated with the field of European Union studies;
- "Erasmus+: Sports", in relation to the activities of the Programme exclusively related to the field of sport.

WHAT ARE THE OBJECTIVES AND IMPORTANT FEATURES OF THE ERASMUS+ PROGRAMME?

GENERAL OBJECTIVE

- The Erasmus+ Programme shall contribute to the achievement of:
 - the objectives of the Europe 2020 Strategy, including the headline education target²;
 - the objectives of the strategic framework for European cooperation in education and training (ET 2020), including the corresponding benchmarks;
 - the sustainable development of Partner Countries in the field of higher education;
 - the overall objectives of the renewed framework for European cooperation in the youth field (2010-2018);
 - the objective of developing the European dimension in sport, in particular grassroots sport, in line with the EU work plan for sport;
 - the promotion of European values in accordance with Article 2 of the Treaty on the European Union³.

IMPORTANT FEATURES OF THE ERASMUS+ PROGRAMME

The following features of the Programme deserve special attention. Some of them are presented in more detail on the Commission website.

RECOGNITION AND VALIDATION OF SKILLS AND QUALIFICATIONS

Erasmus+ supports EU transparency and recognition tools for skills and qualifications – in particular Europass, Youthpass, the European Qualifications Framework (EQF), the European Credit Transfer and Accumulation System (ECTS), the European Credit System for Vocational Education and Training (ECVET), the European Quality Assurance Reference Framework (EQAVET), the European Quality Assurance Register (EQAR), the European Association for Quality Assurance in Higher Education (ENQA) – as well as EU-wide networks in the field of education and training supporting these tools, in particular the National Academic Recognition Information Centre (NARIC), Euroguidance networks, the National Europass Centres and the EQF National Coordination Points.

A common purpose of these tools is to ensure that skills and qualifications can be more easily recognised and are better understood, within and across national borders, in all sub-systems of education and training as well as in the labour market, no matter whether these were acquired through formal education and training or through other learning experiences (e.g. work experience; volunteering, online learning). The tools also aim to ensure that education, training and youth policies further contribute to achieve the Europe 2020 objectives of smart, sustainable and inclusive growth and its education and employment headline targets through better labour market integration and mobility.

In order to fulfil these objectives, the tools available should be able to cater for new phenomena such as internationalisation of education and growing use of digital learning, and support the creation of flexible learning pathways in line with learners' needs and objectives. The tools may also need to evolve in the future, leading to enhanced coherence and simplification that allow learners and workers to move freely for learning or working.

DISSEMINATION AND EXPLOITATION OF PROJECT RESULTS

Dissemination and exploitation of results are crucial areas of the Erasmus+ project lifecycle. They give participating organisations the opportunity to communicate and share outcomes and deliverables, thus extending the impact of their projects, improving their sustainability and justifying the European added value of Erasmus+. In order to successfully disseminate and exploit project results, organisations involved in Erasmus+ projects are asked to give the necessary thought to dissemination and exploitation activities when designing and implementing their project. The level and intensity of such activities should be proportional to the objectives, the scope and the targets of the different Actions of Erasmus+. Results achieved in a particular project may be highly relevant and interesting also in fields not covered by the project and it is up to

² The headline education target is to reduce early school leaving to less than 10% and increase attainment in tertiary education to at least 40% by 2020.

³ The Union is founded on the values of respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities. These values are common to the Member States in a society in which pluralism, non-discrimination, tolerance, justice, solidarity and equality between women and men prevail.

the individual projects to develop strategies and methods ensuring that others can easily access what has been developed and produced. Specific guidelines in this respect can be found in Annex II to this Programme Guide.

OPEN ACCESS REQUIREMENT FOR EDUCATIONAL MATERIALS, DOCUMENTS AND MEDIA PRODUCED THROUGH ERASMUS+

Erasmus+ promotes the open access to materials, documents and media that are useful for learning, teaching, training, youth work and are produced by projects funded by the Programme. Beneficiaries of Erasmus+ grants producing any such materials, documents and media in the scope of any funded project must make them available for the public, in digital form, freely accessible through the Internet under open licences. Beneficiaries are nonetheless allowed to define the most appropriate level of open access, including limitations (e.g. interdiction of commercial exploitation by third parties) if appropriate in relation to the nature of the project and to the type of material. The open access requirement is without prejudice to the intellectual property rights of the grant beneficiaries.

INTERNATIONAL DIMENSION

Erasmus+ includes a strong international dimension (i.e. cooperation with Partner Countries) notably in the fields of higher education and youth.

In the field of higher education, Erasmus+ supports the following main Actions targeting cooperation with Partner Countries:

- **International credit mobility of individuals and Erasmus Mundus Joint Master Degrees** (under Key Action 1) promoting the mobility of learners and staff from and to Partner Countries;
- **Capacity-building** projects in higher education (under Key Action 2) promoting cooperation and partnerships that have an impact on the modernisation and internationalisation of higher education institutions and systems in Partner Countries, with a special focus on Partner Countries neighbouring the EU;
- Support to **policy dialogue** (under Key Action 3) through the network of Higher Education Reform Experts in Partner Countries neighbouring the EU, the international alumni association, policy dialogue with Partner Countries and international attractiveness and promotion events;
- **Jean Monnet** activities with the aim of stimulating teaching, research and reflection in the field of European Union studies worldwide.

In the field of youth, Erasmus+ supports the following main Actions:

- **Mobility for young people and youth workers** (under Key Action 1) promoting Youth Exchanges, European Voluntary Service and mobility of youth workers in cooperation with Partner Countries neighbouring the EU;
- **Capacity-building** projects in the field of youth (under Key Action 2) promoting cooperation and mobility activities that have a positive impact on the qualitative development of youth work, youth policies and youth systems as well as on the recognition of non-formal education in Partner Countries, notably in African, Caribbean and Pacific (ACP), Asian and Latin American countries;
- Involvement of young people and youth organisations from Partner Countries neighbouring the EU in the youth **Structured Dialogue** (under Key Action 3) through their participation in international meetings, conferences and events that promote dialogue between young people and decision-makers.

In addition, other Actions of the Programme (Strategic Partnerships, Knowledge Alliances, Sectors Skills Alliances, Collaborative Partnerships) are also open to organisations from Partner Countries in so far as their participation brings an added value to the project (for more information, please consult Part B of this Guide).

MULTILINGUALISM

Multilingualism is one of the cornerstones of the European project and a powerful symbol of the EU's aspiration to be united in diversity. Foreign languages have a prominent role among the skills that will help equip people better for the labour market and make the most of available opportunities. The EU has set the goal that every citizen should have the opportunity to acquire at least two foreign languages, from an early age.

The promotion of language learning and linguistic diversity is one of the specific objectives of the Programme. The lack of language competences is one of the main barriers to participation in European education, training and youth programmes.

The opportunities put in place to offer linguistic support are aimed to make mobility more efficient and effective, to improve learning performance and therefore contribute to the specific objective of the Programme.

Linguistic support is available for the language used by participants for studying, carrying out a traineeship or volunteering abroad in the framework of long-term mobility activities supported under Key Action 1. Linguistic support will mainly be offered via the Erasmus+ Online Linguistic Support, as e-learning offers advantages for language learning in terms of access and flexibility. The Erasmus+ Online Linguistic Support includes a mandatory assessment of language competences and voluntary language courses. Language assessment is a crucial aspect of the initiative in order to provide the right preparation for each participant and collect evidence on language skills of EU mobility participants. Therefore, a language assessment will be undertaken by participants before mobility and another assessment will be carried out at the end of the mobility period to monitor progress in language competences. The results of the language assessment test carried out by participants before their departure will not preclude them from taking part in the mobility activity, whatever the result is.

Before the capacity of the online tools can be developed to cover all languages, funding will be provided to beneficiaries of mobility projects with a view to provide linguistic support in the languages not available through the online service offered by the Commission.

Under Key Action 2, Strategic Partnerships in the area of language teaching and learning will be encouraged. Innovation and good practices aiming to promote language skills can include for example teaching and assessment methods, development of pedagogical material, research, computer assisted language learning and entrepreneurial ventures using foreign languages. Furthermore, funding for linguistic support can be provided when necessary to beneficiaries of Strategic Partnerships who organise long-term training and teaching activities for staff, youth workers and learners.

As regards the European Language Label (ELL) awards, National Agencies are encouraged to organise - on a voluntary basis - regular (annual or biennial) national competitions in the Programme Countries. The ELL award should function as a stimulus to exploit and disseminate the results of excellence in multilingualism, and promote public interest in language learning.

EQUITY AND INCLUSION

The Erasmus+ Programme aims at promoting equity and inclusion by facilitating the access to participants with disadvantaged backgrounds and fewer opportunities compared to their peers whenever disadvantage limits or prevents participation in transnational activities for reasons such as:

- disability (i.e. participants with special needs): people with mental (intellectual, cognitive, learning), physical, sensory or other disabilities;
- educational difficulties: young people with learning difficulties; early school-leavers; low qualified adults; young people with poor school performance;
- economic obstacles: people with a low standard of living, low income, dependence on social welfare system or homeless; young people in long-term unemployment or poverty; people in debt or with financial problems;
- cultural differences: immigrants or refugees or descendants from immigrant or refugee families; people belonging to a national or ethnic minority; people with linguistic adaptation and cultural inclusion difficulties;
- health problems: people with chronic health problems, severe illnesses or psychiatric conditions;
- social obstacles: people facing discrimination because of gender, age, ethnicity, religion, sexual orientation, disability, etc.; people with limited social skills or anti-social or risky behaviours; people in a precarious situation; (ex-)offenders, (ex-)drug or alcohol abusers; young and/or single parents; orphans;
- geographical obstacles: people from remote or rural areas; people living in small islands or in peripheral regions; people from urban problem zones; people from less serviced areas (limited public transport, poor facilities).

In the field of youth, an Inclusion and Diversity Strategy has been designed as a common framework to support the participation and inclusion of young people with fewer opportunities in Erasmus+. The Strategy is available on the website⁴ of the European Commission.

PROTECTION AND SAFETY OF PARTICIPANTS

Protection and safety of participants involved in the Erasmus+ projects are important principles of the Programme. All persons participating in the Erasmus+ Programme should have the opportunity to take full advantage of the possibilities for personal and professional development and learning. This should be assured in a safe environment which respects and protects the rights of all persons.

⁴ The Erasmus+ Inclusion and Diversity Strategy in the field of youth: http://ec.europa.eu/youth/library/reports/inclusion-diversity-strategy_en.pdf

To this end each organisation participating in the Erasmus+ Programme must have in place effective procedures and arrangements to promote and guarantee the safety and protection of the participants in their activity. With this regard, all students, trainees, apprentices, pupils, adult learners, young people, staff and volunteers, involved in a mobility activity under the Key Actions 1 or 2 of the Erasmus+ Programme, must be insured against the risks linked to their participation in these activities. Apart from the European Voluntary Service which foresees a specific insurance policy (see Annex I of this Guide), the Erasmus+ Programme does not define a unique format of insurance, nor does it recommend specific insurance companies. The Programme leaves it up to project organisers to seek the most suitable insurance policy according to the type of project carried out and to the insurance formats available at national level. Furthermore, it is not necessary to subscribe to a project-specific insurance, if the participants are already covered by existing insurance policies of the project organisers.

In either case, the following areas must be covered:

- wherever relevant, travel insurance (including damage or loss of luggage);
- third party liability (including, wherever appropriate, professional indemnity or insurance for responsibility);
- accident and serious illness (including permanent or temporary incapacity);
- death (including repatriation in case of projects carried out abroad).

If applicable, it is strongly recommended that participants in transnational activities are in possession of a European Health Insurance Card. This is a free card that gives access to medically necessary, state-provided healthcare during a temporary stay in any of the 28 EU countries, Iceland, Liechtenstein and Norway, under the same conditions and at the same cost (free in some countries) as people insured in that country. More information on the card and on how to obtain it is available at <http://ec.europa.eu/social/main.jsp?catId=559>.

Finally, if projects involve young people under 18, participating organisations are required to obtain the prior authorisation of participation from their parents or those acting on their behalf.

WHAT IS THE STRUCTURE OF THE ERASMUS+ PROGRAMME?

In order to achieve its objectives, the Erasmus+ Programme implements the following Actions:

KEY ACTION 1 – MOBILITY OF INDIVIDUALS

This Key Action supports:

- **Mobility of learners and staff:** opportunities for students, trainees, young people and volunteers, as well as for professors, teachers, trainers, youth workers, staff of education institutions and civil society organisations to undertake a learning and/or professional experience in another country;
- **Erasmus Mundus Joint Master Degrees:** high-level integrated international study programmes delivered by consortia of higher education institutions that award full degree scholarships to the best master students worldwide;
- **Erasmus+ Master Loans:** higher education students from Programme Countries can apply for a loan backed up by the Programme to go abroad for a full Master Degree. Students should address themselves to national banks or student loan agencies participating in the scheme.

KEY ACTION 2 – COOPERATION FOR INNOVATION AND THE EXCHANGE OF GOOD PRACTICES

This Key Action supports:

- Transnational **Strategic Partnerships** aimed to develop initiatives addressing one or more fields of education training and youth and promote innovation, exchange of experience and know-how between different types of organisations involved in education, training and youth or in other relevant fields. Certain mobility activities are supported in so far as they contribute to the objectives of the project;
- **Knowledge Alliances** between higher education institutions and enterprises which aim to foster innovation, entrepreneurship, creativity, employability, knowledge exchange and/or multidisciplinary teaching and learning;
- **Sector Skills Alliances** supporting the design and delivery of joint vocational training curricula, programmes and teaching and training methodologies, drawing on evidence of trends in a specific economic sector and skills needed in order to perform in one or more professional fields;
- **Capacity-building** projects supporting cooperation with Partner Countries in the fields of higher education and youth. Capacity-building projects aim to support organisations/institutions and systems in their modernisation and internationalisation process. Certain types of capacity-building projects support mobility activities in so far as they contribute to the objectives of the project;
- IT support platforms, such as **eTwinning**, the **European Platform for Adult Learning (EPAL)** and the **European Youth Portal**, offering virtual collaboration spaces, databases of opportunities, communities of practice and other online services for teachers, trainers and practitioners in the field of school and adult education as well as for young people, volunteers and youth workers across Europe and beyond.

KEY ACTION 3 – SUPPORT FOR POLICY REFORM

This Key Action supports:

- **Knowledge in the fields of education, training and youth** for evidence-based policy making and monitoring, in particular:
 - country-specific and thematic analysis, including through cooperation with academic networks;
 - peer learning and peer reviews through the Open Methods of Coordination in education, training and youth.
- **Initiatives for policy innovation** to stimulate innovative policy development among stakeholders and to enable public authorities to test the effectiveness of innovative policies through field trials based on sound evaluation methodologies;
- **Support to European policy tools** to facilitate transparency and recognition of skills and qualifications, as well as the transfer of credits, to foster quality assurance, support validation of non-formal and informal learning, skills

management and guidance. This Action also includes the support to networks that facilitate cross-European exchanges, the learning and working mobility of citizens as well as the development of flexible learning pathways between different fields of education, training and youth;

- **Cooperation with international organisations** with highly recognised expertise and analytical capacity (such as the OECD and the Council of Europe), to strengthen the impact and added value of policies in the fields of education, training and youth;
- **Stakeholder dialogue, policy and Programme promotion** involving public authorities, providers and stakeholders in the fields of education, training and youth for raising awareness about the European policy agendas, in particular Europe 2020, Education and Training 2020, the European Youth Strategy, as well as the external dimension of European education, training and youth policies. These activities are essential to develop the capacity of stakeholders to actively support the implementation of policies by stimulating the exploitation of the Programme results and generating tangible impact.

JEAN MONNET ACTIVITIES

The Jean Monnet Activities will support:

- **Academic Modules, Chairs, Centres of Excellence** in order to deepen teaching in European integration studies embodied in an official curriculum of a higher education institution, as well as to conduct, monitor and supervise research on EU content, also for other educational levels such as teacher training and compulsory education. These Actions are also intended to provide in-depth teaching on European integration matters for future professionals in fields which are in increasing demand on the labour market, and at the same time aim at encouraging, advising and mentoring the young generation of teachers and researchers in European integration subject areas;
- **Policy debate with academic world**, supported through: a) **Networks** to enhance cooperation between different universities throughout Europe and around the world, foster cooperation and create a high knowledge exchange platform with public actors and the Commission services on highly relevant EU subjects; b) **Projects** for innovation and cross-fertilisation and spread of EU content aimed to promote discussion, reflection on EU issues and to enhance knowledge about the EU and its processes;
- **Support to associations**, to organise and carry out statutory activities of associations dealing with EU studies and EU issues, and to publicize EU facts among a wider public enhancing active European citizenship.

The Jean Monnet Activities also provide operating grants to **designated institutions** which pursue an aim of European interest and organises **Studies and conferences** with the purpose of providing policy-makers with new insights and concrete suggestions.

SPORT

Actions in the field of sport will support:

- **Collaborative Partnerships**, aimed at promoting the integrity of Sport (anti-doping, fight against match fixing, protection of minors), supporting innovative approaches to implement EU principles on good governance in sport, EU strategies in the area of social inclusion and equal opportunities, encouraging participation in sport and physical activity (supporting the implementation of EU Physical Activity Guidelines, volunteering, employment in sport as well as education and training in sport), and supporting the implementation of the EU guidelines on dual careers of athletes;
- **Not-for-profit European sport events**, granting individual organisations in charge of the preparation, organisation and follow-up to a given event. WHAT IS THE BUDGET?

The Programme has an overall indicative financial envelope of 14.774 billion EUR under Heading 1 and of 1.680 billion EUR under Heading 4 of the EU Budget for the seven years (2014-2020). WHO IMPLEMENTS THE ERASMUS+ PROGRAMME?

THE EUROPEAN COMMISSION

The European Commission is ultimately responsible for the running of the Erasmus+ Programme. It manages the budget and sets priorities, targets and criteria for the Programme on an on-going basis. Furthermore, it guides and monitors the general implementation, follow-up and evaluation of the Programme at European level. The European Commission also bears the overall responsibility for the supervision and coordination of the structures in charge of implementing the Programme at national level.

At European level, the European Commission's Education, Audiovisual and Culture Executive Agency (Executive Agency) is responsible for the implementation of the centralised Actions of the Erasmus+ Programme. The Executive Agency is in charge of the complete life-cycle management of these projects, from the promotion of the Programme, the analysis of the grant requests, the monitoring of projects on the spot, up to the dissemination of the project and Programme results. It is also responsible for launching specific calls for proposals relating to some Actions of the Programme which are not covered through this Guide.

The European Commission, notably through the Executive Agency, is also responsible for:

- carrying out studies in the fields supported by the Programme;
- carrying out research and evidence-based activities through the Eurydice network;
- improving the visibility and the systemic impact of the Programme through dissemination and exploitation activities of the Programme's results;
- ensuring the contractual management and financing of bodies and networks supported by the Erasmus+ Programme;
- managing calls for tenders to provide services within the framework of the Programme.

The National Agencies

The implementation of the Erasmus+ Programme is mainly implemented as Indirect Management, meaning that the European Commission entrusts budget implementation tasks to National Agencies; the rationale of this approach is to bring Erasmus+ as close as possible to its beneficiaries and to adapt to the diversity of national education, training and youth systems. For this purpose, each Programme Country has appointed one or more National Agencies (for the contact details, please consult Annex IV of this Guide). These National Agencies promote and implement the Programme at national level and act as the link between the European Commission and participating organisations at local, regional and national level. It is their task to:

- provide appropriate information on the Erasmus+ Programme;
- administer a fair and transparent selection process for project applications to be funded in their country;
- monitor and evaluate the implementation of the Programme in their country;
- provide support to project applicants and participating organisations throughout the project life-cycle;
- collaborate effectively with the network of all National Agencies and the European Commission;
- ensure the visibility of the Programme;
- promote the dissemination and exploitation of the results of the Programme at local and national level.

In addition, National Agencies play an important role as intermediate structures for the qualitative development of the Erasmus+ Programme by:

- carrying out activities - outside the tasks of project life-cycle management - that support the qualitative implementation of the Programme and/or trigger policy developments in the fields supported by the Programme;
- providing a supportive approach to newcomers and less advantaged target groups in order to remove the obstacles to full participation in the Programme;
- seeking cooperation with external bodies in order to increase the impact of the Programme in their country.

The supportive approach of National Agencies aims at guiding the users of the Programme through all phases, from the first contact with the Programme through the application process to the realisation of the project and the final evaluation. This principle is not in contradiction with the fairness and the transparency of selection procedures. Rather, it is based on the idea that in order to guarantee equal opportunities for everybody, it is necessary to give more assistance to some Programme target groups through advising, counselling, monitoring, and coaching systems tailored to their needs.

WHAT OTHER BODIES ARE INVOLVED IN THE IMPLEMENTATION OF THE PROGRAMME?

Apart from the bodies mentioned above, the following structures provide complementary expertise to the implementation of the Erasmus+ Programme:

EURYDICE NETWORK

The Eurydice network primarily focuses on the way education in Europe is structured and organised at all levels and aims at contributing towards a better mutual understanding of systems in Europe. It provides those responsible for education systems and policies in Europe with European-level comparative analyses and national specific information in the fields of education and youth, which will assist them in their decision-making.

The Eurydice Network produces a vast source of information, including detailed descriptions and overviews of national education systems (National Education systems and Policies), comparative thematic reports devoted to specific topics of Community interest (Thematic Reports), indicators and statistics (Key Data Series), and a series of facts and figures related to education, such as national education structures, school calendars, comparison of teacher salaries and of required taught time for countries and education levels (Facts and Figures).

It consists of a central coordinating unit located at the Executive Agency and national units based in all Erasmus+ Programme Countries plus Albania, Bosnia and Herzegovina, Montenegro and Serbia.

More information is available on the website of the Executive Agency.

eTWINNING SUPPORT SERVICES

Teachers and schools participating in eTwinning receive support from their National Support Services (NSS). These are organisations appointed by the competent national authorities. They assist schools during the process of registration, partner finding and project activity, promote the Action, deliver prizes and quality labels and organise professional development activities for teachers.

The National Support Services are coordinated by a Central Support Service (CSS), which is also responsible for the development of the eTwinning Internet platform and the organisation of teacher professional development activities at European level.

The list of all services and more information available at:
http://www.etwinning.net/en/pub/get_support/contact.htm

EPALE

The Electronic Platform for Adult Learning in Europe - known as EPALE - is a new initiative funded by the Erasmus+ programme. It is open to teachers, trainers and volunteers, as well as policy-makers, researchers and academics involved in adult learning. The site offers interactive networks, enabling users to link with others all around Europe, engage in discussions and exchange good practice.

A calendar of European and national events keeps users up to date on professional development opportunities and can be a helpful tool to prepare mobility activities. Partner search features can also support the preparation of cooperation projects. A library of resources, news feeds and feature articles by leading experts in adult learning ensure that the latest adult education policy and debates are accessible to EPALE users. EPALE is implemented by a Central Support Service and a network of National Support Services in Erasmus+ Programme countries, which are in charge of identifying interesting information and encourage stakeholders to use and contribute to the platform. EPALE can be accessed at: <http://ec.europa.eu/epale>.

- Erasmus+ projects (in particular those implemented under the Capacity-building Action) by disseminating their results and outcomes, notably good practices and innovative initiatives and exploiting these for training purposes.

EUROGUIDANCE NETWORK

Euroguidance is a European network of national resource and information centres. All Euroguidance centres share two common goals:

- to promote the European dimension in guidance for education and vocational training;
- to provide quality information on lifelong guidance and mobility for learning purposes.

The main target group of Euroguidance is guidance practitioners and policy makers from both the educational and employment sectors in all European countries.

EUROPASS NATIONAL CENTRES

Europass aims to help individuals to present and document their skills and qualifications in a clear and transparent way throughout Europe. Communication between job-seekers and employers, as well as mobility for working or learning purposes, are facilitated by this initiative.

In every country (European Union and European Economic Area plus the former Yugoslav Republic of Macedonia and Turkey), a National Europass Centre coordinates all activities related to the Europass documents. It is the first point of contact for any person or organisation interested in using or learning more about Europass.

WHO CAN PARTICIPATE IN THE ERASMUS+ PROGRAMME?

Individuals - students, trainees, apprentices, pupils, adult learners, young people, volunteers, professors, teachers, trainers, youth workers, professionals of organisations active in the fields of education, training and youth constitute the main target population of the Programme. However, the Programme reaches these individuals through organisations, institutions, bodies or groups that organise such activities. The conditions of access to the Programme therefore relate to these two actors: the "participants" (individuals participating in the Programme) and the "participating organisations" (including groups of at least four young people active in youth work but not necessarily in the context of youth organisations, also referred to as informal groups of young people). For both participants and participating organisations, the conditions for participation depend on the country in which they are based.

PARTICIPANTS

As a general rule, participants in Erasmus+ projects must be established in a Programme Country. Some Actions, notably in the fields of higher education and youth, are also open to participants from Partner Countries.

The specific conditions for participating in an Erasmus+ project depend on the type of Action concerned.

In general terms:

- For projects relevant for the field of higher education, the main targets are: higher education students (short cycle, first, second or third cycle), higher education teachers and professors, staff of higher education institutions, trainers and professionals in enterprises;
- For projects relevant for the field of vocational education and training, the main targets are: apprentices and students in vocational education, professionals and trainers in vocational training, staff of initial vocational education organisations, trainers and professionals in enterprises;

For more details on the conditions for participation in each specific Action, please consult Part B and Annex I of this Guide.

PARTICIPATING ORGANISATIONS

Erasmus+ projects are submitted and managed by participating organisations representing the participants. If a project is selected, the applicant participating organisation becomes a beneficiary of an Erasmus+ grant. Beneficiaries sign a grant agreement or are notified of a grant decision which entitles them to receive financial support for the realisation of their project (grant agreements are not signed with individual participants). Some Actions of the Programme are also open to informal groups of young people.

As a general rule, organisations participating in Erasmus+ projects must be established in a Programme Country. Some Actions are also open to participating organisations from Partner Countries, notably in the field of higher education and youth.

The specific conditions for participating in an Erasmus+ project depend on the type of Action supported by the Programme. In general terms, the Programme is open to any organisation active in the fields of education, training, youth or sport. Several Actions are also open to the participation of other players in the labour market.

- greater understanding of interconnections between formal and non-formal education, vocational training and the labour market respectively;
- better quality of their work and activities in favour of students, trainees, apprentices, pupils, adult learners, young people and volunteers;
- greater understanding and responsiveness to social, linguistic and cultural diversity;
- increased ability to address the needs of the disadvantaged;
- increased support for and promotion of mobility activities for learners;
- increased opportunities for professional and career development;
- improved foreign language competences;
- increased motivation and satisfaction in their daily work.

Activities supported under this Action are also expected to produce the following outcomes on participating organisations:

- increased capacity to operate at EU/international level: improved management skills and internationalisation strategies; reinforced cooperation with partners from other countries; increased allocation of financial resources (other than EU funds) to organise EU/international projects; increased quality in the preparation, implementation, monitoring and follow up of EU/international projects;
- innovative and improved way of operating towards their target groups, by providing for example: more attractive programmes for students, trainees, apprentices, young people and volunteers in line with their needs and expectations; improved qualifications of teaching and training staff; improved processes of recognition and validation of competences gained during learning periods abroad; more effective activities for the benefit of local communities, improved youth work methods and practices to actively involve young people and/or to address disadvantaged groups, etc.;

- more modern, dynamic, committed and professional environment inside the organisation: ready to integrate good practices and new methods into daily activities; open to synergies with organisations active in different social, educational and employment fields; planning strategically the professional development of their staff in relation to individual needs and organisational objectives; if relevant, capable of attracting excellent students and academic staff from all over the world.

In the long run, the combined effect of the several thousands of projects supported under this Key Action is expected to have an impact on the systems of education, training and youth in the participating countries, thus stimulating policy reforms and attracting new resources for mobility opportunities in Europe and beyond.

MOBILITY PROJECTS IN THE FIELD OF EDUCATION, TRAINING AND YOUTH

WHAT ARE THE AIMS OF A MOBILITY PROJECT?

Education, training and youth activities play a key role in providing people of all ages with the necessary means to participate actively in the labour market and in society at large. Projects under this Action promote transnational mobility activities targeting learners (students, trainees, apprentices, young people and volunteers), and staff (professors, teachers, trainers, youth workers, and people working in organisations active in the education, training and youth fields) and aiming to:

- support learners in the acquisition of learning outcomes (knowledge, skills and competences) with a view to improving their personal development, their involvement as considerate and active citizens in society and their employability in the European labour market and beyond;
- support the professional development of those who work in education, training and youth with a view to innovating and improving the quality of teaching, training and youth work across Europe;
- enhance notably the participants' foreign languages competence;
- raise participants' awareness and understanding of other cultures and countries, offering them the opportunity to build networks of international contacts, to actively participate in society and develop a sense of European citizenship and identity;
- increase the capacities, attractiveness and international dimension of organisations active in the education, training and youth fields so that they are able to offer activities and programmes that better respond to the needs of individuals, within and outside Europe;
- reinforce synergies and transitions between formal, non-formal education, vocational training, employment and entrepreneurship;
- ensure a better recognition of competences gained through the learning periods abroad.

This Action also supports international mobility activities from or to Partner Countries in the fields of higher education and youth. This action also contributes to cooperation between the EU and eligible Partner Countries and reflects the EU external action objectives, priorities and principles:

- enhance the attractiveness of higher education in Europe and support European higher education institutions in competing on the higher education market worldwide;
- support the priorities identified in the Communications "Increasing the impact of EU Development Policy: an Agenda for Change"¹⁹ and "European Higher Education in the World"²⁰;
- support the internationalisation, attractiveness quality, equity of access and modernisation of higher education institutions outside Europe in view of promoting the development of Partner Countries;
- promote the development and external policy objectives and principles including national ownership, social cohesion, equity, proper geographical balance and diversity. Special attention will be given to the least developed countries as well as to disadvantaged students from poor socio-economic backgrounds and to students with special needs;
- promote non-formal learning and cooperation in the field of youth with Partner Countries.

WHAT IS A MOBILITY PROJECT?

Organisations active in the fields of education, training and youth will receive support from the Erasmus+ Programme to carry out projects promoting different types of mobility. A mobility project will consist of the following stages:

- Preparation (including practical arrangements, selection of participants, set up of agreements with partners and participants, linguistic/intercultural/task-related preparation of participants before departure);
- Implementation of the mobility activities;
- Follow-up (including the evaluation of the activities, the formal recognition - where applicable - of the learning outcomes of participants during the activity, as well as the dissemination and use of the project's outcomes).

An important innovation introduced in Erasmus+ compared to many actions of mobility supported under past European programmes is that Erasmus+ reinforces the support offered to the participants of mobility activities in improving their

foreign language competences before and during their stay abroad. A European online linguistic support service was gradually introduced by the European Commission starting from the year 2014. The service provides the participants in long-term mobility activities with the opportunity to assess their knowledge of the language they will use to study, work or volunteer abroad as well as to follow an online language course to improve their competences (more details on the support to language learning can be found in Annex I).

Furthermore, Erasmus+, more than in the past programmes, offers space for developing mobility activities that involve partner organisations with different backgrounds and active in different fields or socio-economic sectors (e.g. traineeships of university students or VET learners in enterprises, NGOs, public bodies; teachers in schools following professional development courses in companies or training centres; business experts giving lectures or training in higher education institutions, companies active in Corporate Social Responsibility developing volunteering schemes with associations and social enterprises, etc.).

A third important element of innovation and quality of mobility activities is that Erasmus+ participating organisations have the possibility to organise mobility activities within a broader strategic framework and in the medium term. Through a single grant application, covering a period of up to two years, the coordinator of a mobility project will be able to organise several mobility activities, allowing many individuals to go abroad to different countries. As a consequence, under Erasmus+ the applicant organisations will be able to conceive their project in line with the needs of participants, but also according to their internal plans for internationalisation, capacity building and modernisation.

Depending on the profile of participants involved, the following types of mobility projects are supported under Key Action 1 of the Erasmus+ Programme:

- in the field of Education and Training:
 - mobility project for higher education students and staff;
 - mobility project for VET learners and staff;
 - mobility project for school staff;
 - mobility project for adult education staff.

- in the field of Youth
 - mobility project for young people and youth workers.

Long-term mobility of staff, the short and long-term mobility of pupils as well as the blended mobility of adult learners can be supported under Key Action 2 Strategic Partnerships.

The sections below provide the detailed information about the criteria and conditions applying to each typology of mobility project.

MOBILITY PROJECT FOR HIGHER EDUCATION STUDENTS AND STAFF

This mobility project can comprise one or more of the following activities:

Student mobility:

- a **study period** abroad at a partner higher education institution (HEI);
- a **traineeship (work placement)** abroad²¹ in an enterprise or any other relevant workplace²².

A study period abroad may include a traineeship period as well.

To ensure high-quality mobility activities with maximum impact on the students, the mobility activity has to be compatible with the student's degree-related learning and personal development needs. The study period abroad must be part of the student's study programme to complete a degree at a short cycle, first cycle (Bachelor or equivalent), second cycle (Master or equivalent) and third or doctoral cycle.

Traineeships abroad at a workplace are also supported during short cycle, first, second, third cycle studies and within a maximum of one year after the student's graduation. This also includes the 'assistantships' for student teachers.

Wherever possible, the traineeships should be an integrated part of the student's study programme. Student mobility can be in any subject area/academic discipline.

Staff mobility:

- **teaching periods:** this activity allows HEI teaching staff or staff from enterprises to teach at a partner HEI abroad. Staff mobility for teaching can be in any subject area/academic discipline.
- **training periods:** this activity supports the professional development of HEI teaching and non-teaching staff in the form of training events abroad (excluding conferences) and job shadowing/observation periods/training at a partner HEI, or at another relevant organisation abroad.

A period abroad can combine teaching and training activities.

The majority of the budget of this Action will support activities involving mobility between Programme Countries. However, a limited amount of the budget available for this Action can fund international activities between Programme and all Partner Countries of the world, except regions 5, 9 and 12 (see section "eligible countries" in Part A of this Guide).

Funding for mobility between Programme and Partner Countries comes from several financial instruments of the European Union for external cooperation. To ensure that this action follows the EU's external priorities, the Commission has set a number of targets and rules for cooperation with Partner Countries.

Applicants for mobility projects between Programme and Partner countries should take into account the available budget for mobility with different regions of the world and the priorities explained hereafter in the section "additional information for mobility between Programme and Partner Countries".

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN THIS PROJECT?

Participating organisations involved in the mobility project assume the following roles and tasks:

- Applicant organisation from a Programme Country: in charge of applying for the mobility project, signing and managing the grant agreement and reporting. The applicant can be a consortium coordinator: leading a mobility consortium of partner organisations of the same country aimed at organising any type of student and staff mobility.

²¹ Traineeships between Programme and Partner Countries are not foreseen in 2016, either with an Erasmus+ grant, or as a zero-grant from EU funds.

²² Following courses at a higher education institution cannot be considered as a traineeship.

- **Sending organisation:** in charge of selecting students/staff and sending them abroad. This also includes grant payments (for those in Programme Countries), preparation, monitoring and recognition related to the mobility period.
- **Receiving organisation:** in charge of receiving students/staff from abroad and offering them a study/traineeship programme or a programme of training activities, or benefiting from a teaching activity.
- **Intermediary organisation:** this is an organisation active in the labour market or in the fields of education, training and youth work in a Programme Country. It may be a partner in a national mobility consortium, but is not a sending organisation. Its role may be to share and facilitate the administrative procedures of the sending higher education institutions and to better match student profiles with the needs of enterprises in case of traineeships and to jointly prepare participants.

For mobility between Programme and Partner Countries, only higher education institutions from Programme Countries can apply and administer the payments for inbound and outbound mobility.

The sending and receiving organisations, together with the students/staff, must have agreed on the activities to be undertaken by the students - in a 'Learning Agreement' - or by staff members - in a 'Mobility Agreement' - prior to the start of the mobility period. These agreements define the target learning outcomes for the learning period abroad, specify the formal recognition provisions and list the rights and obligations of each party. When the activity is between two higher education institutions (student mobility for studies and staff mobility for teaching), an 'inter-institutional agreement' has to be in place between the sending and the receiving institutions before the exchanges can start.

By signing the Erasmus Charter for Higher Education (ECHE), higher education institutions commit to provide all the necessary support to mobile participants, including linguistic preparation. To support them, online linguistic support is being gradually implemented in the course of the Programme for all long-term mobility activities between Programme Countries lasting two months and longer. It is made available by the European Commission to eligible participants to assess their foreign language competences and to offer, where necessary, the most appropriate language learning before and/or during mobility (for more details, see Annex I of this Guide). Partner Country higher education institutions are not eligible to sign the ECHE, therefore details of the linguistic support offered to mobile participants should be made explicit in the inter-institutional agreement.

WHAT ARE THE CRITERIA USED TO ASSESS THIS PROJECT?

Here below are listed the formal criteria that a higher education mobility project must respect in order to be eligible for an Erasmus+ grant:

GENERAL ELIGIBILITY CRITERIA

Who can apply?	<ul style="list-style-type: none"> ▪ For an application as individual HEI: higher education institutions established in a Programme Country and awarded with an Erasmus Charter for Higher Education (ECHE). For more information on the Charter, see the section "Erasmus Charter for Higher Education" below and the Annex I of this Guide). ▪ For an application as national mobility consortium: coordinating organisations established in a Programme Country and coordinating a consortium awarded with a higher education consortium accreditation. Organisations that do not hold a valid consortium accreditation can apply for this accreditation on behalf of a Mobility Consortium at the same time of applying for a mobility project grant. All the involved higher education institutions from eligible Programme countries must hold an Erasmus Charter for Higher Education (ECHE). These organisations will be eligible for a mobility project only if their application for the consortium accreditation is successful. <p>Higher education students and staff cannot apply directly for a grant; the selection criteria for participation in the mobility activities are defined by the higher education institution in which they study or are employed, in accordance with the provisions foreseen in Annex I to this Guide.</p>

The same applies to mobility projects between Programme and Partner Countries.</p> <p>Both channels (individual application and consortium application) may be used simultaneously. However, the HEI/department remains responsible of preventing double funding of a participant when the two channels are used in the same academic year.</p>

Applicant organisations will be assessed against the relevant **exclusion and selection criteria**. For more information please consult Part C of this Guide.

ADDITIONAL INFORMATION FOR MOBILITY BETWEEN PROGRAMME AND PARTNER COUNTRIES

The budget available for mobility between Programme and Partner Countries is divided between different regions of the world in 11 budgetary envelopes and the size of each budgetary envelope is different. Further information on the amounts available under each budgetary envelope will be published on the National Agencies' websites.

In general the funds will have to be used in a geographically balanced way. The EU has set a number of targets regarding geographical balance and priorities that have to be attained at European level over the whole duration of the programme (2014-2020). The targets do not have to be attained by individual higher education institutions, but National Agencies will take these targets into account in order to allocate the available budget. In addition, higher education institutions are encouraged to work with partners in the poorest and least developed Partner Countries.

These are the **geographical targets** set for mobility between Programme and Partner Countries at EU level by 2020:

- With Developing Asia and Latin America, 25% of the mobility should be organised with the least developed countries of the region. These countries are:
 - For Asia: Afghanistan, Bangladesh, Cambodia, Laos, Nepal, Bhutan and Myanmar;
 - For Latin America: Bolivia, El Salvador, Guatemala, Honduras and Paraguay;
- No more than 30% of the budget available for Asia should be spent on mobility with China and India;
- And no more than 35 % available for Latin America on Brazil and Mexico.

Due to the requirement to carry out mobilities with countries in regions 6, 7, 8,10 and 11²⁹ that contribute to development assistance, mobility for short-, first- and second cycle students is limited to inbound mobility from Partner to Programme Countries³⁰. Outbound mobility towards these regions is only available at doctoral level and for staff.

There will however be a few exceptions for certain Programme Countries. Please check your National Agency's website.

Finally, higher education institutions are free to apply for 100% staff mobility or 100% student mobility or any combination thereof, provided this complies with any secondary criteria set by the National Agency (see section below).

SECONDARY CRITERIA FOR MOBILITY BETWEEN PROGRAMME AND PARTNER COUNTRIES SET BY NATIONAL AGENCIES

Where the budget envelope for a particular Partner Region or Country is limited, a National Agency may choose to add one or more secondary criteria from the list below. In the event that a National Agency chooses to use secondary criteria this decision will be communicated in advance of the deadline, in particular on the National Agency's website.

- The degree level (for example limiting applications to one or two cycles only – BA, MA or PhD);
- Privileging only staff or only student mobility;
- Limiting the duration of mobility periods (for example limiting student mobility to 6 months, or limiting staff mobility to 10 days).

AWARD CRITERIA FOR A MOBILITY PROJECT WITHIN PROGRAMME COUNTRIES³¹

There is no qualitative assessment (the quality has been assessed at the ECHE application stage or when selecting a national mobility consortium) and therefore there are no award criteria.

²⁹ Indicative only. Subject to the provisions of the revised Cotonou Partnership Agreement and multiannual financial framework 2014-2020.

³⁰ See section "eligible countries" in Part A of this Guide.

³¹ Mobility in both directions

Any eligible grant application (after having passed the eligibility check) will get funding.

The maximum grant amount awarded will depend on a number of elements:

- the number of mobility periods and months/days applied for;
- the past performance of the applicant in terms of number of mobility periods, good quality in the implementation of activities and sound financial management, in case the applicant has received a similar grant in previous years;
- the total national budget allocated for the mobility Action.

AWARD CRITERIA FOR A MOBILITY PROJECT BETWEEN PROGRAMME AND PARTNER COUNTRIES

Eligible grant applications (after having passed the eligibility check) will be assessed on the basis of the following criteria:

Relevance of the strategy (maximum 30 points)	The extent to which the planned mobility project is relevant to the internationalisation strategy of the higher education institutions involved (both in the Programme and in the Partner country) and the rationale for choosing staff and/ or student mobility.
Quality of the cooperation arrangements (maximum 30 points)	The extent to which the applicant organisation has previous experience of similar projects with higher institutions in the partner country and the clarity of the description of responsibilities, roles and tasks between partners.
Quality of the activity design and implementation (maximum 20 points)	The completeness and quality of arrangements for the selection of participants, the support provided to them and the recognition of their mobility period (in particular in the Partner country).
Impact and dissemination (maximum 20 points)	The potential impact of the project on participants, beneficiaries, partner organisations, at local, regional and national levels and the quality of measures aimed at disseminating the results of the mobility project at faculty and institution levels, and beyond where applicable, in both the programme and partner countries.

The applicant will explain how the project meets these four criteria from the point of view of its own institution (or institutions in the case of applications submitted by consortia) and the Partner countries' institutions.

To be considered for funding, proposals must score at least 60 points in total, with a minimum of 15 points for "relevance of the strategy".

In order to allocate the available budget for each region, the mobilities planned with each Partner Country will be listed in order of merit in a regional ranking.

The grant awarded to a higher education institution will depend on a number of elements:

- the number of mobility periods and months/days applied for;
- the budget allocated per country or region;
- the geographical balance within a given region or sub-region.

The National Agency may fund mobilities with a Partner Country that comes later in the regional ranking, when it is necessary to ensure geographical balance within that region, as defined by the geographical targets mentioned above.

WHAT ACCREDITATION DO APPLICANTS NEED FOR THIS MOBILITY PROJECT?

ERASMUS CHARTER FOR HIGHER EDUCATION

The award of an Erasmus Charter for Higher Education (ECHE) is a pre-requisite for all higher education institutions established in a Programme Country that wish to participate in a Higher Education mobility project either as a single higher education institution or as a member of a national mobility consortium. Every year, the European Commission - via the Education, Audiovisual and Culture Executive Agency – publishes a specific call for proposals that sets the detailed conditions to be followed and qualitative criteria to be met in order to be awarded with an ECHE. This call is available on the website of the Executive Agency.

For HEIs established in a Partner Country, the HEI must be accredited by the relevant national accreditation organisation. As they are not eligible to receive an ECHE, they must in addition have established an inter-institutional agreement with their Programme Country partner(s) which encapsulates the principles of the ECHE.

CONSORTIUM ACCREDITATION IN HIGHER EDUCATION

An organisation from a Programme Country, applying on behalf of a national mobility consortium, must hold a valid consortium accreditation. This Certificate is awarded by the same National Agency that assesses the request of funding for a higher education mobility project. The requests for accreditation and for mobility projects grant can be made at the same time. However, the grant for mobility projects will be awarded only to those HEIs and organisations that are successful at the end of the accreditation process. To obtain a consortium accreditation, the following conditions must be met:

Who can apply?	<p>Any eligible participating organisation can act as coordinator and apply on behalf of all the organisations involved in the consortium.</p>
Number of participating organisations	<p>A national mobility consortium must comprise minimum three eligible participating organisations, including two sending HEIs.</p> <p>All member organisations of the national mobility consortium must be identified at the time of applying for the consortium accreditation.</p>
Duration of the consortium accreditation	<p>Three consecutive annual calls and no later than 2020/2021.</p>
Where to apply?	<p>To the National Agency of the country in which the applicant organisation is established.</p>
When to apply?	<p>Applicants have to submit their accreditation application by 2 February at 12:00 (midday Brussels time) for projects starting on 1 June of the same year.</p>
How to apply?	<p>Please see part C of this Guide for details on how to apply.</p>

WHAT ELSE SHOULD YOU KNOW ABOUT THIS ACTION?

More specific rules and criteria and additional useful information relating to this Action can be found in the Annex I of this Guide. Interested organisations are invited to read carefully the relevant sections of this Annex before applying for financial support.

WHAT ARE THE FUNDING RULES?

In the application form, the applicants of mobility projects for higher education students and staff will have to provide the following information:

- number of students and staff that are supposed to take part in mobility activities;
- total duration per participant of the planned mobility activities;
- number and total duration of mobility activities (students and staff) realised in the previous two years.

On this basis, the Programme Country National Agencies will award a grant to applicants to support a certain number of mobility activities, up to the maximum number requested by the applicant.

If the applicant submits mobility projects with Partner Countries, it will fill in a separate application form dedicated to mobility to and from Partner Countries.

A separate grant will be awarded for mobilities with Partner Countries.

The following rules will apply to support financially these activities:

A) FUNDING RULES APPLYING TO ALL MOBILITY ACTIVITIES

Eligible costs		Financing mechanism	Amount	Rule of allocation
Organisational Support	Costs directly linked to the implementation of mobility activities (excluding subsistence and travel for participants)	Contribution to unit costs	up to the 100 th participant: 350 EUR per participant + beyond the 100 th participant: 200 EUR per additional participant	Based on the number of mobility participants
Special needs support	Additional costs directly related to participants with disabilities	Real costs	100% of eligible costs, as approved by the National Agency.	Conditional: the request for financial support must be motivated and well justified in a specific application form once participants have been selected

ORGANISATIONAL SUPPORT GRANT FOR THE BENEFICIARY (HIGHER EDUCATION INSTITUTIONS OR CONSORTIA):

The organisational support grant is a contribution to any cost incurred by the institutions in relation to activities in support of student and staff mobility, both inbound and outbound, to comply with the Erasmus Charter for Higher Education in Programme Countries, and with the principles of the ECHE as reflected in the inter institutional agreements agreed in the case of institutions from Partner Countries. For example:

- organisational arrangements with partner institutions, including visits to potential partners, to agree on the terms of the inter-institutional agreements for the selection, preparation, reception and integration of mobile participants; and to keep these inter-institutional agreements updated;
- provide updated course catalogues for international students;
- provide information and assistance to students and staff;
- selection of students and staff;
- preparation of the learning agreements to ensure full recognition of the students' educational components; preparation and recognition of mobility agreements for staff;
- linguistic and intercultural preparation provided to both incoming and outbound students and staff, complementary to the Erasmus+ Online Linguistic Support;
- facilitate the integration of incoming mobile participants in the HEI;
- ensure an efficient mentoring and supervision arrangements of mobile participants;
- specific arrangements to ensure the quality of student traineeships in enterprises;

- ensure recognition of the educational components and related credits, issuing transcript of records and diploma supplements;
- support the reintegration of mobile participants and build on their acquired new competences for the benefit of the HEI and peers.

Higher education institutions in both Programme and Partner Countries commit themselves to comply with all the principles of the Charter to ensure mobility of high quality, including these ones: "ensure that outgoing mobile participants are well prepared for the mobility, including having attained the necessary level of linguistic proficiency" and "provide appropriate linguistic support to incoming mobile participants". Advantages can be taken of existing facilities within the institutions for language training. Those HEIs which would be able to provide student and staff mobility of high quality, including linguistic support, at a lower cost (or because it is funded under other sources than EU funding) would have the possibility to transfer 50% of the organisational support grant to fund more mobility activities.

In all cases, beneficiaries will be contractually obliged to deliver such high quality services and their performance will be monitored and checked by National Agencies, taking into account also the feedback provided by students and staff via Mobility Tool+ and directly accessible to the National Agencies and the Commission.

In the case of mobility within Programme Countries, the organisational support grant is calculated on the number of all supported outbound mobile participants (including mobile participants with a zero-grant from EU funds for the entire mobility period – see below) and incoming staff from enterprises teaching at an HEI, that is the beneficiary or a member of the national mobility consortium. Mobile participants with a zero-grant from EU funds for the entire mobility period count as supported mobile participant as they benefit from the mobility framework and organisational activities. Organisational support is therefore also paid for these participants.

In the case of mobility between Programme and Partner Countries, the organisational support grant is calculated on the number of all supported outbound mobile participants from Programme Countries and all inbound mobile participants from Partner Countries. Mobile participants with a zero-grant from EU funds for the entire mobility period may count as supported mobile participant as they benefit from the mobility framework and organisational activities.

In the case of national mobility consortia, this grant can be shared among all the national members according to rules that they will have agreed among themselves. For mobility between Partner and Programme Countries, the organisational support grant will be shared by the partners concerned on a mutually acceptable basis decided upon by the participating institutions.

MOBILE PARTICIPANTS WITH A ZERO-GRANT FROM EU FUNDS

Students and staff with a zero-grant from EU funds are mobile participants that do not receive an EU grant related to travel and subsistence, but they otherwise fulfil all student and staff mobility criteria and benefit from all advantages of being Erasmus+ student and staff. They may receive a regional, national or other type of grant to contribute to their mobility costs. The number of mobile participants with a zero-grant from EU funds for the entire mobility period counts in the statistics for the performance indicator used to allocate the EU budget between the countries, both for mobility within Programme Countries and for mobility between Programme and Partner Countries.

SPECIAL NEEDS SUPPORT

A person with special needs is a potential participant whose individual physical, mental or health-related situation is such that his/her participation in the project / mobility Action would not be possible without extra financial support. Higher education institutions that have selected students and/or staff with special needs can apply for additional grant support to the National Agency in order to cover the supplementary costs for their participation in the mobility activities. For persons with special needs, the grant support may therefore be higher than the maximum individual grant amounts set out below. Higher education institutions will describe on their website how students and staff with special needs can request such additional grant support.

Extra funding for students and staff with special needs may be provided also from other sources at local, regional and/or national level.

As regards the accompanying persons for students and staff with special needs, they are entitled to receive a contribution based on real costs .

Each higher education institution, by signing the Erasmus Charter for Higher Education, commits to ensuring equal access and opportunities to participants from all backgrounds. Therefore, students and staff with special needs can benefit from the support services that the receiving institution offers to its local students and staff.

OTHER SOURCES OF FUNDING

Students and staff may receive, on top of the EU grant, or in replacement of the EU grant (mobile participants with a zero-grant from EU funds) regional, national or any other type of grant, managed by another organisation than the National Agency (e.g. Ministry or regional authorities). This type of grants provided by other sources of funding than the EU budget is not subject to the amounts and min/max ranges set in this document.

B) GRANT SUPPORT FOR THE MOBILITY OF STUDENTS

Students may receive an EU grant as a contribution to their costs for travel and subsistence during the period of study or traineeship abroad. These amounts will be defined by the National Agencies in agreement with National Authorities, and/or the higher education institutions on the basis of objective and transparent criteria as described below. The exact amounts will be published on the websites of National Agencies and of higher education institutions.

MOBILITY WITHIN PROGRAMME COUNTRIES - CRITERION 1 – SENDING AND RECEIVING COUNTRIES OF THE STUDENT

The EU grant provided to students will depend on their mobility flow, as follows:

- mobility towards a country with similar living costs: students will receive the medium range EU grant;
- mobility towards a country with higher living costs: students will receive the higher range EU grant;
- mobility towards a country with lower living costs: students will receive the lower range EU grant.

Programme Countries are divided into the three following groups:

Group 1 Programme Countries with higher living costs	Denmark, Ireland, France, Italy, Austria, Finland, Sweden, United Kingdom, Liechtenstein, Norway
Group 2 Programme Countries with medium living costs	Belgium, Czech Republic, Germany, Greece, Spain, Croatia, Cyprus, Luxembourg, Netherlands, Portugal, Slovenia, Iceland, Turkey
Group 3 Programme Countries with lower living costs	Bulgaria, Estonia, Latvia, Lithuania, Hungary, Malta, Poland, Romania, Slovakia, former Yugoslav Republic of Macedonia

The amounts defined by National Agencies will be set within the following minimum and maximum ranges:

- Medium range EU grant: a medium range, between **200 and 450 EUR per month**, will apply to mobility activities towards a country of similar living costs: a) from Group 1 to Group 1, b) from Group 2 to Group 2 and c) from Group 3 to Group 3.
- Higher range EU grant: corresponds to the medium range applied by the National Agency plus at least 50 EUR and between **250 and 500 EUR per month**. It applies to mobility activities towards a country of higher living costs: a) from Group 2 to Group 1 countries and b) from Group 3 to Group 1 and 2 countries.
- Lower range EU grant: corresponds to the medium range applied by the National Agency minus at least 50 EUR and between **150 and 400 EUR per month**. It applies to mobility activities towards a country of lower living costs: a) Group 1 to Group 2 and 3 countries and b) from Group 2 to Group 3.

When defining the amounts to be applied by beneficiaries in their country, National Agencies will consider two specific criteria:

- the availability and the level of other sources of co-financing from private or public bodies at local, regional or national level to complement the EU grant;
- the general level of demand of students who intend to study or receive training abroad.

National Agencies may decide to grant flexibility to their higher education institutions by fixing ranges instead of amounts at national level. This should be based on justified grounds, for example in countries where co-financing is available at regional or institutional level.

MOBILITY WITHIN PROGRAMME COUNTRIES - CRITERION 2 - ADDITIONAL SUPPORT FOR SPECIFIC TARGET GROUPS, ACTIVITIES AND SENDING COUNTRIES/REGIONS

Students from disadvantaged backgrounds (other than those with special needs)

The national authorities together with the National Agencies responsible for the implementation of Erasmus+ in a given Programme Country may decide (based on an opt-in/opt-out option, depending on the support already provided at national level) that all the HEIs in their country should top up the individual support from their EU grant to students from disadvantaged backgrounds (including refugees, asylum seekers and migrants), with a single amount of **between 100 and 200 EUR per month**. The precise single monthly amount and the criteria to be applied would be defined at national level by the national authorities.

Students in traineeships

Students carrying out traineeships will receive an additional top-up from the EU grant with an amount **between 100 and 200 EUR per month**. The precise level will be determined by National Agencies and/or higher education institutions according to the level of demand and level of co-financing for this type of mobility. In all cases, the same level should be given to all students within the same higher education institution, independently from any top-up and/or contribution in kind that the student may receive from the host enterprise. Students from disadvantaged backgrounds who take part in traineeships are entitled to receive the top-up for students from disadvantaged backgrounds instead of the top-up for traineeships, in case the top-up for traineeships is lower.

Students from outermost Programme Countries and regions

Considering the constraints imposed by the remoteness from other Programme Countries, students from outermost regions, Cyprus, Iceland, Malta and Overseas Countries and Territories will receive the following higher amounts for individual support:

From	To	Amount
Outermost regions, Cyprus, Iceland and Malta, Overseas Countries and Territories	Group 1 countries	750 EUR per month
	Group 2 countries	700 EUR per month
	Group 3 countries	650 EUR per month

In addition to the above-mentioned amounts for individual support, students from these countries will receive the following top-up amounts, to support them in covering their travel costs:

Travel distances ³²	Amount
Between 100 and 499 KM:	180 EUR per participant
Between 500 and 1999 KM:	275 EUR per participant
Between 2000 and 2999 KM:	360 EUR per participant
Between 3000 and 3999 KM:	530 EUR per participant
Between 4000 and 7999 KM:	820 EUR per participant
8000 KM or more:	1100 EUR per participant

Top-ups for traineeships or disadvantaged backgrounds would not apply in this case.

Level of financial support defined by higher education institutions

In all cases, higher education institutions will be required to respect the following principles and criteria when defining and/or applying the EU rates within their institution:

- Once the rates have been defined by the institutions, they shall remain the same throughout the duration of the mobility project. It is not possible to decrease or increase the level of grants within the same project.
- The rates must be defined and/or applied in an objective and transparent manner, taking into account all the principles and the methodology described above (i.e. considering the mobility flow as well as the additional specific funding);
- The same level of grant must be given to all students going to the same group of countries for the same type of mobility – studies or traineeships (except for students from disadvantaged backgrounds or with special needs).

MOBILITY BETWEEN PROGRAMME AND PARTNER COUNTRIES

³² Based on the travel distance per participant. Travel distances must be calculated using the distance calculator supported by the European Commission (http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm). The distance of a one-way travel must be used to calculate the amount of the EU grant that will support the round trip.

The amounts for individual support are set as follows:

From	To	Amount
Eligible Partner Countries	Group 1 Programme Countries	850 EUR per month
	Group 2 Programme Countries	800 EUR per month
	Group 3 Programme Countries	750 EUR per month
Programme Countries	Partner Countries	650 EUR per month

In addition, students going to/coming from Partner Countries will receive the following top-up amounts, to support them in covering their travel costs:

Travel distances ³³	Amount
Between 100 and 499 KM:	180 EUR per participant
Between 500 and 1999 KM:	275 EUR per participant
Between 2000 and 2999 KM:	360 EUR per participant
Between 3000 and 3999 KM:	530 EUR per participant
Between 4000 and 7999 KM:	820 EUR per participant
8000 KM or more:	1100 EUR per participant

³³ Based on the travel distance per participant. Travel distances must be calculated using the distance calculator supported by the European Commission (http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm). The distance of a one-way travel must be used to calculate the amount of the EU grant that will support the round trip.

C) GRANT SUPPORT FOR THE MOBILITY OF STAFF

Staff will receive an EU grant as a contribution to their costs for travel and subsistence during the period abroad as follows:

Eligible costs		Financing mechanism	Amount	Rule of allocation
Travel	Contribution to the travel costs of participants, from their place of origin to the venue of the activity and return	Contribution to unit costs	For travel distances between 100 and 499 KM: 180 EUR per participant	Based on the travel distance per participant. Travel distances must be calculated using the distance calculator supported by the European Commission ³⁴ . The applicant must indicate the distance of a one-way travel to calculate the amount of the EU grant that will support the round trip ³⁵
			For travel distances between 500 and 1999 KM: 275 EUR per participant	
			For travel distances between 2000 and 2999 KM: 360 EUR per participant	
			For travel distances between 3000 and 3999 KM: 530 EUR per participant	
			For travel distances between 4000 and 7999 KM: 820 EUR per participant	
			For travel distances of 8000 KM or more: 1100 EUR per participant	
Individual support	Costs directly linked to the subsistence of participants during the activity	Contribution to unit costs	up to the 14 th day of activity: <u>A1.1</u> if mobility between Programme Countries or <u>A1.2</u> if mobility between Programme and Partner Countries, per day per participant + between the 15 th and 60 th day of activity: 70% of <u>A1.1</u> if mobility between Programme Countries or <u>A1.2</u> if mobility between Programme and Partner Countries, per day per participant	Based on the duration of the stay per participant (if necessary, including also one travel day before the activity and one travel day following the activity).

³⁴ http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm

³⁵ For example, if a person from Madrid (Spain) is taking part in an activity taking place in Rome (Italy), the applicant will a) calculate the distance from Madrid to Rome (1365,28 KM); b) select the applicable travel distance band (i.e. between 500 and 1999 KM) and c) calculate the EU grant that will provide a contribution to the costs of travel of the participant from Madrid to Rome and return (275 EUR).

TABLE A – INDIVIDUAL SUPPORT (AMOUNTS IN EURO PER DAY)

The amounts depend on the receiving country. These amounts will be set within the minimum and maximum ranges provided in the table below. When defining the amounts to be applied by beneficiaries in their country, National Agencies, in agreement with National Authorities, will consider two specific criteria:

- the availability and the level of other sources of co-financing from private or public bodies at local, regional or national level to complement the EU grant;
- the general level of demand of staff who intend to teach or receive training abroad.

The same percentage within the range should be applied to all destination countries. It is not possible to give the same amount for all destination countries.

Receiving country	Staff from Programme Countries	Staff from Partner Countries
	Min-Max (per day)	Amount (per day)
	A1.1	A1.2
Denmark, Ireland, Netherlands, Sweden, United Kingdom	80-160	160
Belgium, Bulgaria, Czech Republic, Greece, France, Italy, Cyprus, Luxembourg, Hungary, Austria, Poland, Romania, Finland, Iceland, Liechtenstein, Norway, Turkey	70-140	140
Germany, Spain, Latvia, Malta, Portugal, Slovakia, former Yugoslav Republic of Macedonia	60-120	120
Estonia, Croatia, Lithuania, Slovenia	50-100	100
Partner Countries	160	Not eligible

For mobility activities between Programme Countries, National Agencies may decide to grant flexibility to their higher education institutions by fixing ranges instead of amounts at national level. This should be based on justified grounds, for example in countries where co-financing is available at regional or institutional level. The exact amounts will be published on the website of each National Agency and higher education institutions.

MOBILITY PROJECT FOR VET LEARNERS AND STAFF

A VET mobility project can comprise one or more of the following activities:

Learners' mobility:

- **a VET traineeship** abroad for up to 12 months.

This activity is open to both apprentices and students in vocational training schools. These learners undertake a vocational training placement in another country. Learners are hosted either at a workplace (in an enterprise or other relevant organisation) or at a VET school (with periods of work-based learning in an enterprise or other relevant organisation).

Each mobility activity is set within a quality framework previously agreed upon by the sending and receiving organisations to ensure a high level of quality for the activity, including a "Learning Agreement".

The learning outcomes are formally recognised and validated at an institutional level, course contents are adapted as necessary to ensure that the mobility period abroad fits well with the course in which the apprentice/VET student is enrolled.

In order to strengthen the employability of young people and to facilitate their transition to the labour market, recent graduates from VET schools or companies providing VET to apprentices can participate in this activity as well.

Staff mobility:

- **teaching/training assignments:** this activity allows staff of VET schools to teach at a partner VET school abroad. It also allows staff of enterprises to provide training at a VET organisation abroad.
- **staff training:** this activity supports the professional development of VET staff in the form of a work placement or a job shadowing/observation period abroad in an enterprise or any other VET organisation.

Erasmus+ supports learning mobility of staff that:

- is framed into a strategic approach of the participating organisations (aimed at modernising and internationalising their mission);
- responds to clearly identified staff development needs and is accompanied by appropriate selection, preparation and follow-up measures;
- ensures that the learning outcomes of participating staff are properly recognised and ensures that the learning outcomes are disseminated and widely used within the organisation.

These activities are also an opportunity for VET staff to gain competences in addressing the needs of learners with disadvantaged backgrounds. Given the current context concerning young migrants, refugees and asylum seekers, particular attention will be also given to support projects that train VET staff in such areas as training refugee children, intercultural classrooms, teaching youngsters in their second language, classroom tolerance and diversity.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN THIS PROJECT?

Participating organisations involved in the mobility project assume the following roles and tasks:

- **Applicant organisation:** in charge of applying for the mobility project, signing and managing the grant agreement and reporting. The applicant can be a consortium coordinator: leading a national mobility consortium of partner organisations of the same country aimed at sending VET learners and staff to activities abroad. The national mobility consortium coordinator can also – but not necessarily – act as sending organisation.
- **Sending organisation:** in charge of selecting VET learners/staff and sending them abroad.
- **Receiving organisation:** in charge of receiving foreign VET learners/staff and offering them a programme of activities, or benefiting from a training activity provided by VET staff.
- **Intermediary organisation:** this is an organisation active in the labour market or in the fields of education, training and youth. It is a partner in a national mobility consortium, but is not a sending organisation. Its role may be to share and facilitate the administrative procedures of the sending VET organisations and to better match apprentice/student profiles with the needs of enterprises in case of traineeships and to jointly prepare participants.

The sending and receiving organisations, together with the students/staff, must have agreed on the activities to be undertaken by the students - in a 'Learning Agreement' - or by staff members - in a 'Mobility Agreement' - prior to the start of the mobility period. These agreements define the target learning outcomes for the learning period abroad, specify the formal recognition provisions and list the rights and obligations of each party.

VET learners going on mobility for one month or longer are eligible to receive a linguistic support. Online linguistic support is being gradually implemented in the course of the Programme. It is made available by the European Commission to eligible participants to assess their foreign language competences and to offer, where necessary, the most appropriate language learning before and/or during mobility (for more details, see Annex I of this Guide).

For VET Mobility projects, applicant organisations can choose between applying with or without an Erasmus+ VET Mobility Charter, depending on whether the organisations involved have been awarded a Charter or not during the previous year. The eligibility and award criteria for these two application modalities are described below.

Furthermore, they must score at least half of the maximum points in each of the categories of award criteria mentioned above (i.e. minimum 15 points for the categories "relevance of the project" and "impact and dissemination"; 20 points for the category "quality of the project design and implementation").

GRANT AWARD

The maximum grant amount awarded for selected projects will depend on a number of elements:

- the number and duration of mobility periods applied for;
- the past performance of the applicant in terms of number of mobility periods, good quality in the implementation of activities and sound financial management, in case the applicant has received a similar grant in previous years;
- the total national budget allocated for the mobility Action.

WHAT ELSE YOU SHOULD KNOW ABOUT THIS ACTION?

PARTICIPANTS FROM OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES

In line with the Regulation establishing the Erasmus+ Programme, which calls on taking into account the constraints imposed by the remoteness of the outermost regions and the Overseas Countries and Territories (OCTs) of the Union when implementing the Programme, special funding rules are set in order to support expensive travel costs of participants from outermost regions and OCTs insufficiently covered by the the standard funding rules (based on contribution to unit costs per travel distance band).

Applicants of mobility projects will be allowed to claim financial support for travel costs of participants from outermost regions and OCTs under the budget heading "exceptional costs" (up to a maximum of 80% of total eligible costs: see "What are the funding rules?"). This would be allowed provided that applicants can justify that the standard funding rules (based on contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants.

AWARD CRITERIA FOR APPLICATIONS FROM VET MOBILITY CHARTER HOLDERS

There is no qualitative assessment (the quality has been assessed at the stage of the application for the VET Mobility Charter itself) and therefore there are no award criteria.

Any eligible grant application (after having passed the eligibility check) will get funding.

The maximum grant amount awarded will depend on a number of elements:

- the number of mobility periods and months/days applied for;

- the past performance of the applicant in terms of number of mobility periods, good quality in the implementation of activities and sound financial management, in case the applicant has received a similar grant in previous years;
- the total national budget allocated for the mobility Action.

WHAT ACCREDITATION DO APPLICANTS NEED FOR THIS MOBILITY PROJECT?

THE ERASMUS+ VET MOBILITY CHARTER

The Erasmus+ VET Mobility Charter aims to improve European internationalisation strategies in the field of VET and to make them more sustainable, thus enhancing the quality and quantity of transnational VET mobility. Calls for awarding the VET Mobility Charter are published annually on National Agencies' websites.

The acquirement of a VET Mobility Charter gives the VET Mobility Charter holders the possibility to apply in a simplified way under the Erasmus+ Key Action 1 mobility for VET learners and staff.

WHAT ELSE YOU SHOULD KNOW ABOUT THIS ACTION?

PARTICIPANTS FROM OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES

In line with the Regulation establishing the Erasmus+ Programme, which calls on taking into account the constraints imposed by the remoteness of the outermost regions and the Overseas Countries and Territories (OCTs) of the Union when implementing the Programme, special funding rules are set in order to support expensive travel costs of participants from outermost regions and OCTs insufficiently covered by the standard funding rules (based on contribution to unit costs per travel distance band).

Applicants of mobility projects will be allowed to claim financial support for travel costs of participants from outermost regions and OCTs under the budget heading "exceptional costs" (up to a maximum of 80% of total eligible costs: see "What are the funding rules?"). This would be allowed provided that applicants can justify that the standard funding rules (based on contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants.

OTHER INFORMATION

More compulsory criteria and additional useful information relating to this Action can be found in Annex I of this Guide. Interested organisations are invited to read carefully the relevant sections of this Annex before applying for financial support.

MOBILITY PROJECT FOR SCHOOL EDUCATION STAFF

This mobility project can comprise one or more of the following activities:

Staff mobility:

- **teaching assignments:** this activity allows teachers or other school education staff to teach at a partner school abroad;
- **staff training:** this activity supports the professional development of teachers, school leaders or other school education staff in the form of: a) participation in structured courses or training events abroad; b) a job shadowing/observation period abroad in a partner school or another relevant organisation active in the field of school education.

These activities are also an opportunity for teachers to gain competences in addressing the needs of pupils with disadvantaged backgrounds. Given the current context concerning young migrants, refugees and asylum seekers, particular attention will be also given to support projects that train teachers in such areas as training refugee children, intercultural classrooms, teaching pupils in their second language, classroom tolerance and diversity.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN THIS PROJECT?

Participating organisations involved in the mobility project assume the following roles and tasks:

- Applicant organisation: in charge of applying for the mobility project, signing and managing the grant agreement and reporting. If the applicant organisation is a school, it also acts as sending organisation. The applicant can be a consortium coordinator: leading a national mobility consortium of partner organisations of the same country aimed at sending school education staff to activities abroad.
- Sending organisation: in charge of selecting teachers and other school education staff and sending them abroad.
- Receiving organisation: in charge of receiving teachers and other school education staff and offering them a programme of activities, or benefiting from a teaching activity provided by them.

The specific role of the receiving organisation depends on the type of activity and the relationship with the sending organisation. The receiving organisation may be:

- a course provider (in the case of participation in a structured course or training event);
- a partner school or other relevant organisation (in the case of e.g. job shadowing or teaching assignments). In this case, the sending and receiving organisations, together with the participants, should establish an agreement before the start of the activity. This agreement should define the objectives and activities for the period abroad, and specify the rights and obligations of each party.

Erasmus+ supports learning mobility of staff that:

- is framed within a European Development Plan for the sending organisation (aimed at modernising and internationalising their mission);
- responds to clearly identified staff development needs;
- is accompanied by appropriate selection, preparation and follow-up measures;
- ensures that the learning outcomes of participating staff are properly recognised;
- ensures that the learning outcomes are disseminated and widely used within the organisation.

WHAT ELSE SHOULD YOU KNOW ABOUT THIS ACTION?

PARTICIPANTS FROM OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES

In line with the Regulation establishing the Erasmus+ Programme, which calls on taking into account the constraints imposed by the remoteness of the outermost regions and the Overseas Countries and Territories (OCTs) of the Union when implementing the Programme, special funding rules are set in order to support expensive travel costs of participants from outermost regions and OCTs insufficiently covered by the the standard funding rules (based on contribution to unit costs per travel distance band).

Applicants of mobility projects will be allowed to claim financial support for travel costs of participants from outermost regions and OCTs under the budget heading "exceptional costs" (up to a maximum of 80% of total eligible costs: see "What are the funding rules?"). This would be allowed provided that applicants can justify that the standard funding rules (based on contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants.

MOBILITY PROJECT FOR ADULT EDUCATION STAFF

This mobility project can comprise one or more of the following activities:

Staff mobility:

- **teaching/training assignments:** this activity allows staff of adult education organisations to teach or provide training at a partner organisation abroad.
- **staff training:** this activity supports the professional development of adult education staff in the form of: a) participation in structured courses or training events abroad; b) a job shadowing/observation period abroad in any relevant organisation active in the adult education field.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN THIS PROJECT?

Participating organisations involved in the mobility project assume the following roles and tasks:

- Applicant organisation: in charge of applying for the mobility project, signing and managing the grant agreement and reporting. The applicant can be a consortium coordinator: leading a national mobility consortium of partner organisations of the same country aimed at sending adult education staff to activities abroad. The consortium coordinator can also – but not necessarily – act as sending organisation.
- Sending organisation: in charge of selecting staff and professionals active in the field of adult education and sending them abroad. The sending organisation is either the applicant organisation or a partner in a national mobility consortium.
- Receiving organisation: in charge of receiving foreign adult education staff and offering them a programme of activities, or benefiting from a training activity provided by them.

The specific role of the receiving organisation depends on the type of activity and the relationship with the sending organisation. The receiving organisation may be:

- a course provider (in the case of participation in a structured course or training event);
- a partner or any other relevant organisation active in the adult education field (in the case of e.g. job shadowing or teaching assignments). In this case, the sending organisation, together with the participants, should agree the objectives and activities for the period abroad and specify the rights and obligations of each party before the start of the activity.

Erasmus+ supports learning mobility of staff that:

- is framed within a European Development Plan of the sending organisations (aimed at modernising and internationalising their mission);
- responds to clearly identified staff development needs;
- is accompanied by appropriate selection, preparation and follow-up measures;
- ensures that the learning outcomes of participating staff are properly recognised and
- ensures that the learning outcomes are disseminated and widely used within the organisation.

WHAT ELSE SHOULD YOU KNOW ABOUT THIS ACTION?

PARTICIPANTS FROM OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES

In line with the Regulation establishing the Erasmus+ Programme, which calls on taking into account the constraints imposed by the remoteness of the outermost regions and the Overseas Countries and Territories (OCTs) of the Union when implementing the Programme, special funding rules are set in order to support expensive travel costs of participants from outermost regions and OCTs insufficiently covered by the the standard funding rules (based on contribution to unit costs per travel distance band).

Applicants of mobility projects will be allowed to claim financial support for travel costs of participants from outermost regions and OCTs under the budget heading "exceptional costs" (up to a maximum of 80% of total eligible costs: see "What are the funding rules?"). This would be allowed provided that applicants can justify that the standard funding rules (based on contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants.

OTHER INFORMATION

More compulsory criteria and additional useful information relating to this Action can be found in Annex I of this Guide. Interested organisations are invited to read carefully the relevant sections of this Annex before applying for financial support.

MOBILITY PROJECT FOR YOUNG PEOPLE AND YOUTH WORKERS

The main budget of this Action is allocated to support transnational activities involving organisations and participants from Programme Countries. However, around 25% of the budget available for this Action can fund international activities including organisations and participants from Programme and Partner Countries neighbouring the EU (regions 1 to 4; see section "Eligible countries" in Part A of this Guide).

A mobility project can comprise of one or more of the following activities:

Mobility of young people:

▪ **Youth Exchanges:**

Youth Exchanges allow groups of young people from at least two different countries to meet and live together for up to 21 days. During a Youth Exchange, participants, supported by group leaders, jointly carry out a work programme (a mix of workshops, exercises, debates, role-plays, simulations, outdoor activities, etc.) designed and prepared by them before the Exchange. Youth Exchanges allow young people to: develop competences; become aware of socially relevant topics/thematic areas; discover new cultures, habits and life-styles, mainly through peer-learning; strengthen values like solidarity, democracy, friendship, etc. The learning process in Youth Exchanges is triggered by methods of non-formal education. The rather short duration makes the involvement of young people with fewer opportunities appropriate; as such a Youth Exchange offers an international mobility experience in the safety of a group with the possibility of having an adequate number of group leaders to take care of the participants. A Youth Exchange can also be a good setting for discussing and learning about inclusion and diversity issues. Youth Exchanges are based on a transnational cooperation between two or more participating organisations from different countries within and outside the European Union.

The following activities are not eligible for grants under Youth Exchanges: academic study trips; exchange activities which aim to make financial profit; exchange activities which can be considered as tourism; festivals; holiday travel; performance tours.

▪ **European Voluntary Service:**

This activity allows young people aged 17-30 to express their personal commitment through unpaid and full-time voluntary service for up to 12 months in another country within or outside the European Union. Young volunteers are given the opportunity to contribute to the daily work of organisations dealing with youth information and policies, young people's personal and socio-educational development, civic engagement, social care, inclusion of disadvantaged, environment, non-formal education programmes, ICTs and media literacy, culture and creativity, development cooperation, etc. Young people with fewer opportunities can receive additional support to enable their participation and would also be allowed to go on EVS for a shorter duration of time (from 2 weeks and up).

A project can include between 1 and 30 volunteers who can do their voluntary service either individually or in group.

Participating organisations are responsible for:

- arranging subsistence, lodging and local transports of volunteers;
- envisaging tasks and activities for volunteers that respect the qualitative principles of the European Voluntary Service, as described in the EVS Charter;
- providing to volunteers an on-going task-related, linguistic, personal and administrative support throughout the duration of the activity.

The participation in an EVS activity must be free of charge for volunteers, with the exception of a possible contribution for travel costs (if the Erasmus+ grant does not fully cover these costs) and additional expenses not linked to the implementation of the activity. The essential costs for volunteers' participation in the EVS activity are covered by the Erasmus+ grant or through other means afforded by the participating organisations.

Besides the support provided to the volunteers by the participating organisations, the National Agencies or regional SALTOS organise a Training and Evaluation Cycle⁴⁷ to be attended by each volunteer and consisting of: a) an on-arrival training for voluntary services lasting 2 months and longer; b) a mid-term evaluation, for voluntary services lasting 6 months and longer.

⁴⁷ Detailed information can be found in the document "EVS Training and Evaluation Cycle Guidelines and minimum quality standards":

http://ec.europa.eu/youth/programme/mobility/documents/evs-training-evaluation-guidelines_en.pdf

The following activities are not considered as a European Voluntary Service within the framework of Erasmus+: occasional, unstructured, part-time volunteering; a work placement in an enterprise; a paid job; a recreation or tourist activity; a language course; exploitation of a cheap workforce; a period of study or vocational training abroad.

Mobility of youth workers:

▪ **Youth workers' training and networking:**

This activity supports the professional development of youth workers, through the implementation of activities such as transnational/international seminars, training courses, contact-making events, study visits, etc. or job shadowing/observation periods abroad in an organisation active in the youth field. All these activities are arranged by the organisations participating in the project. The participation of youth workers in such activities contributes to capacity building of their organisation. The learning outcomes should be further disseminated.

In 2016, in the selection of projects emphasis will be put on:

- reaching out to marginalised young people, promoting diversity, intercultural and inter-religious dialogue, common values of freedom, tolerance and respect of human rights as well as on projects enhancing media literacy, critical thinking and sense of initiative of young people as well as
- equipping youth workers with competences and methods needed for transferring the common fundamental values of our society particularly to the hard to reach young people and preventing violent radicalisation of young people as well.

In this regard, taking into account the critical context in Europe - and considering the fact that youth work, non-formal learning activities and volunteering can significantly contribute to address the needs of refugees, asylum seekers and migrants and/or increase awareness about this issue within local communities – particular attention will also be given to support youth mobility projects involving or focussing on the refugees/asylum seekers and migrants.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN THIS PROJECT?

Participating organisations involved in the mobility project assume the following roles and tasks:

- Coordinator of a youth mobility project: applying for the whole project on behalf of all the partner organisations.
- Sending organisation: in charge of sending young people and youth workers abroad (this includes: organising practical arrangements; preparing participants before departure; providing support to participants during all the phases of the project).
- Receiving organisation: in charge of hosting the activity, developing a programme of activities for participants in cooperation with participants and partner organisations, providing support to participants during all the phases of the project.

Young volunteers doing a European Voluntary Service lasting two months or longer are eligible to receive linguistic support. Online linguistic support is being gradually implemented in the course of the Programme. It is made available by the European Commission to eligible participants to assess their foreign language competences and to offer, where necessary, the most appropriate language learning before and/or during mobility (for more details, see Annex I of this Guide).

WHAT ARE THE CRITERIA USED TO ASSESS THIS PROJECT?

Here below are listed the formal criteria that the mobility project must respect in order to be eligible for an Erasmus+ grant:

If a Youth mobility project foresees only one activity, the coordinator must also act either as sending or receiving organisation except if the activity is a European Voluntary Service. If a youth mobility project foresees more than one activity, the project coordinator can – but not necessarily has to – act as sending organisation or receiving organisation. In all cases, the coordinator cannot be an organisation from a Partner Country neighbouring the EU.</p> <p>Activities within Programme Countries: all participating organisations must be from a Programme Country.</p> <p>Activities with Partner Countries neighbouring the EU: the activity must involve at least one participating organisation from a Programme Country and one participating organisation from a Partner Country neighbouring the EU.</p>

⁴⁸ In this context a public body at national or regional level is considered a public body that 1) provides services or has an administrative area of competence that covers the whole national or regional territory and b) has a monopoly, in the sense that there are no other bodies that carry out the same functions in the country or region (typical examples: Ministries, State Agencies, Regional public authorities, etc.). In this sense, schools, universities or other bodies, even if they are established by national law, are excluded from this category and qualify as public bodies at local level.

⁴⁹ In case of an informal group, one of the members of the group who is at least 18-years old assumes the role of representative and takes responsibility on behalf of the group).

LARGE-SCALE EUROPEAN VOLUNTARY SERVICE EVENTS

WHAT ARE THE AIMS OF A LARGE-SCALE EVS EVENT?

This Action aims to support large-scale volunteering projects (involving at least 30 EVS volunteers) in the framework of European or worldwide events in the field of youth, culture and sport (e.g. World Youth Summits, European Capitals of Culture; European Youth Capitals, European sport championships, etc.).

WHAT IS A LARGE SCALE EVS EVENT?

Supported projects will consist of the following stages:

- Preparation (including practical arrangements, selection of participants, linguistic/intercultural/task-related preparation of participants before departure);
- Implementation of the European Voluntary Service activities and complementary activities;
- Follow-up (including the evaluation of the EVS activities, the formal recognition - where applicable - of the learning outcomes of participants during the activities, as well as the dissemination and use of the project's outcomes).

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

▪ European Voluntary Service

Allowing young people aged 17-30 to express their personal commitment through unpaid and full-time voluntary service for up to 2 months in another country. Volunteers are given the opportunity to contribute to the run-up of the activities and initiatives organised in the framework of a European/international event.

A large-scale EVS event must involve at least 30 volunteers.

Participating organisations are responsible for:

- arranging subsistence, lodging and local transports of volunteers;
- envisaging tasks and activities for volunteers that respect the qualitative principles of the European Voluntary Service, as described in the EVS Charter;
- providing volunteers with on-going task-related, linguistic, personal and administrative support throughout the duration of the EVS activity, with the help of a mentor for the participants.

The participation in an EVS activity must be free of charge for volunteers, with the exception of a possible contribution for travel costs (if the Erasmus+ grant does not fully cover these costs) and superfluous expenses not linked to the implementation of the activity. The essential costs for volunteers' participation in the EVS activity are covered by the Erasmus+ grant or through other means afforded by the participating organisations.

The following activities are not considered as a European Voluntary Service within the framework of Erasmus+: occasional, unstructured, part-time volunteering; a work placement in an enterprise; a paid job; a recreation or tourist activity; a language course; exploitation of a cheap workforce; a period of study or vocational training abroad.

▪ Complementary activities

The project may include the organisation of side-activities – such as conferences, seminars, meetings and workshops - aimed at promoting the value of volunteering (and notably of the European Voluntary Service) during the event.

WHAT ARE THE CRITERIA USED TO ASSESS THIS PROJECT?

Here below are listed the formal criteria that the Large-scale EVS event must respect in order to be eligible for an Erasmus+ grant:

ERASMUS MUNDUS JOINT MASTER DEGREES

WHAT ARE THE AIMS OF AN ERASMUS MUNDUS JOINT MASTER DEGREE?

Erasmus Mundus Joint Master Degrees (EMJMD) aim to:

- foster excellence, quality improvements, innovation, excellence and internationalisation in higher education institutions (HEI);
- increase the quality and the attractiveness of the European Higher Education Area (EHEA) and supporting the EU's external action in the higher education field, by offering full degree scholarships to the best Master students worldwide;
- improve the level of competences and skills of Master graduates, and in particular the relevance of the Joint Masters for the labour market, through an increased involvement of employers.

In this regard, EMJMDs are expected to contribute to the objectives of the Europe 2020 Strategy and of the Education and Training strategic framework 2020 (ET2020), including the corresponding benchmarks established in those policies. EMJMDs will continue and strengthen the successful experience initiated with the Erasmus Mundus Master Courses (EMMCs) in raising the attractiveness of the EHEA worldwide and demonstrating the excellence and high level of integration of the joint study programmes delivered by European HEIs.

This Action also supports EU external actions, objectives and priorities in the higher education field in their various aspects.

WHAT IS AN ERASMUS MUNDUS JOINT MASTER DEGREE?

An EMJMD is a high-level integrated international study programme of 60, 90 or 120 ECTS credits, delivered by an international consortium of HEIs from different countries and, where relevant, other educational and/or non-educational partners with specific expertise and interest in the study areas/professional domains covered by the joint programme. Their specificity lies in the high degree of jointness/integration⁶⁶ and the excellent academic content and methodology they offer. There is no limitation in terms of discipline. The list of joint programmes funded under the Erasmus+ programme can be found on the Executive Agency website.

All participating HEIs established in a Programme Country must be Master degree-awarding institutions and the corresponding EMJMD Master certificate(s) - covering the entire study programme of the EMJMD, must be duly accredited (where applicable by the competent national authorities) in the countries where these HEIs are established. The successful completion of the joint EMJMD Master programme must lead to the award of either a joint degree (i.e. one single diploma issued on behalf of at least two HEIs from different Programme Countries and duly accredited in these countries) or multiple degrees (i.e. at least two diplomas issued by two higher education institutions from different Programme Countries duly accredited in these countries). If national legislation allows, joint degrees are encouraged, as they represent a full integration of the learning and teaching process. Besides the degree-awarding HEIs from Programme Countries, other partner HEIs from Partner Countries can be involved in the award of joint or multiple degrees.

EMJMD proposals at application stage must present fully developed joint study programmes, ready to run and to be advertised worldwide immediately after their selection. In this context, the EMJMD selection process will be very selective with the aim of supporting only the very best proposals.

In return, selected EMJMDs will receive high levels of funding for three intakes of students to allow them to increase their worldwide visibility and reinforce their sustainability prospects.

The sections below describe the nature, selection and funding conditions of newly selected EMJMDs, as well as the conditions applicable to already selected EMMC which implement student intakes in the context of their on-going framework partnership agreements concluded under the Erasmus Mundus Programme.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

This Action will support the following activities:

- the delivery of a EMJMD programme corresponding to 60, 90 or 120 ECTS credits, organised through an international consortium of HEIs including the participation of invited scholars (guest lecturers) for teaching, training and/or research purposes;

⁶⁶ EMJMDs are expected to have set up a jointly designed and fully integrated academic curriculum with common implementation procedures, e.g. joint student application, selection, admission and examination rules, as well as with shared quality assurance mechanisms.

- the award of scholarships to excellent students worldwide for their participation in one of these EMJMD programmes.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN AN ERASMUS MUNDUS JOINT MASTER DEGREE?

EMJMD programmes are delivered by an international consortium of HEIs and where relevant other types of organisations (enterprises, public bodies, research organisations, etc.) contributing to the implementation of the EMJMD.

The EMJMD consortium is composed of the:

- **Applicant/coordinator:** a HEI established in a Programme Country that submits the project proposal on behalf of all the partners. When the EMJMD is granted, the applicant/coordinator will become the main EU grant beneficiary and will sign a multi-beneficiary grant agreement on behalf of the EMJMD consortium. Its coordinating role stands for the following duties:
 - represents and acts on behalf of the group of participating organisations vis-à-vis the European Commission;
 - bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the entire project;
 - coordinates the EMJMD in cooperation with all other project partners.
- **Partners:** degree-awarding HEIs recognised as such by the relevant authorities of the Programme or Partner Country in which they are established and any private or public organisation that contributes actively to the preparation, implementation and evaluation of the EMJMD. Each partner must sign a mandate by which the signatory grants power of attorney to the coordinator to act in its name and on its behalf during the implementation of the project.
- **Associated partners (optional):** additionally the EMJMD study programme may also benefit from the involvement of associated partners. These organisations contribute indirectly to the implementation of specific tasks/activities and/or support the dissemination and sustainability of the EMJMD. Such contribution may for example take the form of knowledge and skills transfer, the provision of complementary courses or backing possibilities for secondment or placement. For contractual management issues, “associated partners” are not considered as part of the EMJMD consortium because they have a more limited role in the implementation of the EMJMD, as their expertise is called upon on an ad-hoc basis.

The necessary institutional commitment of all the organisations participating in the EMJMD consortium must be ensured prior to the enrolment of the first EMJMD students in order to guarantee solid institutional embedding and backing. The EMJMD Consortium Agreement (see guidelines and models available on the Executive Agency website) will be a key instrument for this purpose and will have to be signed by all partner institutions prior to the launching of the first scholarship application and selection procedure. This EMJMD Consortium Agreement will have to cover as precisely as possible all academic, operational, administrative and financial aspects related to the implementation of the EMJMD and the management of the EMJMD scholarships.

More compulsory criteria and additional useful information relating to this Action can be found in the Annex I of this Guide. The Annex includes:

- conditions relating to the design of the Erasmus Mundus Joint Master Degree;
- conditions relating to Master students;
- conditions relating to monitoring and quality assurance;
- selection procedure of EMJMD consortia.

Interested organisations are invited to read carefully the relevant sections of this Annex before applying for financial support.

THE ERASMUS MUNDUS JOINT MASTER DEGREE CATALOGUE

In order to contribute to the promotion, visibility and accessibility of the Erasmus+ student scholarships that will be offered by on-going EMJMDs, to the best Master students worldwide, EMJMDs will be included in an online catalogue hosted on the Executive Agency's website.

The EMJMD catalogue will advertise all the joint Master programmes offering Erasmus+ scholarships for the next academic year. This will include newly selected EMJMDs as well as Erasmus Mundus Master Courses (EMMC) with an on-going framework partnership agreement.

The catalogue will allow potential students to select the EMJMDs of their choice and to apply for an Erasmus+ scholarship directly to the consortia concerned.

WHAT ARE THE FUNDING RULES?

Selected EMJMDs will be supported through a grant agreement covering one preparatory year (the applicant has opted to apply for the preparatory year) and three consecutive student intakes.

The EMJMD grant is calculated according to the following funding principles:

- a grant for the consortium management fees and the academic staff mobility;
- a variable number of student scholarships of 25 000 EUR maximum per year;
- a variable number of additional student scholarships of 25 000 EUR maximum per year for targeted regions of the world.

In detail, the budget of the EMJMD must be drafted according to the following funding rules (in euro):

A) Erasmus Mundus Joint Master Degree management:

Contribution to the consortium management costs ⁷⁵ and costs for invited scholars and guest lecturers	20 000 EUR for the optional preparatory year.
	50 000 EUR per intake of the EMJMD.

B) Erasmus Mundus Joint Master Degree student scholarships:

The EMJMD student scholarships will include student participation costs (including the tuition fees, full insurance coverage and any other mandatory costs related to student participation in the course), a contribution to student travel and installation cost and a subsistence allowance for the entire duration of the EMJMD study programme. Details on the EMJMD student scholarship amounts are given in the table below:

Contribution to the participation costs	up to 9 000 EUR per year per scholarship holder from a Partner Country ⁷⁶
	up to 4 500 EUR per year per scholarship holder from a Programme Country Any amount in excess of these maximum contributions must be covered by the participating organisations and cannot be charged to the scholarship holder.
Contribution to the travel and installation costs	1 000 EUR per year per scholarship holder resident in a Programme Country for travel costs
	2 000 EUR per year for travel costs + 1.000 EUR for installation costs for a scholarship holder, resident in a Partner Country less than 4000 KM from the EMJMD coordinating HEI. 3000 EUR per year for travel costs + 1.000 EUR for installation costs for a scholarship holder, resident in a Partner Country 4000 KM or more from the EMJMD coordinating HEI.
Contribution to subsistence costs	1 000 EUR per month for the entire duration of the EMJMD study programme (24 months maximum). Contribution to subsistence costs will not be given to the scholarship holders for the EMJMD periods (study/research/placement/thesis preparation) spent in their country of residence, nor to scholarship holders from a Partner Country for the EMJMD periods exceeding one trimester (i.e. 3 months or the equivalent of 15 ECTS credits) spent in any Partner Country.

The actual amount of the individual scholarships will vary in accordance with a) the EMJMD length (60, 90 or 120 ECTS credits); b) the student country/region of residence; c) the EMJMD participation costs defined by the consortia.

Total grant amount

Based on these parameters, the EMJMD grant for the preparatory year and the three student intakes will indicatively amount to around **3 million EUR**.

⁷⁵ Costs incurred by associated partners may be reimbursed by the EMJMD consortium only from the EU "contribution to the consortium's management costs" (lump sum).

⁷⁶ Students who are not residents nor have carried out their main activity (studies, training or work) for more than a total of 12 months over the last five years in a Programme Country. The five-year reference period for this 12-month rule is calculated backwards as from the submission deadline defined by the consortia of applying for a EMJMD student scholarship.

ERASMUS+ MASTER LOANS

Higher education students who want to complete a full study programme at Master level in another Programme Country may be able to apply for an EU-guaranteed loan to contribute to their costs.

Erasmus+ Master Degree Loans enable potential Master's students to gain access to loans (provided by participating banks and guaranteed by the EU, via its partner the European Investment Fund) to support their studies abroad over the lifetime of the Erasmus+ Programme. The EU budget allocation will leverage a multiple amount in financing from the banking sector for loans to mobile masters students.

The Erasmus+ Master loans will become available incrementally in more countries and to more students over the years, as of the academic year 2015-2016.

<p>Amounts and object of the loans</p>	<p>The loans are up to 12,000 EUR for a 1-year Master programme and up to 18,000 EUR for an up to 2-year Master and can cover both living and tuition costs in any of the 33 Erasmus+ Programme Countries.</p> <p>Key social safeguards include no collateral by student or parents, favourable interest rate, favourable pay-back terms.</p> <p>The EU budget allocation of 517m EUR for guarantees (professionally managed by the European Investment Fund, part of European Investment Bank Group) will release a multiple amount in loans from the banking sector (up to 3.2 billion EUR) to mobile Master's students.</p> <p>Thus, up to 200,000 students may be supported to do their Master's studies in another Erasmus+ Programme Country.</p>
<p>Eligibility criteria</p>	<p>To be eligible students must:</p> <ul style="list-style-type: none"> - Be a resident of one of the Erasmus+ Programme Countries. - Have successfully completed first cycle higher education studies (Bachelor or equivalent) and have been accepted for a 2nd cycle programme (Master or equivalent) at a recognised higher education institution (HEI) which holds the Erasmus Charter for Higher Education (ECHE). <p>The Master (or equivalent) that they intend to study must:</p> <ul style="list-style-type: none"> - Be delivered in a different country from their country of residence and from where they obtained their Bachelor degree (or the equivalent degree which giving them access to the Master programme) - Be a full programme that will lead to a degree.
<p>Where to apply?</p>	<p>Directly to participating banks or student loan companies</p>

STRATEGIC PARTNERSHIPS IN THE FIELD OF EDUCATION, TRAINING AND YOUTH

WHAT ARE THE AIMS AND PRIORITIES OF A STRATEGIC PARTNERSHIP?

Strategic Partnerships aim to support the development, transfer and/or implementation of innovative practices as well as the implementation of joint initiatives promoting cooperation, peer learning and exchanges of experience at European level.

Depending on the objectives and the composition of the Strategic Partnership, projects may be of two types:

- **Strategic Partnerships supporting innovation;**

Projects are expected to develop innovative outputs, and/or engage into intensive dissemination and exploitation activities of existing and newly produced products or innovative ideas. Applicants have the possibility to request a dedicated budget for Intellectual Outputs and Multiplier Events in order to directly answer to the innovation aspect of the Action. These types of projects are open to all fields of education, training and youth.

- **Strategic Partnerships supporting exchange of good practices:**

The primary goal is to allow organisations to develop and reinforce networks, increase their capacity to operate at transnational level, share and confront ideas, practices and methods. Selected projects may also produce tangible outputs and are expected to disseminate the results of their activities, although in a way that is proportional to the aim and scope of the project. These results and activities will be co-financed through the standard budget for project management and implementation. Strategic Partnerships relevant to the field of higher education will not support these types of projects.

Irrespective from the type of project chosen by the applicant and the field impacted by the project, Strategic Partnerships are open to any type of organisation active in any field of education, training and youth or other socio-economic sectors as well as to organisations carrying out activities that are transversal to different fields (e.g. local and regional authorities, recognition and validation centres, chambers of commerce, trade organisations, guidance centres, cultural organisations). Depending on the priority and the objectives addressed by the project, Strategic Partnerships should involve the most appropriate and diverse range of partners in order to benefit from their different experiences, profiles and specific expertise and to produce relevant and high quality project results.

To be funded, Strategic Partnerships must address either a) at least one horizontal priority or b) at least one specific priority relevant to the field of education, training and youth that is mostly impacted.

HORIZONTAL PRIORITIES

- Improve achievement in relevant and high-level basic and transversal competences in a lifelong learning perspective, through formal or non-formal education and training, from early childhood education and care, over school education, youth activities, higher education and vocational education and training to adult learning.
- Inclusive education, training and youth: in line with the Paris Declaration, priority will be given to actions addressing diversity in (formal and non-formal) education and training, developing social, civic, intercultural competences and media literacy, combating discrimination and segregation, tackling bullying, reducing disparities in learning outcomes affecting learners with disadvantaged backgrounds in particular through innovative integrated approaches. This should also involve enhancing the access, participation and performance of disadvantaged learners and facilitating their transitions: between different levels and types of education and training; from education/training to the world of work; and/or from one employment to another. Given the critical context, particular attention will also be given to support projects involving refugees, asylum seekers and migrants and/or focussing on the topic of the refugees' crisis in Europe.
- Open and innovative education, training and youth work, embedded in the digital era: priority will be given to actions that contribute to disseminating learning outcomes of formal and non-formal learning activities as well as to mainstreaming and spreading the utilisation of open and innovative education, training and youth pedagogies, participatory education governance, work methods and resources for educators and learners at all levels, in particular those in a disadvantaged situation. This includes supporting synergies between education, research and innovation activities, the digitisation of quality learning content and promoting the use of ICT as a driver for systemic change to increase the quality and relevance of education, training and youth policies at all levels.

- Educators: priority will be given to actions that strengthen the recruitment, selection and induction of the best and most suitable candidates for the teaching profession as well as to actions supporting continuing professional development of educators (such as teachers, professors, tutors, mentors, etc.) and youth workers, especially on dealing with an increasing diversity of learners, early school leaving, learners with disadvantaged backgrounds (including refugees, asylum seekers and migrants), work-based learning, digital competences and innovative pedagogies. This will include building effective partnership between providers and educational institutions as well as the development of programmes, modules and on line courses to strengthen the induction of educators in line with assessment and certification patterns.
- Transparency and recognition of skills and qualifications to facilitate learning, employability and labour mobility: priority will be given to actions promoting permeability across education, training and youth fields as well as the simplification and rationalisation of tools for transparency, validation and recognition of learning outcomes. This includes promoting innovative solutions for the recognition and validation of competences acquired through informal, non-formal, digital and open learning.
- Sustainable investment, performance and efficiency in education and training: priority will be given to actions supporting the effective implementation of the Investment Plan for Europe, including through attractive funding models for private actors and capital; supporting education, training and youth policies and the design of evidence-based reforms that deliver quality in (formal and non-formal) education and training more efficiently namely through work-based learning. Priority will also be given to actions supporting the development of innovative ways to ensure sustainable investment in all forms of learning, including performance-based funding and cost-sharing.

FIELD-SPECIFIC PRIORITIES

In higher education:

- As outlined in the 2011 EU Modernisation Agenda: increasing attainment levels, contributing to social inclusion and promoting intercultural and civic competences of students; improving the quality and relevance of higher education; strengthening quality through mobility and cross-border cooperation; making the knowledge triangle work, including by inter-disciplinary cooperation; improving governance and funding.
- As outlined in the 2013 Communication on Opening up Education: promoting the development of new modes of delivery and exploiting and responding to new technologies in learning and teaching.

In vocational education and training:

- Promoting work-based learning in all its forms, with special attention to apprenticeship-type training, by involving social partners, companies and VET providers, as well as stimulating innovation and entrepreneurship.
- Further developing quality assurance mechanisms in VET, in line with EQAVET recommendation, and establishing continuous information and feedback loops to I-VET and C-VET systems, based on learning outcomes as part of quality assurance systems.
- Further strengthening key competences in VET curricula and providing more effective opportunities to acquire or develop those skills through I-VET and C-VET.
- Enhancing access to training and qualifications for all through C-VET, in a life-long learning perspective, notably by increasing the quality, supply and accessibility of C-VET, validation of non-formal and informal learning, promoting work-place learning in companies for the working population, providing for efficient and integrated guidance services and flexible and permeable learning pathways.

In school education:

- Strengthening the profile of the teaching professions through attracting the best candidates to the profession and by supporting teachers and leaders to deliver high quality teaching, deal with complex classroom realities and adopt new methods and tools. In particular, supporting recruitment and selection methods, improving initial teacher education and induction, supporting teachers in dealing with diversified groups of learners (such as refugees, asylum seekers and migrants) and to adopt collaborative and innovative practices right from the start of their careers; to strengthen leadership roles in education, including distributed leadership, for designing necessary changes and improvements at institutional level.

- Addressing underachievement in the basic skills of maths, science and literacy through more effective, innovative teaching methods. In particular, through projects focused on student-centred and problem-based active learning using multidisciplinary and inter-disciplinary approaches and through fostering critical thinking skills by addressing cultural and/or environmental context in teaching science; developing innovative didactical materials to increase motivation for reading of all pupils; addressing multilingual classrooms through methods building on diverse language skills alongside the main language of instruction.
- Supporting schools to tackle early school leaving (ESL) and disadvantage as well as to address all students from the lowest to the highest end of the academic spectrum. In particular by supporting projects aiming to improve collaboration internally as well as with parents and other external stakeholders, projects aiming at improving transition between different stages of education, projects supporting networking of schools which promote collaborative and holistic approaches to teaching, projects aiming to develop methods and to create conditions for personalised teaching and learning in order to support each pupil, and projects developing monitoring and assessment suitable for such approaches.
- Enhancing the quality of early childhood education and care (ECEC) in order to improve the quality of services for better learning outcomes and ensure a good start in education for all. In particular through projects aiming to develop a holistic and age appropriate pedagogical framework including professionalising the workforce for ECEC as well as ensuring that the benefits of early childhood education are carried through to other school education levels, and projects that develop new models of implementation, governance and funding for ECEC.

In adult education:

- Improving and extending the offer of high quality learning opportunities that are tailored to individual adult learners' needs, including through innovative ways of validation, guidance and delivery to groups most in need.
- Extending and developing educators' competences, particularly in the effective use of ICT in adult learning, for better outreach and improved learning outcomes.
- Designing and implementing effective provision for enhancing the basic skills (literacy, numeracy and digital) and key competences of specific adult target groups that are currently not well served.

In youth:

- Promoting high-quality youth work. Priority will be placed on projects that:
 - foster the inclusion and employability of young people with fewer opportunities (including NEETs);
 - promote intercultural dialogue and strengthen knowledge and acceptance of diversity in society;
 - support youth workers in developing and sharing effective methods in reaching out to marginalised young people, refugees, asylum seekers and migrants, and in preventing racism and intolerance among youth;
 - internationalise youth work and open it up to cross-sectorial cooperation allowing greater permeability across all fields of actions concerning young people;
 - professionalise youth workers, developing their competences, setting quality standards, ethical and professional codes; reinforce links between policy, research and practice;
 - promote better knowledge, recognition and validation of youth work and non-formal learning at European, national, regional and local levels.
- Promoting empowerment, open it to cross-sectorial cooperation allowing greater permeability across all fields of actions concerning young people, with a special focus on access to rights, autonomy, participation - including e-participation - and the active citizenship of young people notably those at risk of social exclusion, through projects that:
 - broaden and deepen political and social participation of young people at local, regional, national, European or global level;
 - promote diversity, intercultural and inter-religious dialogue, common values of freedom, tolerance and respect of human rights; enhance critical thinking and media literacy of young people; strengthen their sense of initiative notably in the social field;
 - enable young people to connect with, express their opinions to and influence elected policy-makers, public administrations, interest groups, civil society organisations, or individual citizens within any of the political or social processes affecting their lives.
- Promoting entrepreneurship education and social entrepreneurship among young people. Priority will be placed on projects in the form of transnational youth initiative that allow groups of young people to put ideas into

practice, including through social enterprises, tackling challenges and problems identified within their communities.

WHAT ARE THE ACTIVITIES SUPPORTED IN A STRATEGIC PARTNERSHIP?

Over the lifetime of a project, and depending on the type of Strategic Partnership, projects may typically realise a broad range of activities, for example:

- activities that strengthen the cooperation and networking between organisations;
- testing and/or implementation of **innovative practices** in the field of education, training and youth;
- activities that facilitate the **recognition and validation of knowledge, skills and competences** acquired through formal, non-formal and informal learning;
- activities of **cooperation between regional authorities** to promote the development of education, training and youth systems and their integration in actions of local and regional development;
- activities to support learners with **disabilities/special needs** to complete education cycles and facilitate their transition into the labour market, including by combating **segregation and discrimination** in education for marginalised communities;
- activities to better prepare and deploy the education and training of professionals for **equity, diversity and inclusion** challenges in the learning environment;
- activities to promote the integration of refugees, asylum seekers and newly arrived migrants and raise awareness about the refugee crisis in Europe;
- transnational initiatives fostering entrepreneurial mind-sets and skills, to encourage **active citizenship and entrepreneurship (including social entrepreneurship)**, jointly carried out by two or more groups of young people from different countries.

Strategic Partnerships may also organise transnational **training, teaching and learning activities** of individuals, in so far as they bring added value in the achievement of the project's objectives. Some of these activities are particularly relevant in one or more fields of education, training and youth, as stated in the table below. For a more detailed description of the supported activities, see Annex I.

WHO CAN TAKE PART IN A STRATEGIC PARTNERSHIP?

As a general rule, Strategic Partnerships target the cooperation between organisations established in Programme Countries. However, organisations from Partner Countries can be involved in a Strategic Partnership, as partners (not as applicants), if their participation brings an essential added value to the project.

In addition to the organisations formally participating in the project and receiving EU funds, Strategic Partnerships may also benefit from the involvement of other organisations that can bring added value to the planned activities by investing their own resources and know-how. If relevant, the applicants should explain in their project proposal how these organisations contribute to the achievement of the project objectives.

WHAT ARE THE CRITERIA USED TO ASSESS A STRATEGIC PARTNERSHIP?

Here below are listed the formal criteria that a Strategic Partnership must respect in order to be eligible for an Erasmus+ grant:

ELIGIBILITY CRITERIA

<p>Eligible participating organisations</p>	<p>A participating organisation can be any public or private organisation, established in a Programme Country or in any Partner Country of the world (see section "Eligible Countries" in Part A of this Guide).</p> <p>For example, such organisation can be:</p> <ul style="list-style-type: none"> ▪ a higher education institution; ▪ a school/institute/educational centre (at any level, from pre-school to upper secondary education, and including vocational education and adult education); ▪ a non-profit organisation, association, NGO; ▪ a public or private, a small, medium or large enterprise (including social enterprises); ▪ a public body at local, regional or national level; ▪ a social partner or other representative of working life, including chambers of commerce, industry, craft/professional associations and trade unions; ▪ a research institute; ▪ a foundation; ▪ an inter-company training centre; ▪ enterprises providing shared training (collaborative training); ▪ a cultural organisation, library, museum; ▪ a body providing career guidance, professional counselling and information services; ▪ a body validating knowledge, skills and competences acquired through non-formal and informal learning; ▪ a European Youth NGO; ▪ a group of young people active in youth work but not necessarily in the context of a youth organisation (i.e. informal group of young people⁷⁷). <p>Higher education institutions (HEIs) established in a Programme Country must hold a valid Erasmus Charter for Higher Education (ECHE). An ECHE is not required for participating HEIs in Partner Countries, but they will have to sign up to its principles.</p>
<p>Who can apply?</p>	<p>Any participating organisation established in a Programme Country can be the applicant. This organisation applies on behalf of all participating organisations involved in the project.</p>
<p>Number and profile of participating organisations</p>	<p>A Strategic Partnership is transnational and involves minimum three organisations from three different Programme Countries. There is no maximum number of partners. However, the budget for project management and implementation is capped (and equivalent to 10 partners). All participating organisations must be identified at the time of applying for a grant.</p> <p>Exceptionally, the following types of projects may involve minimum two organisations from two different Programme Countries:</p> <ul style="list-style-type: none"> ▪ Strategic Partnerships in the youth field; ▪ Within Strategic Partnerships in the school education field promoting exchange of good practices between organisations from Programme Countries⁷⁸, the following: <ul style="list-style-type: none"> - Strategic Partnerships for schools only; - Strategic Partnerships for regional cooperation led by at least two local/regional authorities from two different countries.
<p>Venue(s) of the activities</p>	<p>All the activities of a Strategic Partnership must take place in the countries of the organisations participating in the project. Activities can also takes place at the seat of an Institution of the European Union, even if in the project there are no participating organisations from the country that hosts the Institution.⁷⁹</p>

⁷⁷ In case of an informal group, one of the members of the group assumes the role of representative and takes responsibility on behalf of the group.

⁷⁸ Please refer to the list of eligible schools and eligible authorities published on the website of each National Agency. Note that, as an exception, the contracting model for Strategic Partnerships for schools only is based on monobeneficiary Grant Agreements. For more details, please refer to Part C of this Guide.

⁷⁹ Seats of the Institutions of the European Union are Brussels, Frankfurt, Luxembourg, Strasbourg, and The Hague.

Duration of project	<ul style="list-style-type: none"> ▪ Partnerships in the field of higher education: between 24 and 36 months; ▪ Partnerships in the field of VET, school education and adult education: between 12 and 36 months; ▪ Partnerships in the youth field: between 6 and 36 months. <p>The duration has to be chosen at application stage, based on the objective of the project and on the type of activities planned over time.</p> <p>In exceptional cases, the duration of a Strategic Partnership may be extended, upon request by the beneficiary and with the agreement of the National Agency, of up to 6 months and provided that the total duration does not exceed 3 years. In such a case, the total grant will not change. In all cases, projects must end not later than 31 August 2019.</p>
Where to apply?	<p>To the National Agency of the country in which the applicant organisation is established⁸⁰.</p> <p>Per deadline, the same consortium of partners can submit only one application and to one National Agency only.</p>
When to apply?	<ul style="list-style-type: none"> ▪ Partnerships in the fields of Higher Education, VET, School and Adult education: <ul style="list-style-type: none"> ▪ applicants have to submit their grant application by 31 March at 12:00 (midday Brussels time) for projects starting between 1 September and 31 December of the same year. ▪ Partnerships in the youth field: <p>applicants have to submit their grant application by:</p> <ul style="list-style-type: none"> ▪ 2 February at 12:00 (midday Brussels time) for projects starting between 1 June and 30 September of the same year; ▪ 26 April at 12:00 (midday Brussels time) for projects starting between 1 September of the same year and 31 January of the following year; ▪ 4 October at 12:00 (midday Brussels time) for projects starting between 1 February and 31 May of the following year. <p>For Strategic Partnerships in the youth field: for each of the three deadlines, National Agencies may open the deadline to both types of Strategic Partnerships (i.e. supporting innovation and supporting exchanges of good practices) or only to one type of projects. Applicants are invited to check the website of their National Agency for more precise information.</p>
How to apply?	<p>Please see Part C of this Guide for details on how to apply.</p>

In addition, if the Strategic Partnership foresees transnational training, teaching or learning activities, the following criteria must be respected, in addition to those listed above:

AWARD CRITERIA

Depending on the objectives of the project, the participating organisations involved, the expected impact, and other elements, Strategic Partnerships can be of different sizes, and adapt their activities accordingly. In simplified terms, this action enables participating organisations to gain experience in international cooperation and to strengthen their capacities, but also to produce high-quality innovative deliverables. The qualitative assessment of the project will be proportional to the objectives of the cooperation and the nature of the organisations involved.

Projects will be assessed against the following criteria:

⁸¹ In the school education field, this includes educational staff intervening in schools such as school inspectors, school counsellors, pedagogical advisors, psychologists, etc.

<p>Relevance of the project (maximum 30 points)</p>	<ul style="list-style-type: none"> ▪ The relevance of the proposal to: <ul style="list-style-type: none"> - the objectives and the priorities of the Action (see section "What are the aims and priorities of a Strategic Partnership"). If the proposal addresses the horizontal priority "inclusive education, training, and youth", it will be considered as highly relevant. ▪ The extent to which: <ul style="list-style-type: none"> - the proposal is based on a genuine and adequate needs analysis; - the objectives are clearly defined, realistic and address issues relevant to the participating organisations and target groups; - the proposal is suitable of realising synergies between different fields of education, training and youth; - the proposal is innovative and/or complementary to other initiatives already carried out by the participating organisations; - the proposal brings added value at EU level through results that would not be attained by activities carried out in a single country.
<p>Quality of the project design and implementation (maximum 20 points)</p>	<ul style="list-style-type: none"> ▪ The clarity, completeness and quality of the work programme, including appropriate phases for preparation, implementation, monitoring, evaluation and dissemination; ▪ The consistency between project objectives and activities proposed; ▪ The quality and feasibility of the methodology proposed; ▪ The existence and relevance of quality control measures to ensure that the project implementation is of high quality, completed in time and on budget; ▪ The extent to which the project is cost-effective and allocates appropriate resources to each activity. <p>If the project plans training, teaching or learning activities:</p> <ul style="list-style-type: none"> ▪ The extent to which these activities are appropriate to the project's aims and involve the appropriate number of participants; ▪ The quality of arrangements for the recognition and validation of participants' learning outcomes, in line with European transparency and recognition tools and principles.
<p>Quality of the project team and the cooperation arrangements (maximum 20 points)</p>	<ul style="list-style-type: none"> • The extent to which: <ul style="list-style-type: none"> - the project involves an appropriate mix of complementary participating organisations with the necessary profile, experience and expertise to successfully deliver all aspects of the project; - the distribution of responsibilities and tasks demonstrates the commitment and active contribution of all participating organisations; - if relevant for the project type, the project involves participation of organisations from different fields of education, training, youth and other socio-economic sectors; - the project involves newcomers to the Action. • The existence of effective mechanisms for coordination and communication between the participating organisations, as well as with other relevant stakeholders; • If applicable, the extent to which the involvement of a participating organisation from a Partner Country brings an essential added value to the project (if this condition is not fulfilled, the project will not be considered for selection).

<p>Impact and dissemination (maximum 30 points)</p>	<ul style="list-style-type: none"> ▪ The quality of measures for evaluating the outcomes of the project ▪ The potential impact of the project: <ul style="list-style-type: none"> - on participants and participating organisations, during and after the project lifetime; - outside the organisations and individuals directly participating in the project, at local, regional, national and/or European levels. ▪ The quality of the dissemination plan: the appropriateness and quality of measures aimed at sharing the outcomes of the project within and outside the participating organisations; ▪ If relevant, the extent to which the proposal describes how the materials, documents and media produced will be made freely available and promoted through open licences, and does not contain disproportionate limitations; ▪ The quality of the plans for ensuring the sustainability of the project: its capacity to continue having an impact and producing results after the EU grant has been used up.
--	--

To be considered for funding, proposals must score at least 60 points. Furthermore, they must score at least half of the maximum points in each of the categories of award criteria mentioned above (i.e. minimum 15 points for the categories "relevance of the project" and "impact and dissemination"; 10 points for the categories "quality of the project design and implementation" and "quality of the project team and the cooperation arrangements"). Proposals that do not address at least one priority of the Action will not be funded.

WHAT ELSE SHOULD YOU KNOW ABOUT THIS ACTION?

Strategic Partnerships support a wide and flexible range of activities in order to implement high-quality projects, promote development and modernisation of organisations, and support policy developments at European, national and regional level.

Depending on the objectives of the project, the participating organisations involved, the expected impact, and other elements, Strategic Partnerships can be of different sizes, and adapt their activities accordingly.

Among the great variety of activities and project formats, the following Strategic Partnerships have specific characteristics:

"SCHOOLS-ONLY" STRATEGIC PARTNERSHIPS

These Strategic Partnerships in the field of school education aim at supporting exchanges of good practices between schools from different Programme Countries. In many cases, cooperation activities are also combined with class exchanges and/or long term mobility of pupils from the schools participating in the project. The distinctive feature of this format of Strategic Partnerships is the modality of contractualisation with beneficiaries. Although one of the schools involved in the project takes the lead and applies on behalf of all the participating schools, once a Schools-only Strategic Partnership is selected each participating school signs a single grant agreement with the National Agency established in its country.

TRANSNATIONAL YOUTH INITIATIVES

These Strategic Partnerships in the field of youth aim to foster social commitment and entrepreneurial spirit of young people. For example, these initiatives may concern:

- the establishment of (networks of) social enterprises, associations, clubs, NGOs,
- the development and delivery of courses and trainings on entrepreneurship education (notably social entrepreneurship and use of ICTs;
- information, media literacy, sensitization actions, or actions stimulating civic commitment among young people (e.g. debates, conferences, events, consultations, initiatives around European topics, etc.);
- actions for the benefit of the local communities (e.g. support to vulnerable groups such as elderly people, minorities, migrants, disabled, etc.);
- artistic and cultural initiatives (theatre plays, exhibitions, music performances, discussion fora, etc.).

The distinctive feature of this format of Strategic Partnerships is that a Youth Initiative is initiated, set up and carried out by young people themselves. Project proposals are submitted and implemented by informal groups of young people.

PARTICIPANTS FROM OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES TAKING PART IN TRANSNATIONAL TRAINING, TEACHING AND LEARNING ACTIVITIES

In line with the Regulation establishing the Erasmus+ Programme, which calls on taking into account the constraints imposed by the remoteness of the outermost regions and the Overseas Countries and Territories (OCTs) of the Union when implementing the Programme, special funding rules are set in order to support expensive travel costs of participants from outermost regions and OCTs insufficiently covered by the the standard funding rules (based on contribution to unit costs per travel distance band).

Applicants of mobility projects will be allowed to claim financial support for travel costs of participants from outermost regions and OCTs under the budget heading "exceptional costs" (up to a maximum of 80% of total eligible costs: see "What are the funding rules?"). This would be allowed provided that applicants can justify that the standard funding rules (based on contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants.

OTHER INFORMATION

In addition to the information provided above, more compulsory criteria and additional useful information, as well as project examples relating to this Action can be found in the **Annex I of this Guide**. Interested organisations are invited to read carefully the relevant sections of this Annex before applying for financial support.

WHAT ARE THE FUNDING RULES?

Strategic Partnerships will range from fairly simple cooperation projects between small scale organisations (like schools or informal groups of young people) to rather sophisticated and large-scale projects focusing on the development and exchange of innovative outputs in all fields of education, training and youth. The expenses incurred by the different types of projects will necessarily vary accordingly.

By consequence, the proposed funding model consists of a menu of cost items from which applicants will choose according to the activities they want to undertake and the results they want to achieve. The first two items, "project management and implementation" and "transnational project meetings" are cost items that all types of Strategic Partnerships may apply for, as they are meant to contribute to costs that any project will incur. The other cost items can only be chosen by projects that will pursue more substantial objectives in terms of intellectual outputs/products, dissemination or embedded teaching, training and learning activities. Additionally, if justified by the project activities/outputs, exceptional costs and costs for participation of persons with special needs can be covered.

The total project grant is a variable amount, defined by multiplying 12 500 EUR by the duration of the project (in months), and capped at 450 000 EUR for projects with duration of 36 months.

The budget of the project must be drafted according to the following funding rules (in euro):

Maximum grant awarded:
a variable amount, defined by multiplying 12 500 EUR by the duration of the project (in months) and up to 450 000 EUR for projects with duration of 36 months

Some of the maxima amounts indicated in the tables above are capped per month and are calculated following a pro-rata approach, so that the grant awarded divided by the number of months results in a maximum of 12 500 EUR. However, the beneficiaries can use-up the total EU grant received for the project in the most flexible way, throughout its duration and according to the way the activities need to be implemented chronologically in the work plan.

Eligible costs		Financing mechanism	Amount		Rule of allocation
Project management and implementation	Project management (e.g. planning, finances, coordination and communication between partners, etc.); small scale learning/teaching/training materials, tools, approaches etc. Virtual cooperation and local project activities (e.g. class-room project work with learners, youth work activities, organisation and mentoring of embedded learning/training activities, etc.); information, promotion and dissemination (e.g. brochures, leaflets, web information, etc.). Intellectual outputs	Intellectual outputs/tangible deliverables of the project (such as curricula, pedagogical and youth work materials, open educational resources (OER), IT tools, analyses, studies, peer-learning methods, etc.)	Contribution to unit costs	B1.1 per manager per day of work on the project	Conditional: staff costs for managers and administrative staff are expected to be covered already under "Project management and implementation". To prevent potential overlap with such item, applicants will have to justify the type and volume of staff costs applied for in relation to each output proposed. The outputs should be substantial in quality and quantity to qualify for this type of grant support. The outputs should prove their potential for wider use and exploitation, as well as for impact.
			B1.2 per researcher/ teacher /trainer/youth worker per day of work on the project

A project without grant support for intellectual outputs cannot receive support for organising multiplier events.
			200 EUR per international participant (i.e. participants from other countries)	
			Maximum 30 000 EUR per project	

⁸² Including costs directly related to participants with special needs and accompanying persons taking part in transnational teaching, training and learning activities. This may include costs related to travel and subsistence, if justified and as long as a grant for these participants is not requested through budget categories "travel" and "individual support").

FUNDING RULES FOR TRANSNATIONAL TRAINING, TEACHING AND LEARNING ACTIVITIES CARRIED OUT WITHIN THE STRATEGIC PARTNERSHIP (OPTIONAL FUNDING)

Eligible costs		Financing mechanism	Amount		Rule of allocation
Travel	Contribution to the travel costs of participants, including accompanying persons, from their place of origin to the venue of the activity and return	Contribution to unit costs	For travel distances between 100 and 1 999KM: 275 EUR per participant		Conditional: applicants will have to justify that mobility activities are necessary to achieve the objectives and results of the project. The applicant must indicate the distance of a one-way travel to calculate the amount of the EU grant that will support the round trip ⁸⁴
			For travel distances of 2 000KM or more: 360 EUR per participant

⁸³ http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm

⁸⁴ For example, if a person from Madrid (Spain) is taking part in an activity taking place in Rome (Italy), the applicant will a) calculate the distance from Madrid to Rome (1365,28 KM); b) select the applicable travel distance band (i.e. between 500 and 1999 KM) and c) calculate the EU grant that will provide a contribution to the costs of travel of the participant from Madrid to Rome and return (275 EUR).

⁸⁵ Accompanying persons are entitled to receive the same rate, independently from the short or long term activities they take part in. In exceptional cases, where the accompanying person needs to stay abroad for more than 60 days, extra subsistence costs beyond the 60th day will be supported under the budget heading "Special needs support".

KNOWLEDGE ALLIANCES

WHAT ARE THE AIMS AND PRIORITIES OF A KNOWLEDGE ALLIANCE?

Knowledge Alliances aim at strengthening Europe's innovation capacity and at fostering innovation in higher education, business and the broader socio-economic environment. They intend to achieve one or more of the following aims:

- develop new, innovative and multidisciplinary approaches to teaching and learning;
- stimulate entrepreneurship and entrepreneurial skills of higher education teaching staff and company staff;
- facilitate the exchange, flow and co-creation of knowledge.

Main attention is turned to projects that contribute to the modernisation of Europe's higher education systems as outlined in the 2011 EU Communication on the Modernisation Agenda for Higher Education⁸⁶, namely to increase attainment levels; improve the quality and relevance of higher education; strengthen quality through mobility and cross-border cooperation; make the knowledge triangle work; improve governance and funding.

Additional emphasis is placed on making use of existing initiatives, and on the intelligent use of digital tools as recommended in the 2013 EU Communication on Opening Up Education⁸⁷.

WHAT IS A KNOWLEDGE ALLIANCE?

Knowledge Alliances are transnational, structured and result-driven projects, notably between higher education and business. Knowledge Alliances are open to any discipline, sector and to cross-sectoral cooperation. The partners share common goals and work together towards mutually beneficial results and outcomes. The results and expected outcomes are clearly defined, realistic and address the issues identified in the needs analysis.

Knowledge Alliances are meant to have a short and long-term impact on the wide range of stakeholders involved, at individual, organisational and systemic level.

As a general rule, Knowledge Alliances target the cooperation between organisations established in Programme Countries. However, organisations from Partner Countries can be involved in a Knowledge Alliance, as partners (not as applicants), if their participation brings an essential added value to the project.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Knowledge Alliances implement a coherent and comprehensive set of interconnected activities which are flexible and adaptable to different current and future contexts and developments across Europe. The following list provides examples of activities:

- **Boosting innovation in higher education, business and in the broader socio-economic environment:**
 - jointly developing and implementing new learning and teaching methods (like new multidisciplinary curricula, learner-centred and real problem-based teaching and learning);
 - organising continuing educational programmes and activities with and within companies;
 - jointly developing solutions for challenging issues, product and process innovation (students, professors and practitioners together).
- **Developing entrepreneurship mind-set and skills:**
 - creating schemes of transversal skills learning and application throughout higher education programmes developed in cooperation with enterprises aiming at strengthening employability, creativity and new professional paths;
 - introducing entrepreneurship education in any discipline to provide students, researchers, staff and educators with the knowledge, skills and motivation to engage in entrepreneurial activities in a variety of settings;
 - opening up new learning opportunities through the practical application of entrepreneurial skills, which can involve and/or lead to the commercialisation of new services, products and prototypes, to the creation of start-ups and spin-offs.

⁸⁷ 2013 EU Communication on Opening Up Education: <http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:52013DC0654&from=EN>

- **Stimulating the flow and exchange of knowledge between higher education and enterprises:**
 - study field related activities in enterprises which are fully embedded in the curriculum, recognised and credited;
 - set-ups to trial and test innovative measures;
 - exchanges of students, researchers, teaching staff and company staff for a limited period;
 - involvement of company staff teaching and research.

Knowledge Alliances may organise learning mobility activities of students, researchers and staff in so far as they support/complement the other activities of the Alliance and bring added value in the realisation of the project's objectives. Mobility activities do not constitute the main activities of a Knowledge Alliance; extending and scaling-up these activities would need to be supported via the Key Action 1 of this Programme or other funding instruments.

WHAT ARE THE ESSENTIAL FEATURES OF A KNOWLEDGE ALLIANCE?

The key features of Knowledge Alliances are:

- **Innovation** in higher education and innovation through higher education in enterprises and their socio-economic environment: innovation is considered as state-of-the-art project-specific and related to the partnerships context and analysed needs.
- **Sustainability** of university-business cooperation. A strong and committed partnership with a balanced participation from enterprises and higher education institutions are pivotal for the success of Knowledge Alliances. The role and contribution of each participating organisation and associate partner have to be specific and complementary.
- **Impact** going beyond the project's lifetime and beyond the organisations involved in the Alliance. It is expected that partnership and activities persist. Changes in higher education institutions and enterprises have to be measurable. Results and solutions have to be transferable and accessible to a broader audience.

Knowledge Alliances are a highly competitive part of Erasmus+. Common attributes of successful proposals are:

- reliable relations between higher education institutions and enterprises: Knowledge Alliances have to demonstrate the commitment and added value of all partners, whereby strong and balanced involvement from both the business and higher education sectors is essential. A well designed proposal is the result of close cooperation between the prospective partners and based on a solid needs analysis;
- their innovative and transnational character, visible across all criteria.

A proper needs-analysis clarifies the rationale, influences the selection of partners, makes the proposal specific, helps to raise the potential for impact and ensures that end-user and target groups are well involved in the project activities.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A KNOWLEDGE ALLIANCE?

Applicant/coordinator: a participating organisation that submits the project proposal on behalf of all the partners. The coordinator has the full responsibility to ensure that the project is implemented in accordance with the agreement. Its coordinating covers the following duties:

- represents and acts on behalf of the Alliance towards the European Commission;
- bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the entire project;
- coordinates the Alliance in cooperation with project partners.

Full partners are those participating organisations which contribute actively to the achievement of the Knowledge Alliance's objectives. Each full partner must sign a mandate to confer to the coordinating organisation the responsibility of acting as main beneficiary and act in his name during the implementation of the project. If relevant, the same applies for partners from Partner Countries.

Associated partners (optional): Knowledge Alliances can involve associated partners who contribute to the implementation of specific project tasks/activities or support the dissemination and sustainability of the Alliance. For contractual management issues, "associated partners" are not considered as part of the project partners, and they do not receive funding. However their involvement and role in the project and different activities have to be clearly described.

Furthermore, they must score minimum 13 points for the categories "relevance of the project" and "quality of the project design and implementation"; 16 points for the category "quality of the project team and cooperation arrangements", and 11 points for the category "impact and dissemination".

WHAT ELSE SHOULD YOU KNOW ABOUT THIS ACTION?

Quality assurance must be an embedded project component to ensure that Knowledge Alliances successfully deliver the expected results and achieve an impact going far beyond the partner organisations themselves. Knowledge Alliances are required to accomplish targeted dissemination activities which reach out to stakeholders, policy makers, professionals and enterprises. Along the way Knowledge Alliances should deliver publications such as reports, handbooks, guidelines, etc. Where appropriate, results should be made available as open educational resources (OER) as well as on relevant professional, sectorial or competent authorities' platforms. Knowledge Alliances should generate new ways and instruments to facilitate their collaboration and to ensure that the partnership between higher education and business persists.

Knowledge Alliances are a recent and ambitious Action; they are subject to a particular monitoring which requires active participation from all participants and stakeholders. Knowledge Alliances should foresee their participation in thematic clusters to support cross-fertilisation, exchange of good practices and mutual learning. Additionally, Knowledge Alliances should budget for the presentation of their project and the results at the University-Business Forum and/or other relevant events (up to four during the project duration).

WHAT ARE THE FUNDING RULES?

The budget of the project must be drafted according to the following funding rules (in euro):

SECTOR SKILLS ALLIANCES

WHAT ARE THE AIMS AND PRIORITIES OF A SECTOR SKILLS ALLIANCE?

Sector Skills Alliances aim at tackling skills gaps, by identifying sector specific labour market needs and demand for new skills with regard to one or more occupational profiles, and/or enhancing the responsiveness of initial and continuing VET systems to sector-specific labour market needs.

Sector Skills Alliances are open to all economic sectors as they are defined by the Eurostat NACE – Statistical classification of economic activities in the European Union.

- This should be achieved through actions aimed at the following objectives:
- Identification of existing and emerging skills needs for professions in specific sectors,
- strengthening the exchange of knowledge and practice between education and training institutions and the labour market;
- modernising VET by adapting provision to skills needs,
- integrating work based learning in VET provision, and exploiting its potential to drive economic development and innovation, increasing the competitiveness of the sectors concerned;
- building mutual trust, facilitating cross-border certification and therefore easing professional mobility in a sector, and increasing recognition of qualifications at European level within a sector.

In addition, in line with the annual Work Programme adopted by the Commission, priority will be given to projects that pursue one or more of the relevant priorities described in the introduction chapters on "Education and Training" in Part B of this Guide.

WHAT IS A SECTOR SKILLS ALLIANCE?

Sector Skills Alliances are transnational projects either identifying or drawing on existing and emerging skills needs in a specific economic sector and/or translating these needs into vocational curricula to respond to those needs.

A particular focus will be on **digital skills** as they are increasingly important on all job profiles across the entire labour market.

Also, the transition to a circular economy needs to be underpinned by changes to qualifications and national education and training curricula to meet emerging professional needs for "**green skills**".

Projects can achieve these aims by applying to one of the following "lots" (applicant organisations are not allowed to apply for the two lots at the same time):

Lot 1: Sector Skills Alliances for skills needs identification will work at sectoral level in order to provide clear and detailed evidence of what the needs and gaps are. This would make it possible to address such gaps through training provision, whether it be VET-based (Lot 2) or other education and training.

Lot 2: Sector Skills Alliances for design and delivery of VET will work to **design and deliver common training content** for vocational programmes for one, or several related, profession/s in a sector, as well as teaching and training methodologies. A particular focus is to be put on work-based learning, providing learners with the skills required by the labour market. Lot 2 - Sector Skills Alliances are required to apply EU wide instruments and tools such as the EQF, ECVET, EQAVET.

Sectors are defined by the Eurostat NACE – Statistical classification of economic activities in the European Union.

In case two or more proposals receive the same score and the available budget is not sufficient to finance all of them, proposals from members of European Sector Skills Councils will be given priority.

As a general rule, Sector Skills Alliances target the cooperation between organisations established in Programme Countries. However, organisations from Partner Countries can be involved in a Sector Skills Alliance, as partners (not as applicants), **if their participation brings an essential added value to the project.**

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Each Sector Skills Alliance shall implement a coherent, comprehensive and variable set of interconnected activities which are flexible and adaptable to different current and future labour markets' needs, such as:

LOT 1: SECTOR SKILLS ALLIANCE FOR SKILLS NEEDS IDENTIFICATION

Defining skills and training provision needs in a given specific economic sector:

- when needed, gathering and interpreting evidence of skills needs on the labour market in a given economic sector, drawing on the EU Skills Panorama and, where relevant, on the work of European Sector Skills Councils;
- delivering evidence of sector skills needs in an electronic form, in linked open data format, so that it can feed into the Skills Panorama;
- identifying needs in terms of training provision, drawing on, where available, the occupational profiles of the classification of European Skills, Competences, Qualifications and Occupations (ESCO):
- concentrating on sectors where significant skills needs and gaps should be identified; evidence of such needs provided by the stakeholders of the sector should be delivered in an electronic form, in linked open data format so that it can feed into the "EU Skills Panorama";
- involving the most representative stakeholders of the sector.

LOT 2: SECTOR SKILLS ALLIANCE FOR DESIGN AND DELIVERY OF VET

Designing European vocational core curricula:

- related to identified skills needs designing one or several related European profession-specific core curriculum/curricula, VET programmes and possibly qualification standards for one, or several related, profession/s in a sector, in other words, jointly developing training content for one or several related European professional core profile/s, drawing, where available, on ESCO;
- defining this training content so that it meets the requirements of EQF and ECVET, i.e. it is learning outcome-oriented and sub-divided into units of learning outcomes in order to allow for transparency and comparability, taking also into account needs of validation of prior learning (e.g. non-formal or informal or in different contexts) and thus allowing more mobility in the sector;
- integrating periods of work-based learning into the new training content and developing entrepreneurial mind-sets;
- applying quality control to the new training content either by establishing the quality assurance principles of EQAVET or by using already existing quality assurance systems which, however, should be checked against EQAVET;
- integrating digital skills into curriculum design, VET programmes and possibly qualification standards), as well as including opportunities to apply knowledge in practical projects/"real life" workplace situations (work based learning);
- integrating innovative approaches to teaching and learning, notably through more strategic and integrated use of ICTs and open educational resources (OER).

Delivering European vocational core curricula:

- delivering one or several related European profession-specific curriculum/a that has/have been adapted or newly created following the analysis and forecasts of labour market needs for one, or several related, professional profile/s;
- implementing periods of work-based learning that are integrated in the curriculum/a
- implementing innovative VET teaching and learning methods to respond to evolving skills and/or specific target public within a given profession (e.g. ICT-based content, services and methods, education in the workplace environment, etc.);
- facilitating recognition and certification of the respective learning outcomes by implementing ECVET principles, the quality assurance framework in VET (EQAVET) and possibly referencing respective qualifications to NQFs or any other relevant European tools in the sector concerned.

WHAT ARE THE ESSENTIAL FEATURES OF A SECTOR SKILLS ALLIANCE?

The key features of Sector Skills Alliances are:

- **Innovation** in **vocational education and training** for specific professions in economic sectors and (where available ESCO: <https://ec.europa.eu/esco/home>);
- **Impact** going beyond the project's lifetime and beyond the organisations involved in the Alliance. It is expected that partnership and activities persist. Changes in VET provision for professional profiles have to be measurable. Results and solutions have to be transferable and accessible to a broader audience. The results of Sector Skills Alliances should become available for use and publication in the EU Skills Panorama.

Sector Skills Alliances have to demonstrate the commitment and added value of all partners. The partners should combine systemic and sector-related information with a solid knowledge of skills needs and training practices in their economic sector. The distribution of tasks and deliveries should show a right match between the partners' expertise and the activities they are in charge of. The partners should be representative in the sector at least at national level, have a European outreach and expertise or competence in vocational skills anticipation or supply, training, or qualification design.

In **Lot 1 - Sector Skills Alliances for skills needs identification** the identification and definition of future skills needs should be supported by research on labour market needs in the sector. Collaboration between public and private actors on the labour market (such as labour ministries, social partners, training and education providers, labour market intelligence entities, companies including SME's, chambers of commerce, public and private employment services and national statistics offices) should be encouraged to work together to identify and anticipate persistent skills shortages and mismatches at sectoral level and help fill the gap between labour supply and demand. It is important to maximise synergies with other sectoral initiatives.

In **Lot 2 - Sector Skills Alliances for design and delivery of VET** partners will have to interpret existing research evidence on profession-specific skills needs when implementing vocational education and training or designing qualification standards based on a common European professional core profile, drawing, where available on ESCO. Where appropriate, they should base themselves on skills intelligence gathered by "European Sector Skills Councils" and already existing sector skills studies that have been commissioned by the European Commission. The EU Skills Panorama provides a wealth of skills intelligence, analyses and studies on professions (occupations) and sectors:

<http://euskills Panorama.cedefop.europa.eu>

The Alliance should then translate these into innovative, learning outcome-oriented vocational curricula (applying ECVET) which include periods of work-based learning and which should be underpinned by quality assurance mechanisms (in line with EQAVET). The Alliance partners should demonstrate in the proposal what measures they will take in the countries and in the sector covered for the formal recognition (initial vocational education & training) or the certification (continuing vocational training) of the new or adapted vocational curriculum/a and how they will pursue the procedures after EU funding has ended. Career guidance respectively professional orientation services together with regional or local authorities should play a "facilitator" role in supporting the process of skills matching with the planning of vocational curricula in order to attract initial VET schools, young learners or their parents to specific professions with high labour market demand. Sector Skills Alliances are supposed to carry out the proposed activities in a way that maximises the impact on one, or several related, profession/s in a given sector.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A SECTOR SKILLS ALLIANCE?

Applicant/coordinator: a participating organisation that submits the project proposal on behalf of all the partners. The coordinator has the full responsibility to ensure that the project is implemented in accordance with the agreement. Its coordinating covers the following duties:

- represents and acts on behalf of the Alliance towards the European Commission;
- bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the entire project;
- coordinates the Alliance in cooperation with project partners.

Full partners: participating organisations which contribute actively to the accomplishment of the Sector Skills Alliance. Each full partner must sign a mandate by which the signatory agrees that the coordinator takes over the above listed duties on behalf of the partnership during the implementation of the project. The same applies for partners from Partner Countries.

Associated partners (optional): Sector Skills Alliances can involve associated partners who contribute to the activities of the Sector Skills Alliance. They are not subject to contractual requirements because they do not receive funding. However their involvement and role in the project and different work packages have to be clearly described.

The proposal presents a coherent and comprehensive set of appropriate activities to meet the identified needs and lead to the expected results; ▪ Structure: the work programme is clear and intelligible, and covers all phases (preparation, implementation, exploitation, monitoring, evaluation and dissemination); ▪ Management: solid management arrangements are foreseen. Timelines, organisation, tasks and responsibilities are well defined and realistic. The proposal allocates appropriate resources to each activity; ▪ Budget: the budget provides for appropriate resources necessary for success, it is neither overestimated nor underestimated; ▪ Financial and quality control: control measures (continuous quality evaluation, peer reviews, benchmarking activities, etc.) and quality indicators ensure that the project implementation is of high quality and cost-efficient. Challenges/risks of the project are clearly identified and mitigating actions properly addressed.

<p>Quality of the project team and the cooperation arrangements (maximum 25 points)</p>	<ul style="list-style-type: none"> ▪ Configuration: the composition of the partnership is in line with the project objectives, bringing together as relevant the expertise and competences required in skills identification and anticipation, skills supply, and skills policy issues more generally. The representativeness and expertise of the partners in the sector concerned and at European level is convincingly demonstrated. The spread and representativeness of relevant partners over the Programme Countries involved in the Alliance should be such that the Alliance has high potential for impact in several of the countries covered by the Alliance (e.g. through the participation of a European sector organisation or European social partners); ▪ Commitment: the distribution of responsibilities and tasks is clear, appropriate, and demonstrates the commitment and active contribution of all participating organisations in relation to their specific expertise and capacity; ▪ Tasks: the coordinator shows high quality management and coordination of transnational networks and leadership in complex environment. Individual tasks are allocated on the basis of the specific know-how of each partner; ▪ Collaboration/Team spirit: an effective mechanism is proposed to ensure a good coordination, decision-making and communication between the participating organisations, participants and any other relevant stakeholder; ▪ Involvement of Partner Countries: if applicable, the involvement of a participating organisation from a Partner Country brings an essential added value to the project (if this condition is not fulfilled, the project will not be considered for selection).
<p>Impact and dissemination (maximum 20 points)</p>	<ul style="list-style-type: none"> ▪ Exploitation: the proposal demonstrates how the outcomes of the Alliance will be used by the partners and other stakeholders. It provides means to measure exploitation within project lifetime and after; ▪ Dissemination: the proposal provides a clear plan for the dissemination of results, and includes appropriate activities, tools and channels to ensure that the results and benefits will be spread effectively to the stakeholders and non-participating audience within and after the project's lifetime; ▪ Impact: the proposal shows societal and economic relevance and outreach. It is likely to significantly increase partners' capacity to implement relevant training in the European context. It also provides pertinent measures to monitor progress and assess the expected impact (short- and long-term); ▪ Open access: If relevant, the proposal describes how the materials, documents and media produced will be made freely available and promoted through open licences and does not contain disproportionate limitations; ▪ Sustainability: the proposal includes appropriate measures and resources to ensure that the results and benefits achieved by the Alliance will be sustained beyond the project lifetime. (i.e. how the information on future skills needs can be addressed in the sector through training provision and curriculum design. This could be VET-based (Lot 2) or other training. The proposal explains how and with which resources (other than EU funds) this will be done.

To be considered for funding, proposals must score at least 70 points. Furthermore, they must score minimum 13 points for the categories "relevance of the project" and "quality of the project team and cooperation arrangements"; 16 points for the category "quality of the project design and implementation", and 11 points for the category "impact and dissemination".

WHAT ELSE SHOULD YOU KNOW ABOUT THIS ACTION?

Quality assurance is vital in order to ensure that Alliances successfully deliver their results and achieve an impact going far beyond the partner organisations themselves. Alliances are expected to achieve results which are widely transferable within the economic sector concerned. Therefore, Alliances need to provide a sound quality management plan.

Alliances should also implement expert review processes as an integral part of the project. The Alliance work programme should therefore include an independent external quality assessment at mid-term and at the end of the project, to be submitted together with the project progress and final report respectively. In its progress report, the participating organisations will have to demonstrate the follow-up actions resulting from the recommendation of the mid-term quality assessment.

All Alliances are required to undertake targeted dissemination activities, notably through organisations/bodies providing professional guidance/orientation. They will have to provide thereto a comprehensive dissemination plan including:

- an active dissemination strategy to reach out to stakeholders, policy makers, guidance professionals, enterprises and young learners in compulsory education concerning occupations with high labour market demand or new business creation potential;
- mainstreaming the results throughout the sector;
- when appropriate, making the results of the Alliance available through open licences.

The dissemination plan should clearly explain how the planned project results will be disseminated, including definition of the targets, the objectives, the means to be used and the relevant timing. Applications should also indicate which partner will be responsible for dissemination and to demonstrate the relevant experience that they have in dissemination activities. Selected projects will have to produce a short publishable summary of the project activities at the end of the project to be published in the Programme dissemination tool. This will be a condition for receiving the final payment when the project ends.

WHAT ARE THE FUNDING RULES?

The budget of the project must be drafted according to the following funding rules (in euro):

Maximum EU contribution awarded for a Lot 1 - Sector Skills Alliance for skills needs identification (2 or 3 years): 500 000 EUR Maximum EU contribution awarded for a Lot 2 - Skills Alliance for design and delivery of VET (3 years): 1 400 000 EUR

CAPACITY BUILDING IN THE FIELD OF HIGHER EDUCATION

This action which aims to support the modernisation, accessibility and internationalisation of higher education in the Partner Countries is to be carried out in the context of the priorities identified in the Communications “Increasing the impact of EU Development Policy: an Agenda for Change”⁹² and “European Higher Education in the World”⁹³.

It is implemented within the framework of the external policies of the EU, defined by the financial instruments of the European Union which support this action, namely the:

- European Neighbourhood Instrument (ENI)⁹⁴
- Development Cooperation Instrument (DCI)⁹⁵
- Instrument for Pre-accession Assistance (IPA)⁹⁶
- European Development Fund⁹⁷

This action contributes to the development of sustainable and inclusive socio-economic growth in Partner Countries and should ensure development and EU external actions objectives and principles, including national ownership, social cohesion, equity, proper geographical balance and diversity. Special attention will be given to the least developed countries as well as to disadvantaged students from poor socio-economic backgrounds and to students with special needs.

The following section should be read in conjunction with Annex I of this present Guide (Specific rules and information relating to Capacity Building in the field of higher education)

WHAT IS A CAPACITY-BUILDING PROJECT?

Capacity-building Projects are transnational cooperation projects based on multilateral partnerships, primarily between higher education institutions (HEIs) from Programme and eligible Partner Countries financed through the above-mentioned instruments. They can also involve non-academic partners to strengthen the links with society and business and to reinforce the systemic impact of the projects. Through structured cooperation, exchange of experience and good practices and individual mobility, Capacity-building Projects aim to:

- support the modernisation, accessibility and internationalisation of higher education in the eligible Partner Countries;
- support eligible Partner Countries to address the challenges facing their higher education institutions and systems, including those of quality, relevance, equity of access, planning, delivery, management and governance;
- contribute to cooperation between the EU and the eligible Partner Countries (and amongst the eligible Partner Countries);
- promote voluntary convergence with EU developments in higher education;
- promote people-to-people contacts, intercultural awareness and understanding.

These objectives are pursued in the eligible Partner Countries, through actions that:

- improve the quality of higher education and enhance its relevance for the labour market and society;
- improve the level of competences and skills in HEIs by developing new and innovative education programmes;
- enhance the management, governance and innovation capacities, as well as the internationalisation of HEIs;
- increase the capacities of national authorities to modernise their higher education systems, by supporting to the definition, implementation and monitoring of reform policies
- foster regional integration and cooperation across different regions⁹⁸ of the world through joint initiatives, sharing of good practices and cooperation.

⁹⁷ Indicative only. Subject to the provisions of the revised Cotonou Partnership Agreement and multiannual financial framework 2014-2020

⁹⁸ In the framework of this action, a region is defined as a grouping of countries belonging to a certain macro-geographic area. The classification of regions applied under Erasmus+ is in line with the categorisations made by the different EU external action instruments.

Two categories of Capacity-building projects are supported:

Joint Projects: aimed at producing outcomes that benefit principally and directly the organisations from eligible Partner Countries involved in the project. These projects typically focus on three different types of activities:

- curriculum development;
- modernisation of governance, management and functioning of HEIs;
- strengthening of relations between HEIs and the wider economic and social environment.

Structural Projects: aimed at producing an impact on higher education systems and promoting reforms at national and/or regional level in the eligible Partner Countries. These projects typically focus on two different categories of activities:

- modernisation of policies, governance and management of higher education systems;
- strengthening of relations between higher education systems and the wider economic and social environment.

Capacity-building projects can be implemented as:

- National projects, i.e. projects involving institutions from only one eligible Partner Country;
- Multi-country projects within one single region, involving at least two countries from this region;
- Multi-country projects involving more than one region, involving at least one country from each region concerned.

In the case of Capacity-building projects targeting the eligible Partner Countries from Regions 1, 2 and 3 (see section "Eligible Countries" in Part A of this Guide), both categories of projects (Joint Projects and Structural Projects) may include, in addition, a **Special Mobility Strand** for staff and students. This Mobility Strand will be evaluated as a separate component.

The Special Mobility Strand must be instrumental to the objectives of the project (integrated mobility) and implemented through inter-institutional agreements. However, it is important to note that this component of the project may be rejected (not funded) even if the project is selected; the non-selection of this component should not hamper the implementation of the other activities foreseen by the project. The Special Mobility Strand should be seen as additional support provided by the EU to reinforce the intervention logic of the project but cannot be a condition for the successful implementation of the core project objectives. The funding of a Special Mobility Strand within a selected project will depend on the results of the specific qualitative evaluation of the proposal and on the budget available. It is expected that no more than 40% of the Joint or Structural projects selected for funding for Regions 1, 2, 3 will benefit from such a grant.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Erasmus+ offers a great deal of flexibility in terms of the activities that a Capacity-building Project can implement, as long as the proposal demonstrates that these activities are the most appropriate to reach the objectives defined for the project.

Joint Projects may typically carry out a wide range of activities, such as:

- development, testing and adaptation of:
 - curricula, courses, learning materials and tools;
 - learning and teaching methodologies and pedagogical approaches, especially those delivering key competences and basic skills, language skills, entrepreneurship education and focusing on the use of ICT;
 - new forms of practical training schemes and study of real-life cases in business and industry;
 - university-enterprise cooperation, including the creation of business start-ups;
 - new forms of learning and providing education and training, notably strategic use of open and flexible learning, virtual mobility, open educational resources and better exploitation of the ICT potential;
 - guidance, counselling and coaching methods and tools;
 - tools and methods for professionalization and professional development of academic and administrative staff;
 - quality assurance at programme and institution level;
 - new governance and management systems and structures;
 - modern university services e.g. for financial management, international relations, student counselling and guidance, academic affairs and research;
- strengthening of the internationalisation of HEI and the capacity to network effectively in research, scientific and technological innovation (international openness of curricula, student services, inter-institutional mobility schemes, scientific cooperation and knowledge transfer, etc.);
- upgrading of facilities necessary to the implementation of innovative practices (e.g. for new curricula and teaching methods, for the development of new services, etc.);
- organisation of staff trainings involving teaching and support staff, technicians as well as university administrators and managers.

Curriculum reform projects, in particular, are expected to include training for teaching staff and address related issues such as quality assurance and employability of graduates through links to the labour market. Study programmes must be officially accredited before the end of the project time life. The teaching of new or updated courses must start during the life-time of the project with an adequate number of students and retrained teachers and has to take place during at least one third of the project duration. Training during curriculum reform projects can also target administrative personnel such as library staff, laboratory staff and IT staff.

Structural Projects may typically carry out a wide range of activities, such as:

- strengthening of internationalisation of higher education systems;
- introduction of Bologna-type reforms (three-level cycle system, quality assurance, evaluation, etc.);
- implementation of transparency tools such as credit systems, accreditation procedures, guidelines for the recognition of prior and non-formal learning etc.;
- establishment of National Qualification Frameworks;
- development and implementation of internal and external quality assurance systems/guidelines;
- development and implementation of new approaches and tools for policy making and monitoring, including the establishment of representative bodies, organisations or associations;
- strengthening the integration of education, research and innovation.

In more concrete terms, these activities can include:

- surveys and studies on specific reform issues;
- policy and expert advice;
- organisation of conferences, seminars, workshops, round tables (which should result in operational conclusions and recommendations);
- organisation of staff trainings on policy issues;
- organisation of staff trainings (which may include the production of training manuals and guidelines) involving teaching and support staff, technicians as well as university administrators and managers;
- organisation of awareness-raising campaigns.

In both categories of projects described above, a **Special Mobility Strand** may be granted comprising one or more of the following activities and concerns exclusively projects with Partner Countries eligible for the Special Mobility Strand:

Student mobility:

- a **study period** abroad at a partner HEI.

To ensure high quality mobility activities with maximum impact on the students, the mobility activity has to respond to the students' degree-related learning and personal development needs. The study period abroad must be part of the student's study programme to complete a degree at a short cycle, first cycle (Bachelor or equivalent), second cycle (Master or equivalent) and third or doctoral cycle.

Student mobility must be related to the topic or thematic area addressed by the project.

- a **traineeship (work placement) abroad** in an enterprise or any other relevant workplace in one of the consortium countries. Traineeships abroad at a workplace are also supported during short cycle, first, second, third cycle studies. This includes as well the "assistantships" for student teachers.

Wherever possible, the traineeships should be an integrated part of the student's study programme.

- **A combination of both.**

Staff mobility:

- a **teaching period:** this activity allows HEI teaching staff or staff from any participating organisation to teach at a partner HEI abroad.
- a **training period** in one of the consortium countries: this activity supports the professional development of HEI teaching and non-teaching staff in the form of: a) participation in structured courses, including professionally focused

language trainings, or training events abroad (conferences excluded); b) job shadowing/observation periods/trainings at a partner HEI, or at another relevant organisation abroad.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A CAPACITY-BUILDING PROJECT?

Depending on their objectives, Capacity-building projects should involve the most appropriate and diverse range of partners in order to benefit from their different experiences, profiles and specific expertise and to produce relevant and high quality project results. It will be important to ensure an equitable and active involvement of the different partners based on a suitable distribution of tasks and a clear demonstration of networking capacities and in order to increase impact, to be able to draw on all the different levels of the partnership and not just on individual participation.

Partners must submit mandates⁹⁹ signed between the coordinator and each partner, confirming that they grant power of attorney to the coordinator, to act in their name and for their account in signing the possible agreement and its subsequent riders with the Education, Audiovisual and Culture Executive Agency.

According to the scope and objectives of the Action, participating organisations from eligible Partner Countries are intended to be the target of the Capacity-building project. The activities and outcomes described in the proposal must be geared to benefit the eligible Partner Countries, their higher education institutions and systems.

HEIs from the eligible Partner Countries are encouraged to act as applicants, provided that they have the financial and operational capacity required.

Participating organisations from Programme Countries bring their expertise and experience in relation to the objectives of the project. Their role is to contribute towards achieving the objectives of the project and the needs of these institutions should not therefore feature in the project's design. Those organisations are eligible to receive a share of the budget in relation to the costs incurred by their role.

Additionally the Capacity-building in the field of higher education project may also benefit from the involvement of associated partners (optional). These organisations (for instance non-academic partners) contribute indirectly to the implementation of specific tasks/activities and/or support the dissemination and sustainability of the project. Such contribution may for example take the form of knowledge and skills transfer, the provision of complementary courses or possibilities for secondment or placement. Associated partners do not count for the minimum number of higher education institutions or Ministries required for the partnership composition. For contractual management issues, "associated partners" are not considered as part of the consortium and therefore are not considered as beneficiaries and their costs are not taken into account for the calculation of the EU grant.

If the project foresees a Special Mobility Strand:

- the sending and receiving organisations, together with the students/staff, must have agreed on the activities undertaken by the students - in a Learning Agreement - or by staff members - in a Mobility Agreement - prior to the start of the mobility period. These agreements (see below) define the target learning outcomes for the learning period abroad, specify the formal recognition provisions and list the rights and obligations of each party. When the activity is between two higher education institutions (student mobility for studies and staff mobility for teaching assignments), an inter-institutional agreement has to be in place between the sending and the receiving institutions before the exchanges can start.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A CAPACITY-BUILDING PROJECT IN THE FIELD OF HIGHER EDUCATION?

Applicant/coordinator: a participating organisation that submits the project proposal on behalf of all the partners. The coordinator has the full responsibility to ensure that the project is implemented in accordance with the agreement. Its coordinating covers the following duties:

⁹⁹

The mandate duly signed by the legal representative of the partner organisation will be an annex to the Grant Agreement and has therefore legal force. The template provided by the Agency must be used in all cases without any modification or adjustment. Mandates must be provided using the template published with the official documents of the call for proposals.

- represents and acts on behalf of the project partners towards the European Commission;
- bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the entire project;
- coordinates the project in cooperation with project partners.

Full partners: are those participating organisations from Programme or Partner Countries which contribute actively to the achievement of the Capacity Building project's objectives. Each full partner must sign a mandate to confer to the coordinating organisation the responsibility of acting as main beneficiary and act in his name during the implementation of the project

Associated partners (optional): Capacity-building projects can involve associated partners who contribute to the implementation of specific project tasks/activities or support the dissemination and sustainability of the project. For contractual management issues, "associated partners" are not considered as part of the project partners, and they do not receive funding, neither are they considered as regards the minimum requirements for consortium composition. However their involvement and role in the project and different activities have to be clearly described.

WHAT ARE THE CRITERIA USED TO ASSESS A CAPACITY-BUILDING PROJECT?

Listed below are the formal criteria that a higher education Capacity-building project must respect in order to be eligible for an Erasmus+ grant:

ELIGIBILITY CRITERIA

Eligible Partner Countries	Partner Countries belonging to Regions 1 to 4 and 6 to 11 ¹⁰⁰ included (see section "Eligible Countries" in Part A of this Guide).
Eligible participating organisations¹⁰¹	<p>A participating organisation can be:</p> <ul style="list-style-type: none"> ▪ any public or private organisation offering full programmes leading to higher education degrees and recognised diplomas at tertiary education qualifications level¹⁰² (defined as higher education institution and recognised as such by the competent authority); <p>or</p> <ul style="list-style-type: none"> ▪ any public or private organisation active in the labour market or in the fields of education, training and youth. For example, such organisation can be: <ul style="list-style-type: none"> – a public, private small medium or large enterprise (including social enterprises); – a public body at local, regional or national level (including ministries); – a social partner or other representative of working life, including chambers of commerce, craft/professional associations and trade unions; – a research institute; – a foundation; – a school/institute (on any level, from pre-school to upper secondary education, including vocational education and adult education); – a non-profit organisation, association, NGO (including national or international associations or networks of higher education institutions, students or teachers associations, etc.); – a cultural organisation, library, museum; – a body providing career guidance, professional counselling and information services.

¹⁰⁰ Indicative only. Subject to the provisions of the revised Cotonou Partnership Agreement and multiannual financial framework 2014-2020.

¹⁰¹ The following types of organisations are not eligible:

- EU institutions and other EU bodies including specialised agencies (their exhaustive list is available on the website ec.europa.eu/institutions/index_en.htm);
- National Erasmus+ Offices in the eligible Partner Countries (in order to avoid a possible conflict of interests and/or double funding);

Organisations managing EU programmes such as national agencies in the Programme Countries should refer to Part C of the present Guide

¹⁰² International Standard Classification of Education (ISCED 2011), tertiary education, **at least** level 5. Post-secondary non-tertiary education ISCED 2011 level 4 is not accepted.

	<p>Each participating organisation must be established in a Programme Country or in an eligible Partner Country.</p> <p>Higher education institutions (HEIs) located in a Programme Country must hold a valid Erasmus Charter for Higher Education (ECHE). An ECHE is not required for participating HEIs in eligible Partner Countries; however for the Special Mobility Strand, HEIs established in the eligible Partner Countries will have to have established inter-institutional agreements with all partner HEIs, endorsing the principles of the ECHE.</p> <p>Faculties/schools/colleges/departments/centres/foundations/institutes or any other components, which are parts of higher education institutions but established as autonomous legal entities, are considered ineligible (even if they have a PIC – Participant Identification Code) unless they can provide a specific project-related statement signed by the Rector/President of the higher education institution authorising them to commit the whole institution.</p> <p>Associations or organisations of higher education institutions dedicated to the promotion, improvement and reform of higher education as well as to co-operation within Europe and between Europe and other parts of the world are eligible. If such associations, organisations or networks also cover other education sectors and training, the main focus of their activities must be on higher education, which must be clearly reflected in the organisation statutes and governance structures. An association, organisation or network of higher education institutions will count as one legal entity/partner institution, meaning that it will be treated as one entity from the country where the headquarter is based. These organisations will not be considered as HEIs. Only those members which are established in the Programme or eligible Partner Countries can benefit from the grant.</p> <p>International governmental organisations may participate as partners in Capacity-building projects on a self-financing basis.</p> <p>Specific provision for Ukraine: In the case of Ukraine, eligible Higher Education Institutions are only those recognised by the Ministry of Education and Science of Ukraine (for further information please contact the National Erasmus+ Office in Ukraine).</p>
<p>Who can apply?</p>	<p>The following types of participating organisations can apply for a grant:</p> <ul style="list-style-type: none"> • a higher education institution; • an association or organisation of higher education institutions; • <u>only for Structural Projects</u>: a legally recognized national or international rector, teacher or student organisation. <p>established in a Programme or in an eligible Partner Country.</p> <p>This organisation applies on behalf of all participating organisations involved in the project.</p> <p>Exception: participating organisations from Libya and Syria (Region 3) as well as from the Russian Federation (Region 4) cannot act as applicants.</p>

<p>Number and profile of participating organisations</p>	<p>Capacity-building projects must respect all of the following criteria:</p> <p>For projects addressing one Partner Country only (national projects):</p> <p>One eligible Partner Country and at least three Programme Countries must be involved in the project.</p> <p>These projects must include, as full partners, a minimum number of HEIs, as follows:</p> <ul style="list-style-type: none"> • minimum one HEI from each Programme Country taking part in the project; • minimum three HEIs from the Partner Country taking part in the project. • projects must include at least as many Partner Country HEIs as there are Programme Country HEIs. <p>Exception: in Partner Countries where the number of higher education institutions is lower than 5 in the whole country or in cases where one single institution represents more than 50% of the overall student population of the country, applications counting only one HEI for those countries will be accepted.</p> <p>For projects addressing two or more Partner Countries (multi-country projects):</p> <p>At least two eligible Partner Countries and at least three Programme Countries must be involved in the project. Partner Countries can be from the same region¹⁰³ or from different regions covered by the Action.</p> <p>These projects must include, as full partners, a minimum number of HEIs, as follows:</p> <ul style="list-style-type: none"> • minimum one HEI from each Programme Country taking part in the project; • minimum two HEIs from each Partner Country taking part in the project; • projects must include at least as many Partner Country HEIs as there are Programme Country HEIs. <p>Exception: in Partner Countries where the number of higher education institutions is lower than 5 in the whole country or in cases where one single institution represents more than 50% of the overall student population of the country, applications counting only one HEI for those countries will be accepted on the condition that the projects includes at least as many Partner Country HEIs as there are Programme Country HEIs.</p> <p><u>Additional specific criteria applying to:</u></p> <ul style="list-style-type: none"> • Structural Projects: projects must also involve, as full partners, the Ministries responsible for higher education in each of the eligible Partner Countries targeted by the project. • Projects involving partners from Region 4 (Russian Federation) must involve at least another Partner Country. • Projects involving partners from Region 8 (Latin America), must involve at least two Partner Countries from that region in the project.
---	--

¹⁰³ In the framework of this action, a region is defined as a grouping of countries belonging to a certain macro-geographic area. The classification of regions applied under Erasmus+ is in line with the categorisations made by the different EU external action instruments.

Other criteria	Where an association, organisation or network of higher education institutions is involved, the requirements for the minimum number of participating organizations indicated above must be fulfilled, counting the association / organisation / network as only one partner from the country where the headquarters is based. Please note that these organisations cannot be considered as HEIs.
Duration of project	Capacity-building Projects can last two or three years. The duration must be chosen at application stage, based on the objective of the project and on the type of activities foreseen over time. Only under exceptional circumstances, one extension of the eligibility period of maximum 12 months, may be granted if it becomes impossible for the coordinator to complete the project within the scheduled period.
Where to apply?	To the Education, Audiovisual and Culture Executive Agency, based in Brussels.
When to apply?	Applicants have to submit their grant application by 10 February at 12:00 (midday Brussels time) for projects starting on 15 October of the same year.
How to apply?	The application must be introduced in compliance with the modalities described in Part C of this Guide.

Applicant organisations might also be assessed against **exclusion and selection criteria**. For more information please consult Part C of this Guide.

Measures are in place to assess the effective impact achieved by the project; ▪ The dissemination plan during and beyond the project lifetime is clear and efficient, with appropriate resources identified in each of the participating organisations, to ensure high quality dissemination of project experiences and outputs to relevant stakeholders; ▪ The project will ensure a real sustainability of the proposed activities and outputs after the project lifetime, in particular through attracting co-funding or other forms of support. It will also ensure the mainstreaming and effective use/implementation of the project results.

During the assessment stage, applications may score up to 100 points. To be considered for funding, proposals must score at least 60 points in total and - out of these points - at least 15 points for the category "relevance of the project".

The acceptance of an application does not constitute an undertaking to award funding equal of the amount requested by the applicant. The funding requested may be reduced on the basis of the financial rules applicable to the action and the results of the evaluation.

A maximum of three project proposals per applicant organisation will be recommended for funding.

PRIORITIES

Depending on the countries involved in the project, national, regional or cross cutting priorities may be defined for both categories of projects (Joint Projects and Structural Measures). Should this be the case, projects will have to demonstrate how and to which extent they address these priorities.

Proposals not respecting the national and/or regional and cross-cutting priorities will not be considered for funding.

Four categories of national/regional priorities are proposed, covering the following areas:

- Subject areas (for curriculum development);
- Improving quality of education and training;
- Improving management and operation of higher education institutions;
- Developing the higher education sector within society at large.

National projects, in the countries where national priorities have been established will have to comply with national priorities. For the other countries, projects will have to comply with the regional priorities.

Multi-country projects, that is, projects involving institutions from at least two eligible Partner Countries, must respect the regional priorities or national priorities (if relevant) of the participating eligible Partner Countries involved. That is, the theme of the project must be listed as regional priority for each of the participating Partner Countries or the theme of the project must be listed as a national priority for each of the participating Partner Countries concerned. Preference will be given to projects focussing on subject areas insufficiently covered by past or existing projects and which include Partner Country higher education institutions not having benefited from or had a limited participation in the programme and/or former generation of programmes.

The detailed list of priorities applying to Capacity-building projects will be published on the websites of the Executive Agency.

	ganisation abroad.
Eligible participants	<p>Student mobility:</p> <p>Students enrolled in studies, leading to a recognised degree or other recognised tertiary-level qualification (up to and including doctorate level) in a partner HEI. In case of mobility for studies, the students must be enrolled in at least in the second year of higher education studies. For traineeships, this condition does not apply.</p> <p>Staff mobility:</p> <p>For teaching periods: staff employed in a HEI or in an enterprise involved in the Capacity-building project.</p> <p>For training periods: staff employed in a HEI involved in the Capacity-building project.</p> <p>It is important to note that students and staff cannot apply directly for a grant; the selection criteria for participation in the mobility activities are defined by the consortium.</p>

Duration of Staff Mobility	<p>Staff Mobility: from 5 days to 2 months, excluding travel time.</p> <p>In addition, in all cases a teaching activity has to comprise of a minimum 8 hours of teaching per week (or any lower period of stay). If the mobility lasts longer than one week, the minimum number of teaching hours for an incomplete week should be proportional to the duration of that week.</p>

ADDITIONAL AWARD CRITERIA

Project proposals applying for the special mobility strand will have to demonstrate which is the added value and/or innovative character of the course(s) proposed by the mobile teachers and/or to the mobile students. The relevance of the staff mobility contribution to the receiving higher education and to the sending higher education institutions should be clearly explained. Both sending and receiving higher education institutions must comply with the Erasmus Charter for Higher Education provisions and agree on arrangements for optimal organisation of the mobility activities.

The Special Mobility Actions will be evaluated and scored as a separate component of the Capacity-building projects. They will be assessed against the following criteria:

¹⁰⁴ Minimum duration of a study period is 3 months, or 1 academic term or trimester.

¹⁰⁵ Prior experience under LLP-Erasmus Programme and the Erasmus Mundus Programme counts towards the 12 months per study cycle.

¹⁰⁶ In one-cycle study programmes, such as Medicine, students can be mobile for up to 24 months.

<p>Quality of the design and implementation of the Special Mobility Action</p> <p>(maximum 10 points)</p>	<ul style="list-style-type: none"> ▪ The mobility component fully contributes to the achievements of the project objectives and is well articulated with them in particular in terms of subject areas / topics addressed by the project. Course(s) to be taught by mobile teachers and/or to the mobile students demonstrate(s) an added value to the project; ▪ The proposal includes transparent criteria and an effective procedure for the identification and selection of participants for mobility; ▪ Quality measures are put in place both at the sending and the receiving organisation to monitor the mobility activity, and take appropriate measures if the results are not reached as initially envisaged. Quality services are offered to the students in their host institution (induction session, local language/culture courses, tutoring and mentoring, support for accommodation, etc.); ▪ The project demonstrates that mobility actions have a positive impact not only on individuals benefitting from them, but also on the eligible Partner Country institutions and explains how the successful mobility experiences will be recognised and valued at institutional level. Relevance of the contribution of the staff mobility to the host higher education institutions for the targeted students and to the home higher education institutions (dissemination of the experience/competences gained within and beyond the higher education area) is clearly proved; ▪ The proposal describes the strategy for efficient validation and/or recognition of the participants' learning outcomes and mobility periods, such as the definition of joint recognition and performance evaluation mechanisms (including the elaboration of grades conversion grids); usage of the transferable credits and Diploma Supplement.
---	--

Mobility Strands components that score five points or less will not be considered for funding.

At application stage, the applicants for a Special mobility strand for higher education students and staff will have to provide the following information:

- number of students and staff that are supposed to take part in mobility activities during the life-time of the project;
- average duration per participant of the planned mobility activities;
- receiving and sending institutions

On this basis and depending on the results of the evaluation process, the Executive Agency may award a grant to support a certain number of mobility activities, up to the maximum number requested by the applicant. In any circumstance, this grant will not exceed 80% of the grant awarded for the Joint or Structural project (excluding the mobility strand).

WHAT ELSE SHOULD YOU KNOW ABOUT A CAPACITY-BUILDING PROJECT?

REGIONAL COOPERATION

Regional (countries within a same region) and cross-regional cooperation (cooperation between different regions of the world) should be relevant and justified by a detailed analysis of common needs and objectives. The choice of the countries must be adequate and coherent with the objectives proposed, in particular in cases where countries from different regions are concerned. Cross-regional cooperation is possible in multi-country projects provided that the theme of the proposal is listed as a regional priority or national priority (if relevant) for all the eligible Partner Countries concerned.

IMPACT AND DISSEMINATION

Capacity-building projects are expected to have a long-term structural impact on the systems, organisations/institutions and individuals in the eligible Partner Countries. Projects will have to demonstrate their innovative character, the impact and sustainability of their results and how they intend to maintain or develop the outcomes after the end of the project. Where applicable, projects should demonstrate that they build upon the results of previous EU-funded projects, such as those under the former Alfa, Edulink, Erasmus Mundus and Tempus programmes. Every proposal has to demonstrate how the project results would be disseminated in the relevant target groups. Proposals for Structural Projects which mainly aim to impact at institutional level without demonstrating that the project will have a nation-wide impact, will not be selected.

WHAT ARE THE FUNDING RULES FOR (JOINT AND STRUCTURAL) CAPACITY-BUILDING PROJECTS?

The financial support to Erasmus+ Capacity-building projects is based on an estimated budget combining contribution to unit costs and real costs.

Capacity-building projects in the field of higher education incur a large variety of costs, including staff costs, travel costs and costs of stay, equipment costs, sub-contracting costs, costs for dissemination of information, publishing, translation, overheads costs, etc.

The word "grant" refers to the amount of financing that may be requested from the programme, representing the European Union financial contribution to the project, and should not be mistaken with the total costs of a project which also includes co-funding from the partner institutions and external stakeholders.

The EU grant to the projects has to be considered as a contribution to cover part of the actual costs incurred by the partner institutions in carrying out the activities foreseen in the application/project. Participation in a Capacity-building project necessarily requires co-funding from the beneficiary institutions. Co-funding has therefore to be estimated by the project partners at the beginning, when the application is being prepared.

The principle of co-funding has been taken into account in the definition of the funding approach and in particular in defining the level of the contribution to unit costs used to calculate the budget/grant of the project. As a result, the applicants and beneficiaries will need to indicate the details of the co-funding made available for information and transparency purposes. Proof of expenditure or supporting documents will not be required.

Although the implementation of the project may require other types of expenditure (such as costs for dissemination, publishing, translation if these are not sub-contracted, overhead costs), this expenditure will not be taken into account to calculate the grant proposed. As a result, they will have to be covered by co-funding.

Financial reporting for budget items based on contribution to unit costs (contribution to staff costs, travel costs and costs of stay) will be based on the principle of the "triggering event". Beneficiaries will have to prove that the activities have actually been and properly implemented and the output produced, but will not have to report on the use of the funds. As a consequence, beneficiaries will have flexibility in the way they manage the funds awarded to cover the expenses necessary for the implementation of the project, once the requirements, in terms of activities and achievements are attained.

Financial reporting for budget items based on real costs (equipment and sub-contracting) will be based on the expenses actually incurred which will need to be duly documented (see below).

The grant proposed will never exceed the grant amount requested and will depend on:

- the grant amount requested by the applicant, the eligibility of the activities and the cost-efficiency of the project;
- the total budget available for Capacity-building projects.

The detailed financial implementation modalities of the project must be agreed upon by the partners and formalised in a partnership agreement to be signed at the beginning of the project.

The budget of the project must be drafted according to the following funding rules (in euro):

Minimum EU grant for Joint and Structural projects: 500 000 EUR
Maximum EU grant for Joint and Structural projects: 1 000 000 EUR

Eligible costs		Financing mechanism	Amount/ Maximum ceiling	Rule of allocation	
Staff costs	Contribution to the costs of staff performing tasks which are directly necessary to the achievements of the project's objectives	Contribution to unit costs	B4.1 per manager involved per day of work on the project	Max. 40% of the total grant	Conditional: applicants will have to justify the type and volume of resources needed in relation to the implementation of the proposed activities and outputs. The contribution is provided on condition that the salary for the same tasks is compensated only once.
			B4.2 per researcher/ teacher/trainer involved per day of work on the project		
			B4.3 per technician involved per day of work on the project		
			B4.4 per administrative staff involved per day of work on the project		
Travel costs	Contribution to the travel costs of students and staff involved in the project, from their place of origin to the venue of the activity and return (including visa fee and related obligatory insurance, travel insurance and cancellation costs if justified). Activities and related travels must be carried out in the countries involved in the project. Any exception to this rule must be authorised by the Agency. For the detailed list of eligible activities, see Annex I of this Guide.	Contribution to unit costs	For travel distances between 100 and 499 KM: 180 EUR per participant	Based on the travel distance per participant. Travel distances must be calculated using the distance calculator supported by the European Commission ¹⁰⁷ . The applicant must indicate the distance of a one-way travel to calculate the amount of the EU grant that will support the round trip ¹⁰⁸ . Financial support will be provided only for travels that are directly related to the achievement of the objectives of the project.	
			For travel distances between 500 and 1999 KM: 275 EUR per participant		
			For travel distances between 2000 and 2999 KM: 360 EUR per participant		
			For travel distances between 3000 and 3999 KM: 530 EUR per participant		
			For travel distances between 4000 and 7999 KM: 820 EUR per participant		
			For travel distances of 8000 KM or more: 1100 EUR per participant		

¹⁰⁷ Distance calculator: http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm

¹⁰⁸ For example, if a person from Madrid (Spain) is taking part in an activity taking place in Rome (Italy), the applicant will a) calculate the distance from Madrid to Rome (1365,28 KM); b) select the applicable travel distance band (i.e. between 500 and 1999 KM) and c) calculate the EU grant that will provide a contribution to the costs of travel of the participant from Madrid to Rome and return (275 EUR).

Costs of stay	Costs for subsistence, accommodation, local and public transport such as bus and taxi, personal or optional health insurance.	Contribution to unit costs	Staff	up to the 14th day of activity:120 EUR per day per participant + between the 15 th and 60 th day of activity: 70 EUR per day per participant + between the 61 th day of activity and up to 3 months: 50 EUR per day per participant	Based on the duration of the stay of the participants.
			Students	up to the 14th day of activity:55 EUR per day per participant + between the 15 th and 90 th day of activity: 40 EUR per day per participant	
Equipment	Contribution for the purchase of equipment necessary for the implementation of the project. Support is provided only for equipment purchased for the benefit of the HEIs in the Partner Countries	Real costs	100% of eligible costs Max. 30% of the total grant		Conditional: the request for financial support to cover these costs must be motivated in the application form
Sub-contracting	Support for sub-contracting costs that are necessary to the implementation of the project, including, in particular, costs for the compulsory financial audits (audit certificate) and for any external quality assurance procedure. Sub-contracting for project-management-related tasks is not eligible.	Real costs	100% of eligible costs Max. 10% of the total grant		Sub-contracting to external bodies should be very occasional. The specific competences and particular expertise needed to reach the project objectives should be found in the consortium and should determine its composition.

TABLE A – STAFF COSTS (AMOUNTS IN EURO PER DAY) PROGRAMME COUNTRIES

The category of staff to be applied will depend on the work to be performed in the project and not on the basis of the status or title of the individual. In other words, staff costs related, for example, to an administrative task that has been carried out by an academic should be charged under the category "Administrative staff". Actual remuneration modalities of staff involved in the project will be defined jointly by the organisations involved in the project, endorsed by the managers responsible for their employment and will be part of the partnership agreement to be signed among the partners at the beginning of the project.

The unit-cost which will be applicable to calculate the grant will be the one of the country in which the staff member is employed, independently of where the tasks will be carried out (i.e. a staff member of an organisation of Country A working (partly) in Country B will be considered for the unit-costs under Country A).

CAPACITY BUILDING IN THE FIELD OF YOUTH

WHAT ARE THE AIMS OF A CAPACITY-BUILDING PROJECT?

Youth Capacity-building projects aim to:

- foster cooperation and exchanges in the field of youth between Programme Countries and Partner Countries from different regions¹¹⁹ of the world;
- improve the quality and recognition of youth work, non-formal learning and volunteering in Partner Countries and enhance their synergies and complementarities with other education systems, the labour market and society;
- foster the development, testing and launching of schemes and programmes of non-formal learning mobility at regional level (i.e. within and across regions of the world);
- promote transnational non-formal learning mobility between Programme and Partner Countries, especially targeting young people with fewer opportunities, with a view to improving participants' level of competences and fostering their active participation in society.

WHAT IS A CAPACITY-BUILDING PROJECT?

Capacity-building projects are transnational cooperation projects based on multilateral partnerships between organisations active in the field of youth in Programme and Partner Countries. They can also involve organisations from the fields of education and training, as well as from other socio-economic sectors.

Based on the geographical coverage, we distinguish two types of Capacity-building projects:

- Capacity-building projects between organisations active in the field of youth in Programme Countries and in the Partner Countries from Regions 5-13, see section "Eligible Countries" in Part A of this Guide:

These projects, submitted by organisations from Programme Countries, aim at increasing the capacity of organisations through the implementation of capacity-building activities and may include mobility activities, in so far as they bring added value to the realisation of the project's objectives.

- Capacity-building projects between organisations active in the field of youth in Programme Countries and in the Partner Countries from Region 1 (Western Balkans Youth Window projects), see section "Eligible Countries" in Part A of this Guide:

These projects, submitted by organisations from Western Balkans countries, aim at increasing the capacity of organisations through the implementation of mobility activities, possibly complemented by capacity-building activities.

They are funded with additional EU funds allocated to the Erasmus+ Programme to increase cooperation with organisations from Western Balkans and referred to as Western Balkans Youth Window projects¹²⁰.

WHAT ARE THE ACTIVITIES SUPPORTED BY A CAPACITY-BUILDING PROJECT?

Capacity-building projects should carry out activities that:

- promote strategic cooperation between youth organisations on the one hand and public authorities in Partner Countries on the other hand;
- promote the cooperation between youth organisations and organisations in the education and training fields as well as with representatives of business and labour market;
- raise the capacities of youth councils, youth platforms and local, regional and national authorities dealing with youth in Partner Countries;
- enhance the management, governance, innovation capacity and internationalisation of youth organisations in Partner Countries;
- launch, test and implement youth work practices, such as:
- tools and methods for the socio-professional development of youth workers and trainers;

¹¹⁹ In the framework of this Action, a region is defined as a grouping of countries belonging to a certain macro-geographic area.

¹²⁰ Mobility activities implemented in cooperation with Western Balkan countries but having been submitted by a partner organisation in a Programme Country can also be supported through Key Action 1: Mobility project for young people and youth workers. Western Balkan countries are also eligible as partners under Key Action 3 Meetings between young people and decision makers in the field of youth.

- non-formal learning methods, especially those promoting the acquisition/improvement of competences, including media literacy skills;
- new forms of practical training schemes and simulation of real life cases in society; new forms of youth work, notably strategic use of open and flexible learning, virtual mobility, open educational resources (OER) and better exploitation of the ICT potential;
- cooperation, networking and peer-learning activities fostering efficient management, internationalisation and leadership of youth work organisations.

The following activities can be implemented within a Capacity-building project:

Capacity-building activities

- activities encouraging policy dialogue, cooperation, networking and exchanges of practices in the field of youth, such as conferences, workshops and meetings;
- large-scale youth events;
- information and awareness campaigns;
- development of information, communication and media tools;
- development of youth work methods, tools and materials, as well as youth work curricula, training modules and documentation instruments such as Youthpass;
- creation of new forms of delivering youth work and providing training and support, notably through open and flexible learning materials, virtual cooperation and open educational resources (OER).

Mobility activities

- Youth Exchanges¹²¹ between Programme and eligible Partner Countries;
- European Voluntary Service¹²² from/to eligible Partner Countries;
- Mobility of youth workers¹²³ between Programme and eligible Partner Countries.

WHAT IS THE ROLE OF THE ORGANISATIONS INVOLVED IN A CAPACITY-BUILDING PROJECT?

A Capacity-building project is composed of:

- Applicant/coordinator: organisation that submits the project proposal on behalf of all the partners. If the project is granted, the applicant/coordinator: 1) bears the financial and legal responsibility for the entire project towards the Executive Agency; 2) coordinates the project in cooperation with all other partners involved in the project; 3) receives the EU financial support from the Erasmus+ Programme and is responsible for distributing the funds among partners involved in the project.
- Partners: organisations that contribute actively to the preparation, implementation and evaluation of the Capacity-building project.

If the project foresees the implementation of Youth Exchanges, European Voluntary Service and/or mobility of youth workers, the participating organisations involved in these activities assume the following roles and tasks:

- Sending organisation: in charge of sending young people abroad (this includes: organising practical arrangements; preparing participants before departure; providing support to participants during all the phases of the project).
- Receiving organisation: in charge of hosting the activity, developing a programme of activities for participants in cooperation with participants and partner organisations, providing support to participants during all the phases of the project.

Furthermore, the participation in a European Voluntary Service activity must be free of charge for volunteers, with the exception of a possible contribution for travel costs (if the Erasmus+ grant does not fully cover these costs) and superfluous expenses not linked to the implementation of the activity. The essential costs for volunteers' participation in the EVS activity are covered by the Erasmus+ grant or through other means afforded by the participating organisations.

¹²¹ For a detailed description of this activity, see the section "Key Action 1: mobility project for young people and youth workers" in Part B of this Guide.

¹²² As above.

¹²³ As above.

STRUCTURED DIALOGUE: MEETINGS BETWEEN YOUNG PEOPLE AND DECISION-MAKERS IN THE FIELD OF YOUTH

WHAT IS THE AIM OF STRUCTURED DIALOGUE MEETINGS?

This Action promotes the active participation of young people in democratic life and fosters debate around topics centred on the themes and priorities set by the Structured Dialogue and the renewed political framework in the youth field. Structured Dialogue is the name used for discussions between young people and youth policy-makers in order to obtain results which are useful for policy-making. The debate is structured around priorities and timing and foresees events where young people discuss the agreed themes among themselves and with policy-makers, youth experts and representatives of public authorities in charge of youth. More information about Structured Dialogue is available on the European Commission's website.

In addition, in line with the annual Work Programme adopted by the Commission, priority will be given to projects that pursue one or more of the relevant priorities described in the introduction chapters on "Youth" in Part B of this Guide.

WHAT ARE STRUCTURED DIALOGUE MEETINGS?

Structured Dialogue projects can take the form of meetings, conferences, consultations and events. These events promote the active participation of young people in democratic life in Europe and their interaction with decision-makers. As a concrete result of these events, young people are able to make their voice heard (through the formulation of positions, proposals and recommendations) on how youth policies should be shaped and implemented in Europe.

A Structured Dialogue project has three phases:

- planning and preparation;
- implementation of the activities;
- evaluation (including reflection on a possible follow-up).

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Under this Action, a project can comprise one or more of the following activities:

- national meetings and transnational/international seminars that offer space for information, debate and active participation of young people – in dialogue with youth decision-makers - on issues which are relevant to Structured Dialogue or to the EU Youth Strategy;
- national meetings and transnational seminars that prepare the ground for the official Youth Conferences organised during each semester by the Member State holding the turn of Presidency of the European Union;
- events that promote debates and information on youth policy themes linked to the activities organised during the European Youth Week;
- consultations of young people, with a view to find out their needs on matters relating to participation in democratic life (online consultations, opinion polls, etc.);
- meetings and seminars, information events or debates between young people and decision-makers/youth experts around the theme of participation in democratic life;
- events simulating the functioning of the democratic institutions and the roles of decision-makers within these institutions.

The activities are led by young people; the young participants must be actively involved in all the stages of the project, from preparation to follow-up. Non-formal learning principles and practices are reflected throughout the implementation project.

The following activities are not eligible for grants under Structure Dialogue: statutory meetings of organisations or networks of organisations; politically influenced events.

WHAT ELSE YOU SHOULD KNOW ABOUT THIS ACTION?

PARTICIPANTS FROM OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES

In line with the Regulation establishing the Erasmus+ Programme, which calls on taking into account the constraints imposed by the remoteness of the outermost regions and the Overseas Countries and Territories (OCTs) of the Union when implementing the Programme, special funding rules are set in order to support expensive travel costs of participants from outermost regions and OCTs insufficiently covered by the the standard funding rules (based on contribution to unit costs per travel distance band).

Applicants of mobility projects will be allowed to claim financial support for travel costs of participants from outermost regions and OCTs under the budget heading "exceptional costs" (up to a maximum of 80% of total eligible costs: see "What are the funding rules?"). This would be allowed provided that applicants can justify that the standard funding rules (based on contribution to unit costs per travel distance band) do not cover at least 70% of the travel costs of participants.

WHAT ARE THE FUNDING RULES?

The budget of the project must be drafted according to the following funding rules (in euro):

Maximum grant awarded per project for a Structured Dialogue meeting: 50 000 euro

Eligible costs		Financing mechanism	Amount	Rule of allocation
Travel	Contribution to the travel costs of participants, including accompanying persons, from their place of origin to the venue of the activity and return	Contribution to unit costs	For travel distances between 10 and 99KM: 20 EUR per participant	Based on the travel distance per participant. Travel distances must be calculated using the distance calculator supported by the European Commission ¹³⁶ . The applicant must indicate the distance of a one-way travel to calculate the amount of the EU grant that will support the round trip ¹³⁷
			For travel distances between 100 and 499 KM: 80 EUR per participant	
			For travel distances between 500 and 1999 KM: 170 EUR per participant	
			For travel distances between 2000 and 2999 KM: 270 EUR per participant	
			For travel distances between 3000 and 3999 KM: 400 EUR per participant	
			For travel distances between 4000 and 7999 KM: 620 EUR per participant	
			For travel distances of 8000 KM or more: 830 EUR per participant	
Organisational support	Grant contribution to all other costs directly linked to the preparation, implementation and follow-up of the activity	Contribution to unit costs	C1.1 per day of activity per participant ¹³⁸	Based on the duration of the stay per participant (if necessary, including also one travel day before the activity and one travel day following the activity).

¹³⁶ http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm

¹³⁷ For example, if a person from Madrid (Spain) is taking part in an activity taking place in Rome (Italy), the applicant will a) calculate the distance from Madrid to Rome (1365,28 KM); b) select the applicable travel distance band (i.e. between 500 and 1999 KM) and c) calculate the EU grant that will provide a contribution to the costs of travel of the participant from Madrid to Rome and return.

JEAN MONNET ACTIVITIES

WHICH ACTIONS ARE SUPPORTED?

Jean Monnet Activities support the following Actions:

- Jean Monnet Modules (teaching and research);
- Jean Monnet Chairs (teaching and research);
- Jean Monnet Centres of Excellence (teaching and research);
- Jean Monnet Support to Associations;
- Jean Monnet Networks (policy debate with the academic world);
- Jean Monnet Projects (policy debate with the academic world).

The following sections of this Guide provide detailed information on the criteria and funding rules applying to the Jean Monnet Actions.

WHAT ARE THE AIMS OF JEAN MONNET?

The Jean Monnet Actions aim at promoting excellence in teaching and research in the field of European Union studies worldwide. These Actions also aim at fostering the dialogue between the academic world and policy-makers, in particular with the aim of enhancing governance of EU policies.

European Union studies comprise the study of Europe in its entirety with particular emphasis on the European integration process in both its internal and external aspects. The discipline also covers the role of the EU in a globalised world and in promoting an active European citizenship and dialogue between people and cultures.

The core subject areas are the following:

- EU and Comparative Regionalism Studies;
- EU Communication and Information Studies;
- EU Economic Studies;
- EU Historical Studies;
- EU Intercultural Dialogue Studies;
- EU Interdisciplinary Studies;
- EU International Relations and Diplomacy Studies;
- EU Legal Studies;
- EU Political and Administrative Studies.

However, different subject areas (such as sociology, philosophy, religion, geography, literature, art, sciences, environmental studies, global studies, etc.) may also be associated with this field of study when they include an element of teaching, research or reflection on the EU and contribute, in general, to the Europeanization of the curricula.

Comparative studies will only be considered where they relate to the different integration processes throughout the world.

In relation to the general objectives of the Erasmus+ Programme, Jean Monnet aims to:

- promote excellence in teaching and research in EU studies;
- equip students and young professionals with knowledge of European Union subjects relevant for their academic and professional lives and enhance their civic skills;
- foster the dialogue between the academic world and policy-makers, in particular to enhance governance of EU policies;
- promote innovation in teaching and research (e.g. cross-sectoral and/or multi-disciplinary studies, open education, networking with other institutions);
- mainstream and diversify EU-related subjects throughout the curricula proposed by higher education institutions to their students;
- improve the quality of professional training on EU subjects (with modules that deal with EU subjects more in-depth or extend to new subjects);
- foster the engagement of young academics in teaching and research on European subjects.

Jean Monnet is expected to bring positive and long-lasting effects to the participants involved, to the promoting organisations, as well as to the policy systems within which they are framed.

As regards the participants directly or indirectly involved in the Actions, Jean Monnet aims to produce the following outcomes:

- enhanced employability and improved career prospects for young graduates, by including or reinforcing a European dimension in their studies;
- increased interest in understanding and participating in the European Union, leading to a more active citizenship;
- support for young researchers (i.e. who have obtained a PhD degree in the last five years) and professors who want to carry out research and teaching on EU subjects;
- increased opportunities for academic staff in terms of professional and career development.

Activities supported under Jean Monnet are also expected to produce the following outcomes on participating organisations:

- increased capacity to teach and research on EU matters: improved or innovative curricula; increased capacity to attract excellent students; reinforced cooperation with partners from other countries; increased allocation of financial resources to teaching and research on EU subjects within the institution;
- more modern, dynamic, committed and professional environment inside the organisation: promoting the professional development of young researchers and professors; ready to integrate good practices and new EU subjects into didactic programmes and initiatives; open to synergies with other organisations.

Jean Monnet is expected in the long run to encourage the promotion and diversification of EU studies worldwide as well as to enhance and extend the participation of staff from more faculties and departments in European Union teaching and research.

JEAN MONNET MODULES

WHAT IS A JEAN MONNET MODULE?

A Jean Monnet Module is a short teaching programme (or course) in the field of European Union studies at a higher education institution. Each Module has a minimum duration of 40 teaching hours per academic year. Teaching hours are taken to include direct contact hours in the context of group lectures, seminars, tutorials and may include any of the aforementioned in a distance learning format but do not include individual instruction. Modules may concentrate on one particular discipline in European studies or be multidisciplinary in approach and therefore call upon the academic input of several professors and experts.

Erasmus+ supports Jean Monnet Modules with the aim to:

- promote research and first teaching experience for young researchers and scholars and practitioners in European Union issues;
- foster the publication and dissemination of the results of academic research;
- create interest in the EU and constitute the basis for future poles of European knowledge, particularly in Partner Countries;
- foster the introduction of a European Union angle into mainly non EU related studies;
- deliver tailor-made courses on specific EU issues relevant for graduates in their professional life.

The Jean Monnet Module anchors and mainstreams teaching on EU matters in curricula which so far have included EU-related content only to a limited extent. They also bring facts and knowledge on the European Union to a broad spectrum of learners and interested citizens.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Jean Monnet Modules must take one of the following forms:

- general or introductory courses on European Union issues (in particular at institutions and faculties that do not yet have a highly developed course offering in the field);
- specialised teaching on European Union developments (in particular at institutions and faculties that do already have a highly developed course offering in the field);
- summer and intensive courses that are fully recognised.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A JEAN MONNET MODULE?

Higher education institutions have the role of supporting and promoting the Module coordinators by ensuring that the largest possible public benefits from their activities both inside and outside the institution.

Higher education institutions support Module coordinators in their teaching, research and reflection activities: they recognise the teaching activities developed; they monitor the activities, give visibility and valorise the results obtained by their staff involved in Jean Monnet.

Higher education institutions are required to maintain the activities of a Jean Monnet Module during the entire duration of the project, including replacing the academic coordinator if the need arises. If the institution is obliged to replace Module coordinators, a written request for approval has to be sent to the Executive Agency. Moreover, the new proposed coordinator must have the same level of specialisation in European Union studies.

WHAT ARE THE CRITERIA USED TO ASSESS A JEAN MONNET MODULE?

Here below are listed the formal criteria that a Jean Monnet Module must respect in order to be eligible for an Erasmus+ grant:

WHAT ELSE SHOULD YOU KNOW ABOUT A JEAN MONNET MODULE?

BUDGET ALLOCATION

Up to 20% of the budget allocated to support Modules will be granted to Jean Monnet Modules for which the coordinators are researchers who have obtained a PhD degree in the last five years. This measure will support young researchers starting their academic careers.

DISSEMINATION AND IMPACT

Jean Monnet Modules are required to disseminate and exploit the results of the organised teaching and research activities beyond the scope of the stakeholders directly involved. This will considerably increase the impact and contribute to a systemic change.

To increase their impact they should include in their dissemination activities the creation and offer of open educational resources (OER) and involve open education activities to respond to technological progress. This will foster more flexible and creative ways of learning and reach out to an increasing number of students, professionals, policy makers and other interested groups.

All coordinators of Jean Monnet Modules will be asked to update their respective section of the Erasmus+ specific online tool where all the information about the Jean Monnet Activities will be hosted. They will be encouraged strongly to use the relevant existing platforms and tools (i.e. the Jean Monnet directory, the Jean Monnet virtual community). These sections, which are part of the general IT tool for Erasmus+, will keep the wider public informed about the institutions and their Jean Monnet courses. Grant holders will be asked to regularly update the tool with the results of their work.

Coordinators of Jean Monnet Modules are encouraged to:

- publish at least one peer reviewed article during the grant period. The grant will cover part of the publication and, if need be, of the translation costs;
- participate in dissemination and information events at national and European level;
- organise events (lectures, seminars, workshops, etc.) with policy makers at local, regional and national level as well as with organised civil society and schools;
- disseminate the results of their activities via the organisation of seminars or lectures geared and adapted to the general public and civil society representatives;
- network with other coordinators of Modules, Centres of Excellence, Jean Monnet Chairs and supported Institutions;
- apply open educational resources (OER), publish the summaries, content and schedule of their activities as well as the expected outcomes.

WHAT ARE THE FUNDING RULES?

The maximum grant that can be awarded is 30 000 EUR that can represent the maximum of 75% of the total cost of the Jean Monnet Module.

A system based on a combination of scales of unit costs and flat-rate financing for the awarding of grants under the Jean Monnet Activities applies. This system is determined on the basis of a calculated national teaching cost per hour. The following method is used:

- **Teaching scale of unit costs** : the calculated national unit cost per hour D.1 is multiplied by the number of teaching hours ;
- **Additional flat-rate financing**: a 'top-up' percentage of 40% for a Jean Monnet Module is added to the above mentioned unit costs basis.

The final grant is then obtained by applying the maximum 75% EU funding of total calculated grant and by respecting the maximum grant ceiling for a Jean Monnet Module (30 000 EUR).

The specific amounts applying to Jean Monnet Modules can be found in the section "Jean Monnet unit costs" at the end of the Jean Monnet chapter in this Part of the Guide.

JEAN MONNET CHAIRS

WHAT IS A JEAN MONNET CHAIR?

A Jean Monnet Chair is a teaching post with a specialisation in European Union studies for university professors for a duration of three years. A Jean Monnet Chair must be held by only one professor, who must provide the minimum of 90 teaching hours per academic year. Teaching hours are taken to include direct contact hours in the context of group lectures, seminars, tutorials and may include any of the aforementioned in a distance learning format but do not include individual instruction and/or supervision.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Main activities (minimum of 90 hours per academic year):

- deepen teaching in European Union studies embodied in an official curriculum of a higher education institution;
- provide in-depth teaching on European Union matters for future professionals in fields which are in increasing demand on the labour market;

Additional activities:

- provide teaching/lectures to students from other departments (e.g. architecture, medicine, etc) to better prepare them for their future professional life.
- encourage, advise and mentor the young generation of teachers and researchers in European Union studies subject areas;
- conduct, monitor and supervise research on EU subjects, for other educational levels such as teacher training and compulsory education;
- organise activities (conferences, seminars/webinars, workshops, etc.) targeting to policy makers at local, regional and national level as well as to civil society.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A JEAN MONNET CHAIR?

Jean Monnet Chairs are an integral part of the higher education institution that concludes the grant agreement/decision.

Jean Monnet Chairs are inscribed in their institution's official academic activities. The higher education institutions are requested to support Jean Monnet Chair holders in their teaching, research and reflection activities, allowing the widest possible range of curricula to benefit from the courses; they should recognise the teaching activities developed.

Higher education institutions have the final responsibility for their applications. They are obliged to maintain the activities of a Jean Monnet Chair during the entire duration of the project. If the institution is obliged to replace Chair holder, a written request for approval has to be sent to the Executive Agency. Moreover the new proposed chair holder must have the same level of specialisation in European Union studies.

Jean Monnet Chairs will be asked to update their respective section of the Erasmus+ specific online tool where all the information about the Jean Monnet Activities will be hosted. They will be strongly encouraged to use the relevant existing platforms and tools (i.e. the Jean Monnet directory, the Jean Monnet virtual community). These functions, as part of the general IT tool for Erasmus+, will ensure that the wider public is informed about the institutions and their Jean Monnet courses. Grant holders will be asked to regularly update the tool with the results of their work.

Jean Monnet Chairs are encouraged to:

- publish at least one book within the University Press during the grant period. The grant will cover part of the publication and, if need be, part of the translation costs;
- participate in dissemination and information events at national and European level;

WHAT ARE THE FUNDING RULES?

The maximum grant that can be awarded is 50 000 EUR that can represent the maximum of 75% of the total cost of the Jean Monnet Chair.

A system based on a combination of scales of unit costs and flat-rate financing for the awarding of grants under the Jean Monnet Activities applies. This system is determined on the basis of a calculated national teaching cost per hour. The following method is used:

- **Teaching scale of unit cost:** the calculated national teaching unit cost per hour D.1 is multiplied by the teaching number of hours of the Jean Monnet Chair;

- **Additional flat-rate financing:** a 'top-up' percentage of 10% for a Jean Monnet Chair is added to the above mentioned unit costs basis. This top-up percentage takes account of the additional academic activities included in a Chair such as staff costs, travel and subsistence costs, dissemination costs, costs for teaching materials and indirect costs, etc..

The final grant is then obtained by applying the maximum 75% EU funding of total calculated amount and by respecting the maximum grant ceiling for a Jean Monnet Chair (50 000 EUR).

The specific amounts applying to Jean Monnet Chairs can be found in the section "Jean Monnet unit costs" at the end of the Jean Monnet chapter in this Part of the Guide

JEAN MONNET CENTRES OF EXCELLENCE

WHAT IS A JEAN MONNET CENTRE OF EXCELLENCE?

A Jean Monnet Centre of Excellence is a focal point of competence and knowledge on European Union subjects.

A Jean Monnet Centre of Excellence gathers the expertise and competences of high-level experts and aims at developing synergies between the various disciplines and resources in European studies, as well as at creating joint transnational activities and structural links with academic institutions in other countries. It also ensures openness to civil society.

Jean Monnet Centres of Excellence have a major role in reaching out to students from faculties not normally dealing with European Union issues as well as to policy makers, civil servants, organised civil society and the general public at large.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

A Jean Monnet Centre of Excellence must develop a strategic three-year annual plan including a wide range of activities, such as:

- organising and coordinating human and documentary resources related to European Union studies;
- leading research activities in specific European Union subjects (research function);
- developing content and tools on EU subjects to update and complement the current courses and curricula (teaching function);
- enhancing the debate and exchange of experiences about the EU, where possible in partnership with local stakeholders and/or EU Representations Offices in Member States and EU Delegations in third countries (think-tank function);
- systematic publication of the results of research activities.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A JEAN MONNET CENTRE OF EXCELLENCE?

Higher education institutions planning to establish a Jean Monnet Centre of Excellence are expected to reflect on its strategic development. They should provide guidance and a vision for the best experts available among the teaching and research staff for creating synergies allowing high-level collaborative work on specific EU subjects. They should support and promote the initiatives of the Centre and assist their development.

Higher education institutions are obliged to maintain the activities of a Jean Monnet Centre of Excellence during the entire duration of the project including replacing the academic coordinator if the need arises. If the institution is obliged to replace the original academic coordinator, a written request for approval has to be sent to the Executive Agency.

A Centre of Excellence may involve the co-operation of several institutions/organisations established in the same city or region. In any case, it must be a clearly labelled institute or structure specialised in European Union studies and must be hosted by a higher education institution.

JEAN MONNET NETWORKS (POLICY DEBATE WITH THE ACADEMIC WORLD)

WHAT IS A JEAN MONNET NETWORK?

Jean Monnet Networks foster the creation and development of consortia of international players (HEIs, Centres of Excellence, departments, teams, individual experts, etc.) in the area of European Union studies.

They contribute to gathering information, exchanging practices, building knowledge and promoting the European integration process across the world. This Action can also support the enhancement of existing networks supporting specific activities, notably fostering the participation of young researchers in EU-related themes.

These projects will be based on unilateral proposals, focused on activities that cannot be achieved successfully at a national level and require the involvement of a minimum of three partner institutions (including the applicant institution) from three different countries. Their aim is to undertake projects that have a multinational rather than a national dimension.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Over the lifetime of a project, networks may typically realise a broad range of activities, such as for example:

- gathering and promoting information and results on methodologies applied to high-level research and teaching on EU studies;
- enhancing cooperation between different higher education institutions and other relevant bodies throughout Europe and around the world;
- exchanging knowledge and expertise with a view to mutually enhancing good practices;
- fostering cooperation and creating a high knowledge exchange platform with public actors and the European Commission services on highly relevant EU subjects.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A JEAN MONNET NETWORKS?

Jean Monnet Networks should become reference points in the European Union subject areas they cover. They will take the role of multipliers and disseminate knowledge; they will also contribute to collect and capitalize information as well as provide analysis and visions on specific subjects.

Higher education institutions coordinating Jean Monnet Networks have the final responsibility for their proposals. They are obliged to implement the activities described in their work programme during the entire duration of the grant.

The applicant must be the coordinator of the network that comprises a minimum of three participating institutions from three different countries. The designated European institutions (identified in the Regulation establishing the Erasmus+ Programme) pursuing an aim of European interest are not eligible to apply under this Action.
Duration of project	Three years.

WHAT ELSE SHOULD YOU KNOW ABOUT A JEAN MONNET SUPPORT TO NETWORKS?

DISSEMINATION AND IMPACT

Networks selected under this Action are required to disseminate and exploit the results of their activities beyond the participants directly involved. This will considerably increase the impact and contribute to a systemic change.

To increase their impact they should include in their dissemination activities the creation of tools and events adapted to their objectives.

All Jean Monnet Networks will be asked to update their respective section of the Erasmus+ specific online tool where all the information about the Jean Monnet Activities will be hosted. They will be strongly encouraged to use the relevant existing platforms and tools (i.e. the Jean Monnet directory, the Jean Monnet virtual community). These functions, as part of the general IT tool for Erasmus+ ensures that the wider public is informed about the Jean Monnet Network activities. Grant holders will be asked to regularly update the tool with the results of their work.

JEAN MONNET PROJECTS (POLICY DEBATE WITH THE ACADEMIC WORLD)

WHAT IS A JEAN MONNET PROJECT?

Jean Monnet Projects support innovation, cross-fertilisation and the spread of European Union content. These projects will be based on unilateral proposals - although the proposed activities may involve other partners - and may last between 12 and 24 months.

- **"Innovation"** projects will explore new angles and different methodologies in view of making European Union subjects more attractive and adapted to various kinds of target populations (e.g. projects on Learning EU @ School);
- **"Cross-fertilisation"** projects will promote discussion and reflection on European Union issues and enhance knowledge about the Union and its processes. These projects will aim at boosting EU knowledge in specific contexts;
- **"Spread content"** projects will mainly concern information and dissemination activities.

WHICH ACTIVITIES ARE SUPPORTED UNDER JEAN MONNET PROJECTS?

Over their lifetime, Jean Monnet Projects may typically realise a broad range of activities, such as for example:

<p>"Innovation"</p> <ul style="list-style-type: none"> ▪ develop and test newly designed methodologies, content and tools on specific European Union topics; ▪ create virtual classrooms on specific subject areas and testing them in different contexts; ▪ design, produce and implement self-training tools promoting active citizenship in the EU; ▪ develop and deliver appropriate pedagogical content and new/adapted didactic material for the teaching of European Union issues at the level of primary and secondary education (Learning EU @ School); ▪ design and implement of teacher training activities and continuing education for teachers, provide them with the appropriate knowledge and skills to teach European Union subjects; ▪ provide specifically designed activities on the European Union to pupils at the level of primary and secondary schools and in vocational education and training institutions; <p>"Cross-fertilisation"</p> <ul style="list-style-type: none"> ▪ support the creation of EU studies and/or boost the existing knowledge and/or enhance the dynamic of a "department/chair/research team" in a given country at a Higher Education Institution which has expressed a specific interest/need; ▪ joint develop content and co-teaching for students involving several institutions. Participating institutions may organise common activities and the preparation of tools supporting their courses; <p>"Spread content"</p> <ul style="list-style-type: none"> ▪ support information and dissemination activities for staff of the public administration, for experts in specific subjects and for civil society as a whole; ▪ organise conferences, seminars and/or roundtables in relevant European Union issues.

WHAT IS THE ROLE OF ORGANISATIONS PARTICIPATING IN A JEAN MONNET PROJECT?

The institution proposing the project is required to prepare a clear and sustainable strategy with a detailed work programme including information about the expected results. It should justify the need of the activities proposed, the direct and indirect beneficiaries, it should guarantee the active role of all the participating organisations.

Proposals are signed by the legal representative of the higher education institutions (or other eligible organisations) and provide information about the legal status, objectives and activities of the applicant institution.

Higher education institutions (or other eligible organisations) have the final responsibility for their proposals. They are obliged to implement the activities described in their projects during the entire duration of the project.

WHAT ELSE SHOULD YOU KNOW ABOUT A JEAN MONNET PROJECT?

DISSEMINATION AND IMPACT

Jean Monnet Projects are required to disseminate and exploit the results of the activities beyond the stakeholders directly involved. This will considerably increase the impact and contribute to a systemic change.

Jean Monnet Projects will be asked to update their respective section of the Erasmus+ specific online tool where all the information about the Jean Monnet Activities will be hosted. They will be strongly encouraged to use the relevant existing platforms and tools (i.e. the Jean Monnet directory, the Jean Monnet virtual community). These functions, as part of the general IT tool for Erasmus+, will ensure that the wider public is informed about the results. Grant holders will be asked to regularly update the tool with the results of their work.

Travel (non-local speakers)	Contribution to the travel costs of non-local speakers attending the conferences, based on the travel distance. Travel distances must be calculated using the distance calculator supported by the European Commission ¹³⁹ , indicating the distance of a one-way travel to calculate the amount of the EU grant that will support the round trip ¹⁴⁰	Unit costs	For travel distances between 100 and 499 KM: 180 EUR per participant
			For travel distances between 500 and 1999 KM: 275 EUR per participant
			For travel distances between 2000 and 2999 KM: 360 EUR per participant
			For travel distances between 3000 and 3999 KM: 530 EUR per participant

¹⁴⁰ For example, if a person from Madrid (Spain) is taking part in an activity taking place in Rome (Italy), the applicant will a) calculate the distance from Madrid to Rome (1365,28 KM); b) select the applicable travel distance band (i.e. between 500 and 1999 KM) and c) calculate the EU grant that will provide a contribution to the costs of travel of the non-local speaker from Madrid to Rome and return (275 EUR).

SPORT

WHICH ACTIONS ARE SUPPORTED?

The following Actions in the field of sport are implemented through this Programme Guide:

- Collaborative Partnerships;
- Small Collaborative Partnerships;
- Not-for-profit European sport events.

In 2016, the Commission will test the opportunity and relevance of selecting smaller projects in order to better promote grassroots sport ("Small Collaborative Partnerships").

In addition, Erasmus+ also supports Actions to strengthen the evidence base for policy making (studies, data gathering, surveys, etc.), to promote the dialogue with relevant European stakeholders (the EU Sport Forum, EU Presidency events, conferences, meetings, seminars, etc.). These Actions will be implemented by the European Commission either directly or through the Executive Agency.

The specific objectives pursued by the Erasmus+ Programme in the field of sport are to:

- tackle cross-border threats to the integrity of sport, such as doping, match fixing and violence, as well as all kinds of intolerance and discrimination;
- promote and support good governance in sport and dual careers of athletes;
- promote voluntary activities in sport, together with social inclusion, equal opportunities and awareness of the importance of health-enhancing physical activity, through increased participation in, and equal access to sport for all.

As provided by the Regulation establishing the Erasmus+ Programme, focus is to be given to grassroots sport.

The Actions in the field of sport are expected to result in the development of the European dimension in sport by generating, sharing and spreading experiences and knowledge about different issues affecting sport at the European level.

Ultimately, sport projects supported through Erasmus+ should lead to increased levels of participation in sport, physical activity and voluntary activity.

More specifically,

- Increased knowledge and awareness regarding sport and physical activity in Programme Countries;
- Increased awareness of as regards the role of sport in promoting social inclusion, equal opportunities and health-enhancing physical activity;
- Strengthened cooperation between institutions and organisations active in the field of sport and physical activity;
- Better participation of sport organisations and other relevant organisations from various Programme Countries in enhanced networks;
- Improved sharing of good practices.

The Actions in the field of sport are expected to contribute to the implementation of the European Week of Sport, which is an initiative launched by the Commission to promote sport and physical activity in the European Union, in the light of declining participation levels.

The European Week of Sport is intended to be organised with the following concept: an official opening, a flagship event, and 4 Focus Days, each day with a different focus theme: education, workplaces, outdoors, sport clubs and fitness centers. Among other activities, the European Week of Sport will encourage the organisation of cross-border awareness raising activities.

The second edition of the European Week of Sport will start on 10 September 2016. Apart from the activities organised by the European Commission, Member States will also organise National Weeks.

Further information as regards the 2016 European Week of Sport can be found on <http://ec.europa.eu/sport/>

COLLABORATIVE PARTNERSHIPS

WHAT ARE THE AIMS OF A COLLABORATIVE PARTNERSHIP?

Collaborative Partnerships offer the opportunity to develop, transfer and/or implement innovative practices in different areas relating to sport and physical activity between various organisations and actors in and outside sport, including in particular public authorities at local, regional, national and European levels, sport organisations, sport-related organisations and educational bodies. Collaborative Partnerships are, in particular, innovative projects aimed to:

- Encourage participation in sport and physical activity, especially by supporting the implementation of the European Week of Sport;
- Encourage participation in sport and physical activity, especially by supporting the implementation of the EU Physical Activity Guidelines;
- Promote the dual careers of athletes, especially by supporting the implementation of the EU Guidelines on Dual Careers of Athletes ;
- Combat doping, notably in recreational environments;
- Combat match-fixing, especially through the support to prevention, awareness-raising and cooperation among stakeholders;
- Promote voluntary activity in sport ;
- Support innovative and educational approaches to contain violence and tackle racism, discrimination and intolerance in sport;
- Improve good governance in sport;
- Encourage social inclusion and equal opportunities in sport, especially by supporting the implementation of EU strategies, notably the EU Gender Equality Strategy and the EU Disability Strategy.

Collaborative Partnerships should promote the creation and development of European networks in the field of sport. The EU can thereby provide opportunities for strengthened cooperation among stakeholders, which would not have existed without EU action. Collaborative Partnerships should also foster synergy with, and between, local, regional, national and international policies to promote sport and physical activity and to address sport-related challenges.

Within the framework of Collaborative Partnerships, Erasmus+ intends to support the testing and development of new project formats and new forms of transnational cooperation in the field of sport that are likely to inspire the development, on a larger scale of initiatives supported with national funding schemes or other European funds, such as the European Structural and Investment Funds.

The Commission, through its Executive Agency, will carry out two selection rounds over the year, as follows:

- first round of the year: Collaborative Partnerships that carry out initiatives and activities supporting the implementation of the 2016 European Week of Sport and which have a specific thematic link with it, focusing exclusively on one (or more) of the following theme: education, workplaces, outdoors, fitness centers and sport clubs;
- second round of the year: any type of Collaborative Partnership, not related to the 2016 European Week of Sport.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Erasmus+ offers a large flexibility in terms of activities that Collaborative Partnerships can implement, as long as a proposal demonstrates that these activities are the most appropriate to reach the objectives defined for the project. Collaborative Partnerships may typically cover a broad range of activities, such as for example:

- networking among stakeholders;
- development, identification, promotion and sharing of good practices;
- preparation, development and implementation of educational and training modules and tools;
- activities to increase the competences of multipliers in the field of sport and to develop monitoring and benchmarking of indicators, notably as regards the promotion of ethical behaviours and codes of conduct among sportspeople;
- awareness-raising activities on the added value of sport and physical activity in relation to the personal, social and professional development of individuals;
- activities to promote innovative synergies between the field of sport and the fields of health, education, training and youth;

- activities to improve the evidence-base of sport to tackle societal and economic challenges (collection of data underpinning the aforementioned activities, surveys, consultations, etc.);
- conferences, seminars, meetings, events and awareness-raising actions underpinning the aforementioned activities.

WHO CAN TAKE PART IN A COLLABORATIVE PARTNERSHIP?

Collaborative Partnerships are open to any type of public institutions or non-profit organisations active in the field of sport and physical activity. Depending on the objective of the project, Collaborative Partnerships should involve an appropriate and diverse range of partners in order to benefit from different experiences, profiles and expertise and to produce relevant and high quality project results.

Collaborative Partnerships target the cooperation between organisations established in Programme Countries.

A Collaborative Partnership should be composed of:

- applicant/coordinator: organisation that submits the project proposal on behalf of all the partners. When the project is granted, the applicant/coordinator will become the main EU grant beneficiary and will sign a multi-beneficiary grant agreement on behalf of all the participating organisations. Its coordinating role stands for the following duties:
 - represents and acts on behalf of the participating organisations vis-à-vis the European Commission,
 - bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the entire project,
 - coordinates the Collaborative Partnership in cooperation with all other project partners.
- partners: organisations that contribute actively to the preparation, implementation and evaluation of the Collaborative Partnership. Each partner must sign a mandate by which the signatory grants power of attorney to the coordinator to act in his name and for his account during the implementation of the project.

SMALL COLLABORATIVE PARTNERSHIPS

WHAT ARE THE AIMS OF A SMALL COLLABORATIVE PARTNERSHIP?

Small Collaborative Partnerships will offer the opportunity to conceive, implement and transfer innovative practices in different areas relating to sport and physical activity between various organisations and, including in particular public authorities at local, regional and national levels, sport organisations, sport-related organisations and educational bodies. Small Collaborative Partnerships will in particular aim at ensuring the continuity of Preparatory actions 2013 and are, in particular, innovative projects aimed to:

- Encourage social inclusion and equal opportunities in sport, especially by supporting the implementation of EU strategies, notably the EU Gender Equality Strategy and the EU Disability Strategy;
- Promote European traditional sports and games;
- Support the mobility of volunteers, coaches, managers and staff of non-profit sport organisations;
- Protect athletes, especially the youngest, from health and safety hazards by improving training and competition conditions.

Small Collaborative Partnerships should promote the creation and development of transnational networks in the field of sport. The EU can thereby provide opportunities for strengthened cooperation among stakeholders, which would not have existed without EU action. Small Collaborative Partnerships should also foster synergy with, and between, local, regional, national and international policies to promote sport and physical activity and to address sport-related challenges.

The Commission, through its Executive Agency, will carry one selection round over the year.

WHICH ACTIVITIES ARE SUPPORTED UNDER THIS ACTION?

Erasmus+ offers a large flexibility in terms of activities that Small Collaborative Partnerships can implement, as long as a proposal demonstrates that these activities are the most appropriate to reach the objectives defined for the project. Small Collaborative Partnerships may typically cover a broad range of activities, such as for example:

- networking among stakeholders;
- promotion, identification and sharing of good practices;
- preparation, development and implementation of educational and training modules and tools;
- awareness-raising activities on the added value of sport and physical activity in relation to the personal, social and professional development of individuals;
- activities to promote innovative synergies between the field of sport and the fields of health, education, training and youth;
- activities to improve the evidence-base of sport to tackle societal and economic challenges (collection of data underpinning the aforementioned activities, surveys, consultations, etc.);
- conferences, seminars, meetings, events and awareness-raising actions underpinning the aforementioned activities.

WHO CAN TAKE PART IN A SMALL COLLABORATIVE PARTNERSHIP?

Small Collaborative Partnerships are open to any type of public institutions or non-profit organisations active in the field of sport and physical activity. Depending on the objective of the project, Small Collaborative Partnerships should involve an appropriate and diverse range of partners in order to benefit from different experiences, profiles and expertise and to produce relevant and quality project results.

Small Collaborative Partnerships target the cooperation between organisations established in Programme Countries.

A Small Collaborative Partnership should be composed of:

- applicant/coordinator: organisation that submits the project proposal on behalf of all the partners. When the project is granted, the applicant/coordinator will become the main EU grant beneficiary and will sign a beneficiary grant agreement. Please consult Part C of this Guide for more information on financial and contractual arrangements. Its coordinating role stands for the following duties:
 - represents and acts on behalf of the participating organisations vis-à-vis the European Commission;
 - bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the entire project;
 - coordinates the Collaborative Partnership in cooperation with all other project partners;

- receives the EU financial support from the Erasmus+ Programme and is responsible for distributing the funds among partners involved in the project.
- partners: organisations that contribute to the preparation, implementation and evaluation of the Small Collaborative Partnership.

PART C - INFORMATION FOR APPLICANTS

All those organisations (including informal groups) who intend to submit a project proposal in order to receive financial support from the EU under the Erasmus+ Programme are invited to read carefully this section which is drafted in accordance with the provisions of the Title VI of the Financial Regulation¹⁴² applicable to the general budget of the European Union (hereafter defined "EU Financial Regulation") and with its rules of application.

Individuals are not entitled to submit project proposals in the framework of the Erasmus+ Programme, except for individuals applying on behalf of a group of (at least four) young people active in youth work but not necessarily in the context of a youth organisation (hereafter defined "informal group of young people").

WHAT TO DO IN ORDER TO SUBMIT AN ERASMUS+ APPLICATION?

To submit an Erasmus+ project, applicants must follow the four steps described below:

- Each organisation involved in the application must register in the Participant Portal and receive a Participant Identification Code (PIC). Organisations/groups that have already obtained a PIC through their participation in other EU programmes do not need to register again. The PIC obtained from this previous registration is valid also for applying under Erasmus+;
- check the compliance with the Programme criteria for the relevant Action/field;
- check the financial conditions;
- fill in and submit the application form.

STEP 1: REGISTER IN THE PARTICIPANT PORTAL

All organisations involved in the application must be registered and provide their basic legal and financial data in the Education, Audiovisual, Culture, Citizenship and Volunteering Participant Portal, if not already done.

To register in the Participant Portal, the person representing an organisation (or an informal group of young people) must carry out the following steps:

- Create an ECAS account (unless the person representing the organisation/group already has an account). New ECAS accounts can be created via the following website:
<https://webgate.ec.europa.eu/cas/eim/external/register.cgi> ;
- Access the Participant Portal at <http://ec.europa.eu/education/participants/portal/desktop/en/organisations/register.html> and register on behalf of the organisation/group. Guidance and Frequently Asked Questions are available on the Participant Portal.

The organisation/group need to register only once in the Participant Portal. Once the registration is completed, the organisation/group will obtain a Participant Identification Code (PIC). The PIC, which is a unique identifier and is necessary for the submission of applications, enables the organisation/group to fill-in the Erasmus+ electronic application forms in a simpler manner (i.e. by inserting the PIC number in the form, all the information provided by the organisation/group at registration stage will be automatically displayed in the form).

PROOF OF LEGAL STATUS AND FINANCIAL CAPACITY

At the time of the registration, organisations must also upload the following documents in the Participant Portal:

- the Legal Entity form (this form can be downloaded from the European Commission's website at: http://ec.europa.eu/budget/contracts_grants/info_contracts/legal_entities/legal_entities_en.cfm);

¹⁴² The EU Financial Regulation can be found at:
<http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=OJ:L:2012:298:0001:0096:EN:PDF>

- the Financial Identification form. Please fill in the form relating to the country in which the bank is located, even if the applicant organisation is officially registered in another country (this form can be downloaded at: http://ec.europa.eu/budget/contracts_grants/info_contracts/financial_id/financial_id_en.cfm).

For grants exceeding 60 000 EUR, applicants may need to upload specific documents to give proof of their financial capacity. For more details, see the section "Selection Criteria" below.

The Financial Identification form should be provided only for the applicant organisation, but is not required for the partner organisations.

STEP 2: CHECK THE COMPLIANCE WITH THE PROGRAMME CRITERIA

When developing their project and before applying for EU support, participating organisations must verify that the project respects the following criteria: eligibility, exclusion, selection and award.

ELIGIBILITY CRITERIA

The eligibility criteria mainly relate to the type of project and activities (including, where relevant, duration, participating organisations, etc.), the target group (e.g. status and number of participants involved) and the conditions for submitting a grant request for such a project (e.g. deadlines for submission, completeness of the application form, etc.).

To be eligible, the project must meet all the eligibility criteria relating to the Action under which the proposal is submitted. If the project does not meet these criteria at application stage, it will be rejected without being further evaluated. As an exception, in case of mobility activities and EMJMD Scholarships supported under Key Action 1 or Key Action 2, some eligibility criteria (e.g. duration, profile of participants, etc.) may only be verified during the stage of project implementation or at final report stage (not at application stage). At application stage, the applicants will be asked to declare that these criteria will be met by the project. However, if it appears at implementation or final report stage that these criteria have not been fulfilled, the participants or the activity may be considered ineligible with a consequent reduction/recovery of the EU grant initially awarded to the project.

The specific eligibility criteria applying to each of the Actions implemented through the Erasmus+ Programme Guide are described in Part B of the Guide.

EXCLUSION CRITERIA

In accordance with articles 106 and 107 of the EU Financial Regulation, applicants will be excluded from participating in the Erasmus+ Programme if they are in any of the following situations:

- they are bankrupt or being wound up, are having their affairs administered by the courts, have entered into an arrangement with creditors, have suspended business activities, are the subject of proceedings concerning those matters, or are in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- they or persons having powers of representation, decision-making or control over them have been convicted of an offence concerning their professional conduct by a judgment of a competent authority of a Member State which has the force of *res judicata*;
- they have been guilty of grave professional misconduct proven by any means which the contracting National or Executive Agency can justify including by decisions of the EIB and international organisations;
- they are not in compliance with their obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which they are established or with those of the country of the contracting National or Executive Agency or those of the country where the contract is to be performed;
- they or persons having powers of representation, decision-making or control over them have been the subject of a judgment which has the force of *res judicata* for fraud, corruption, involvement in a criminal organisation, money laundering or any other illegal activity, where such illegal activity is detrimental to the EU's financial interests;
- they are subject to an administrative penalty referred to in Article 109(1) of the Financial Regulation.

Applicants will not be granted financial assistance if, on the date of the grant award procedure, they:

- are subject to a conflict of interests;
- are guilty of misrepresenting the information required by the contracting National or Executive Agency as a condition of participation in the grant award procedure or fail to supply that information;
- find themselves in one of the situations described above.

These exclusion criteria apply to applicants under all Actions of the Erasmus+ Programme. To certify that they are not in one of the situations mentioned above, applicants for an EU grant exceeding 60 000 EUR must provide a declaration on their honour certifying that they are not in any of the situations referred to in Articles 106(1) and 107 of the Financial Regulation. This declaration on honour constitutes a specific section or an annex of the application form.

In case of proposals submitted on behalf of a consortium of partners, the criteria described above apply to all participating organisations involved in the project.

In accordance with Articles from 106 to 109 of the EU Financial Regulation, administrative and financial penalties may be imposed on applicants who are guilty of misrepresentation or are found to have seriously failed to meet their contractual obligations under a previous grant award procedure¹⁴³.

Furthermore, the Commission considers that for the implementation of Actions covered by the Programme Guide, the following organisations are or could be in a situation of conflict of interest and therefore are or could be not eligible to participate:

- National Authorities in charge of supervising National Agencies and the implementation of the Erasmus+ Programme in their country cannot apply or participate in any Action managed by National Agencies in any country, but may apply for participation (as applicants or partners) in Actions managed by the Executive Agency or by DG EAC unless that is explicitly excluded for the Action concerned (as indicated in Part B of the Guide);
- National Agencies (sole activity of their legal entity) or National Agencies departments of legal entities dealing with activities outside the remit of National Agencies cannot apply or participate in any Action implemented through this Guide;
- Structures and networks identified or designated in the Erasmus+ Programme or in any Annual Commission Work programme adopted for the implementation of the Erasmus+ Programme for specifically receiving a financial contribution from the Commission under the implementation of the Erasmus + Programme, which are hosted by the legal entity that also hosts the National Agency, cannot apply or participate in any Action managed by Erasmus + National Agencies in any country, but may apply for participation (as applicants or partners) in Actions managed by the Executive Agency or by DG EAC unless that is explicitly excluded for the Action concerned (as indicated in Part B of the Guide); they should be able to demonstrate, before being awarded a grant or a contract, that they are not in a conflict of interest either because precautionary measures are taken by them or because their internal organisation is such that there is a clear separation of interests. Furthermore, costs and revenues of each action or activity for which the EU funds are awarded must be identified. The decision for admitting there is sufficient assurance they are not in an actual conflict of interest is taken by the Executive Agency or by DG EAC, under their own responsibility and accountability, to which they apply;
- Legal entities hosting the Erasmus+ National Agencies but dealing with other activities inside or outside the remit of the Erasmus + Programme, as well as entities affiliated to these legal entities, cannot apply or participate in any Action managed by National Agencies in any country, but may in principle apply for participation in Actions managed by the Executive Agency or DG EAC unless that is explicitly excluded for the Action concerned (as indicated in Part B of the Guide). However, they have to demonstrate, before being awarded a grant or a contract, they are not in a conflict of interest either because precautionary measures are taken by them or because their internal organisation is such that there is a clear separation of interests.(e.g. a minimum separation of accounts, separation of reporting and decision making lines, measures to prevent access to privileged information). Furthermore, costs and revenues of each action or activity for which the EU funds are awarded must be identified. The decision for admitting there is sufficient assurance they are not in an actual conflict of interest is taken by the Institution, under their own responsibility and accountability, to which they apply.

Finally, as detailed in the grant agreement of grant decision, applicants and beneficiaries who have made false declarations, have made substantial errors or committed irregularities or fraud, or have been found in serious breach of their contractual obligations may be subject to financial penalties and/or be excluded from all grants financed by the European Union budget for a maximum of five years from the date on which the infringement is established as confirmed following a contradictory procedure. That period may be extended to 10 years in the event of a repeated offence within five years of the date referred to above (see also the section "financial penalties" of this Guide).

SELECTION CRITERIA

Through the selection criteria, the National or Executive Agency assesses the applicant's financial and operational capacity to complete the proposed project.

¹⁴³ Except for actions implemented by National Agencies

FINANCIAL CAPACITY

Financial capacity means that the applicant has stable and sufficient sources of funding to maintain its activity throughout the period during which the project is being carried out or the year for which the grant is awarded and to participate in its funding.

The verification of the financial capacity does not apply to:

- public bodies¹⁴⁴;
- international organisations.

In case of EU grant requests submitted by other types of organisations (i.e. other than those mentioned above) and not exceeding 60 000 EUR, applicants must provide a declaration on their honour certifying that they have the financial capacity to implement the project. This declaration on honour constitutes a specific section of the application form.

In case of EU grant requests submitted by other types of organisations and exceeding 60 000 EUR, the applicant must submit, in addition to the declaration on honour, the following documents through the Participant Portal:

- For Actions managed by the National Agencies: the applicant's profit and loss account and the balance sheet for the last financial year for which accounts were closed;
- For Actions managed by the Executive Agency: a Financial Capacity Form, including the applicant's profit and loss account and the balance sheet for the last two financial years for which accounts were closed;
- For entities which cannot provide the above documents because they are newly created, a financial declaration or an insurance declaration stating the applicant's professional risks may replace the above documents.

Organisations must upload these documents in the Participants Portal either at the time of their registration in the Portal (see section "Step1: Register in the Participants Portal" above) or by the deadline stipulated by the specific Erasmus+ action.

In case of doubt on the financial capacity of any of the participating organisations involved in a project if the proposal is submitted on behalf of a consortium of partners, the same documents may be requested from the participating organisations by the National Agency or the Executive Agency.

Where the application concerns grants for a project for which the amount exceeds 750 000 EUR, an audit report produced by an approved external auditor may be requested. That report shall certify the accounts for the last financial year available.

If, following the analysis of these documents, the National or Executive Agency concludes that the required financial capacity has not been proved or is not satisfactory, then they may:

- ask for further information;
- offer a grant agreement or decision with a pre-financing covered by a financial guarantee¹⁴⁵;
- offer a grant agreement or grant decision without pre-financing or with a reduced pre-financing;
- offer a grant agreement or grant decision with pre-financing based on several instalments;
- reject the application.

OPERATIONAL CAPACITY

Operational capacity means that the applicant has the necessary professional competencies and qualifications to carry out the proposed project. Applicants must provide a declaration on their honour certifying that they have the operational capacity to implement the project. In addition, if required in the application form and if the grant exceeds 60 000 EUR, applicants may be asked to submit the CVs of the key persons involved in the project to demonstrate their relevant professional experience or other supporting documents such as:

- A list of relevant publications of the main team;
- An exhaustive list of previous projects and activities performed and connected to the policy field or to this specific action.

¹⁴⁴ Including schools, higher education institutions and organisations in the fields of education, training, youth and sport that have received over 50 % of their annual revenue from public sources over the last two years shall be considered as having the necessary financial, professional and administrative capacity to carry out activities under the Programme.

¹⁴⁵ The guarantee may be replaced by a joint third-party guarantee, or from several third-party guarantees from the participating organisations who are parties to the same grant agreement.

AWARD CRITERIA

The award criteria allow the National or Executive Agency to evaluate the quality of the project proposals submitted in the framework of the Erasmus+ Programme.

Within the limits of the budget available for each Action, grants will be awarded to those projects which respond to these qualitative criteria in the best way.

The full set of award criteria applying to each of the Actions implemented through the Erasmus+ Programme Guide are described in Part B of the Guide.

STEP 3: CHECK THE FINANCIAL CONDITIONS

TYPES OF GRANT

The grant may be any of the following types¹⁴⁶:

- reimbursement of a specified proportion of the eligible costs: e.g. the amount awarded under the framework of Strategic Partnerships to cover additional costs linked to the participation of persons with special needs;
- reimbursement on the basis of contribution to unit costs: e.g. the amount awarded for the individual support in the framework of mobility projects in the field of education, training and youth;
- lump sums: e.g. the amount awarded to contribute to the implementation of complementary activities under Jean Monnet Projects;
- flat-rate financing: e.g. the amount awarded to cover indirect costs for profit sport events;
- a combination of the above.

The financing mechanism applied under the Erasmus+ Programme in most cases provides grants based on the reimbursement on the basis of contribution to unit costs. These types of grant help applicants to easily calculate the requested grant amount and facilitate a realistic financial planning of the project.

To know which type of grant is applied to each funding item under each Erasmus+ Action covered by this Guide, please see the column "financing mechanism" in the "funding rules" tables in Part B.

PRINCIPLES APPLYING TO EU GRANTS

NON RETROACTIVITY

No EU grant may be awarded retroactively for projects already completed.

An EU grant may be awarded for a project which has already begun only where the applicant can demonstrate the need to start the project before the grant agreement has been signed or the grant decision has been notified. In such cases, the expenditure eligible for financing or the event generating the financing must not have been incurred prior to the date of submission of the application.

If the applicant starts implementing the project before the grant agreement is signed or the grant decision is notified, this is done at the risk of the applicant.

NON-CUMULATIVE AWARD

Each project financed by the EU is entitled to receive only one grant from the EU budget to any one beneficiary. In no circumstances shall the same costs be financed twice by the European Union budget.

To avoid the risk of double-funding, the applicant must indicate in the relevant section of the application form, the sources and the amounts of any other funding received or applied for in the year, whether for the same project or for any other project, including operating grants.

Identical or very similar applications – submitted by the same applicant or by other partners of the same consortium – will be subject to a specific assessment in order to exclude the risk of double funding. Applications which are submitted twice or more times by the same applicant or consortium, either to the same Agency or to different Agencies will all be rejected.

¹⁴⁶ COMMISSION DECISION C(2013)8550 of 04 December 2013 on "The use of lump sums, the reimbursement on the basis of unit costs and the flat-rate financing under the "Erasmus+" Programme", (http://ec.europa.eu/dgs/education_culture/more_info/awp/docs/c_2013_8550.pdf)

Where the same or very similar applications are submitted by other applicants or consortia, they will be carefully checked and may also all be rejected on the same grounds.

NO-PROFIT AND CO-FINANCING

A grant from the European Union must not have the purpose or effect of producing a profit within the framework of the project carried out by the beneficiary. Profit is defined as surplus of the receipts over the eligible costs incurred by the beneficiary, when the request is made for payment of the balance¹⁴⁷. The no-profit principle does not apply to grants provided in the form of a unit cost, a lump sum or a flat-rate financing, including scholarships, neither to grant requests that do not exceed 60 000 EUR. For the purpose of calculating the profit generated by the grant, co-financing in the form of contributions in kind will not be taken into account.

Furthermore, an EU grant is an incentive to carry out a project which would not be feasible without the EU financial support, and is based on the principle of co-financing. Co-financing implies that the EU grant may not finance the entire costs of the project; the project must be funded by sources of co-financing other than the EU grant.

When the EU grant is provided in the form of a unit cost, a lump sum or a flat-rate financing - this is the case for most of the Actions covered by this Guide - the principles of no-profit and co-funding are ensured by the Commission for the Action as a whole in advance when it defines the rates or percentages of such units, lump sums and flat-rates. The respect of the no-profit and co-financing principles is generally assumed and therefore, applicants do not have to provide information about sources of funding other than the EU grant, nor they have to justify the costs incurred by the project.

However, the payment of the grant based on the reimbursement on the basis of contribution to unit costs, lump sums, or flat-rate financing is without prejudice to the right of access to the beneficiaries' statutory records. Where a check or audit reveals that the generating event has not occurred (e.g. project activities not realised as approved at application stage, participants not taking part in the activities, etc.) and an undue payment has been made to the beneficiary on a grant based on the reimbursement on the basis of contribution to unit costs, lump sums, or flat-rate financing, the National or Executive Agency shall be entitled to recover up to the amount of the grant. Similarly, if the activities undertaken or the outputs produced are of insufficient quality, the grant may be reduced partly or in full even if the activities have taken place and are eligible.

In addition, for statistical and monitoring purposes the European Commission may carry out surveys on samples of beneficiaries aimed at quantifying the actual costs incurred in projects funded based on the reimbursement on the basis of contribution to unit costs, lump sums, or flat-rate financing.

SPECIFIC PROVISIONS APPLYING TO GRANTS PAID ON THE BASIS OF REIMBURSEMENT OF A SPECIFIED PORTION OF ELIGIBLE COSTS

When the EU grant is provided as a reimbursement of a specified portion of eligible costs, the following provisions apply:

ELIGIBLE COSTS

An EU grant must not exceed an overall amount which is established by the National or Executive Agency at the time of the project selection on the basis of the estimated eligible costs indicated in the application form. Eligible costs are costs actually incurred by the beneficiary of a grant which meet all of the following criteria:

- they are incurred during the lifetime of the project, with the exception of costs relating to final reports and audit certificates;
- they are indicated in the estimated overall budget of the project;
- they are necessary for the implementation of the project which is the subject of the grant;
- they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;
- they comply with the requirements of applicable tax and social legislation;

¹⁴⁷ To this aim, the receipts are limited to income generated by the project, as well as financial contributions specifically assigned by donors to the financing of eligible costs. The profit (or the loss) as defined above is then the difference between:

- the provisionally accepted amount of the grant, the income generated by the action and the financial contributions specifically assigned by donors to the financing of eligible costs, and
- the eligible costs incurred by the beneficiary.

In addition, whenever a profit is made, it will be recovered. The National Agency or Executive Agency are entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the beneficiary to carry out the action. Further clarifications on the calculation of the profit will be provided for actions for which grants take the form of reimbursement of a specified proportion of eligible costs.

- they are reasonable, justified, and comply with the principle of sound financial management, in particular regarding economy and efficiency.
- They are not covered through EU grants in the form of contribution to unit costs, lump sums or flat-rate financing.

The following categories of costs are also considered eligible:

- costs relating to a pre-financing guarantee lodged by the beneficiary of the grant, where that guarantee is required by the National or Executive Agency;
- costs relating to external audits where such audits are required in support of the requests for payments by the National or Executive Agency;
- depreciation costs, provided they are actually incurred by the beneficiary.

The beneficiary's internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the project with the corresponding accounting statements and supporting documents.

Value Added Tax (VAT)

Value added tax will be considered as an eligible cost only if it is not recoverable under the applicable national VAT legislation¹⁴⁸. The only exception relates to activities or transactions in which states, regional and local government authorities and other public bodies engage as public authorities¹⁴⁹. In addition:

- deductible VAT not actually deducted (due to national conditions or to the carelessness of beneficiaries) is not eligible;
- the VAT Directive does not apply to non EU countries. Organisations from Partner Countries can be exempted from taxes (including VAT), duties and charges, if an agreement has been signed between the European Commission and the Partner Country where the organisation is established.

Eligible indirect costs

For certain types of projects (for details of the funding rules for Actions, please consult Part B of this Guide) a flat-rate amount not exceeding 7% of the eligible direct costs of the project is eligible under indirect costs, representing the beneficiary's general administrative costs (e.g. electricity or Internet bills, cost for premises, cost of permanent staff, etc.) which can be regarded as chargeable to the project.

Indirect costs may not include costs entered under another budget heading. Indirect costs are not eligible where the beneficiary already receives an operating grant from the budget of the European Union (for example in the framework of the call for proposals on Civil Society Cooperation under the Erasmus+ Programme).

INELIGIBLE COSTS

The following costs shall not be considered eligible:

- return on capital;
- debt and debt service charges;
- provisions for losses or debts;
- interest owed;
- doubtful debts;
- exchange losses;
- VAT, when it is considered as recoverable under the applicable national VAT legislation (see above paragraph on Value Added Tax);
- costs declared by the beneficiary and covered by another project or work programme receiving an EU grant (see also above paragraph on eligible indirect costs);
- excessive or reckless expenditure;
- in the case of renting or leasing of equipment, the cost of any buy-out option at the end of the lease or rental period;
- costs of opening and operating bank accounts (including costs of transfers from/to the National or Executive Agency charged by the bank of the beneficiary).

¹⁴⁸ In the Member States the VAT national legislation translates the VAT Directive 2006/112/EC.

¹⁴⁹ See article 13(1) of the Directive.

INCOME

The applicant must indicate in the application form the contribution from sources other than the EU grant. External co-financing may take the form of the beneficiary's own resources, financial contributions from third parties or income generated by the project. If, at the time of the final report and request of payment of the balance, there is evidence that there is a surplus of the income over the eligible costs incurred by the project, the National Agency or Executive Agency is entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the beneficiary to carry out the project. This provision does not apply to projects requesting a grant that does not exceed 60 000 EUR.

Contributions in kind are not considered as a possible source of co-financing.

STEP 4: FILL IN AND SUBMIT THE APPLICATION FORM

To request an EU grant under the Erasmus+ Programme, applicants must use the forms specific for each Action and available on the websites of the European Commission, of the National Agencies or of the Executive Agency (for the contact details, see Annex IV of this Guide).

In case of projects submitted on behalf of consortia, the coordinating organisation or group submits a single application for the whole project on behalf of all the participating organisations. The application must be submitted to the appropriate National or Executive Agency (see sections "where to apply" for each Action, in Part B of this Guide).

APPLICATION PROCEDURE

ONLINE E-FORMS

For most Actions of the Programme, applicants are required to submit their application online to the appropriate National or Executive Agency using the correct electronic form and including all requested annexes.

The electronic form must be completed in one of the official languages used in Programme Countries. In case of Actions managed at centralised level by the Executive Agency, applicants must fill in the form in one of the EU official languages.

For more information, consult the guidelines on how to fill in and submit an electronic form. These guidelines also provide information on what to do in case of technical problems; they are available on the websites of the National Agencies (specific for decentralised Actions), Executive Agency (specific for centralised Actions) and European Commission.

In case of multiple submissions of the same application in the same selection round to the same National Agency or the Executive Agency, the National or Executive Agency will always consider valid the last version submitted before the deadline has expired. Applications sent by post, courier service, fax or email will not be accepted. In case of multiple submissions of the same or very similar applications of the same applicant organisation or consortium to different Agencies, all applications will be automatically rejected (see section on non-cumulative award).

APPLICATION FORMS ON PAPER

Some centralised Actions of the Programme may not be supported by electronic forms. For these Actions, applications must be sent by post (date as per postmark) or courier service (date of receipt by the courier service) to the Executive Agency (see contact details in Annex IV of this Guide). Applications sent by fax or email will not be accepted.

Applicants cannot make any changes to their grant application after the submission deadline.

RESPECT THE DEADLINE

The application must be submitted by the deadline set for each Action. The deadlines for the submission of projects are specified for each Action in the Part B "Eligibility Criteria" of this Guide.

N.B.: irrespective of the day of the deadline, the deadline for submission of electronic forms is always set at 12:00 (midday Brussels time). Applicants established in countries that have a different time zone should carefully consider the time differences to avoid rejections.

WHAT HAPPENS ONCE THE APPLICATION IS SUBMITTED?

All applications received by the National Agencies or by the Executive Agency undergo an evaluation procedure.

THE EVALUATION PROCEDURE

Project proposals are assessed by the National or Executive Agency receiving the application, exclusively on the basis of the criteria described in this Guide. The assessment implies:

- a formal check to verify that the eligibility and exclusion criteria are respected;
- a quality assessment to evaluate the extent to which the participating organisations meet the selection criteria (i.e. operational and financial capacity) and the project meets the award criteria. Such quality assessment is in most cases carried out with the support of independent experts. In their assessment, experts will be supported by guidelines developed by the European Commission; these guidelines will be made available on the websites of the European Commission and of the Agencies responsible for the management of Erasmus+ projects;
- a verification, that the proposal does not present risks of double funding. If necessary, such verification is carried out in cooperation with other Agencies or other stakeholders.

The National or Executive Agency will appoint an evaluation committee to oversee the management of the whole selection process. On the basis of the assessment carried out by experts, the evaluation committee will establish a list of projects proposed for selection. In the cases of Capacity Building in the field of higher education the Executive Agency establishes a ranking of eligible proposals per region of the eligible Partner Countries of the world (see section "Eligible countries" in Part A of this Guide). From the proposals ranked with the highest scores, the evaluation committee will short-list the projects on which different stakeholders in the eligible Partner Countries (such as EU Delegations, Ministries of Higher Education, National Erasmus+ Offices, national or regional organisations and bodies) will be consulted on the relevance and feasibility of the project in the local context, namely:

- relevance of the project objectives to the reform and modernisation of higher education systems in the partner country;
- relevance of the project proposal to the particular needs and feasibility constraints of the partner country/countries or region(s) (including synergy with any other initiatives and avoidance of duplication);
- the extent to which the project addresses the beneficiary's particular needs for capacity building.

For all actions covered by this Guide, during the evaluation process, applicants may be asked to provide additional information or to clarify the supporting documents submitted in connection with the application, provided that such information or clarification does not substantially change the proposal. Additional information and clarifications are particularly justified in case of obvious clerical errors made by the applicant, or in those cases where –for projects funded through multi-beneficiary agreements – one or more mandates of the partners are missing (for multi-beneficiary agreements, see section "grant agreement/decision below") .

FINAL DECISION

At the end of the evaluation procedure, the National or Executive Agency decides on the projects to be granted on the basis of:

- the ranking list proposed by the evaluation committee;
- the budget available for any given Action (or any given activity within an Action)

and in addition, for Capacity Building in higher education the decision is also made on the basis of:

- the results from the consultation process (see above);
- the budget available for any given region of the world, as defined in the financial instruments of the EU external action;
- the need to achieve a geographical balance within a region in terms of number of projects per country, within the limits of the available budget and provided that sufficient quality is guaranteed;
- the need to ensure that the overall results of the selection guarantees a sufficient coverage of the priorities of the Action.

After the completion of the selection procedure, the application files and accompanying material are not sent back to the applicant, irrespective of the outcome of the procedure.

NOTIFICATION OF GRANT AWARD DECISIONS

The indicative calendar for the notification of selection results under each Action is indicated in the section "Project life-cycle deadlines and payment modalities" below.

WHAT HAPPENS WHEN THE APPLICATION IS APPROVED?

GRANT AGREEMENT/DECISION

If the project is selected for an EU grant under Erasmus+:

- a grant decision - taken by the Executive Agency - is notified to the applicant of a selected project. Upon receipt/notification of the decision, the applicant becomes the beneficiary of an EU grant and can start the project¹⁵⁰;
- a grant agreement is signed between the National or Executive Agency selecting the project and the applicant. The applicant will receive the grant agreement, to be signed by its legal representative and returned to the National or Executive Agency; the National or Executive Agency is the last party to sign. When the grant is signed by both parties, the applicant becomes beneficiary of an EU grant and can start the project¹⁵¹.

Depending on the type of Action, grant agreements may take the form of mono-beneficiary agreements, with the applicant being the single beneficiary, or multi-beneficiary agreements, where all partners of the consortium become beneficiaries of the agreement. However, all other organisations participating in a project (co-beneficiaries) sign a mandate to confer to the coordinating organisation the responsibility of acting as main beneficiary. As a general rule, the mandates of each partner to the applicant will have to be provided at application stage. If these mandates are provided at a later stage, they must be made available at the latest by the time of the grant agreement signature.

Nota bene: Mandates are not required for partner organisations in countries other than the country of the applicant organisation in the case of Mobility projects for Higher education students and staff, Mobility projects for VET learners and staff, Mobility Projects for School education staff and Mobility Projects for Adult education staff. However, member organisations of national consortia in the fields of higher education, VET, school and adult education are required to provide a mandate to the applicant organisation.

As an exception, in Strategic Partnerships for schools only, each participating organisation involved in a selected project will sign a separate (monobeneficiary) grant agreement – specific for its share of the grant - with the National Agency established in its own country.

Models of grant agreements and grant decisions used under the Erasmus+ Programme will be made available in the course of the year on the websites of the European Commission and Executive Agency.

The indicative calendar for the receipt of grant agreements and grant decisions under each Action is indicated in the in the section "Project life-cycle deadlines and payment modalities" below.

GRANT AMOUNT

The acceptance of an application does not constitute an undertaking to award funding equal to the amount requested by the applicant. The funding requested may be reduced on the basis of the specific financial rules applying to a given Action.

The award of a grant in a given round of selection does not establish an entitlement for subsequent rounds.

It should be noted that the grant amount foreseen by the agreement is a maximum which cannot be increased, even if the beneficiary requests a higher amount.

Funds transferred by the Executive Agency or the National Agency must be identified within the account or sub-account indicated by the beneficiary for the payment of the grant.

¹⁵⁰ For exceptions to this rule, see the section "non-retroactivity" in this part of the Guide.

¹⁵¹ See footnote above.

PAYMENT PROCEDURES

Depending on the type of Action, duration of the grant agreement/decision and the assessment of financial risk, projects supported under the Erasmus+ Programme are subject to different payment procedures.

Except for the first pre-financing payment, other payments or recoveries will be made on the basis of the analysis of reports or payment requests submitted by the beneficiary (the templates of these documents will be made available in the course of the year on the websites of National Agencies and Executive Agency).

The payment procedures applied under Erasmus+ are described below.

PRE-FINANCING PAYMENT

A pre-financing payment will be transferred to the beneficiary within 30 days of the date when the last of the two parties signs the grant agreement or when the grant decision is notified to the beneficiary, and where relevant, any appropriate guarantees are received (see section "financial guarantee" below). Pre-financing is intended to provide the beneficiary with a float. National Agencies or the Executive Agency may decide to split the first pre-financing payment into more instalments. They may also decide to reduce the pre-financing or not pay any pre-financing at all, if the financial capacity of the beneficiary is not deemed satisfactory.

FURTHER PRE-FINANCING PAYMENTS

Under some Actions, a second – and in some cases a third - pre-financing payment will be transferred to the beneficiary within 30 calendar days of the receipt, by the National or Executive Agency, of the further pre-financing payment requests advanced by the beneficiary or within 60 calendar days if the further pre-financing payment request is accompanied by a progress report. These further pre-financing payments may be requested when at least 70% of the previous pre-financing payment has been used up. Where the statement on the use of the previous pre-financing payment(s) shows that less than 70% of the previous pre-financing payment(s) has been used to cover costs of the action, the amount of the new pre-financing to be paid may be reduced by the difference between the 70% threshold and the amount used, depending on the action concerned.

INTERIM (OR PROGRESS) REPORT

Under some Actions, beneficiaries will be asked to submit an interim/progress report informing on the state of implementation of the project and - in some cases - accompanying the request for a further pre-financing payment. The interim/progress report must be submitted by the deadline indicated in the grant agreement or grant decision.

PAYMENT OR RECOVERY OF THE BALANCE

The amount of the final payment to be made to the beneficiary will be established on the basis of a final report to be submitted by the deadline indicated in the grant agreement or grant decision. If a) the events generating the grant are not implemented or are implemented in a different way than planned; or b) the eligible costs actually incurred by the beneficiary are lower than those planned at application stage, or c) the quality of the realised activities/outputs is of insufficient quality, the funding may be reduced proportionally or, where applicable, the beneficiary will be required to repay any excess amounts already received as pre-financing payment.

Under some Actions, the National or Executive Agency transfers 100% of the grant awarded through the pre-financing instalments. In such cases a payment of the balance is not due. However, if - on the basis of a final report to be submitted by the beneficiary by the deadline indicated in the grant agreement - a) the events generating the grant are not implemented or are implemented in a different way than planned; or b) the eligible costs actually incurred by the beneficiary are lower than those planned at application stage, or c) the quality of the realised activities/outputs is of insufficient quality, the beneficiary will be required to repay any excess amounts already received as pre-financing payment.

As a general rule, the final payment or request for recovery of the balance will be issued within 60 calendar days of the receipt of the final report.

For more information, the detailed modalities of payment applying to each Action can be found in the section "Project life-cycle deadlines and payment modalities" below.

FINANCIAL PENALTIES

Beneficiaries of centralised actions who have been found in serious breach of their contractual obligations may be subject to financial penalties representing 2% to 10% of the total value of the grant awarded. That rate may be increased to 4% to 20% in the event of a repeat infringement within five years of the date on which the infringement is established, as confirmed following a contradictory procedure with the beneficiary.

Please note that the indicative dates provided in the table above are given for general information only and do not constitute a legal obligation for the National Agencies and the Executive Agency. Similarly as regards the payment modalities presented above, it should be noted that they will be applied in general, but depending on the individual situation of the applicant organisation or consortium concerned (e.g., depending on the financial capacity), different arrangements may be provided for in the grant agreement or grant decision. In case of a shortage of EU appropriations for a given budget year, the first pre-financing payment levels may be further reduced.

OTHER IMPORTANT CONTRACTUAL PROVISIONS

FINANCIAL GUARANTEE

If the financial capacity is not considered satisfactory, the National or Executive Agency may require any beneficiary which has been awarded a grant exceeding 60 000 EUR to lodge a guarantee in advance in order to limit the financial risks connected with the pre-financing payment. This guarantee can be requested for up to the same amount of the pre-financing payment(s).

The purpose of such guarantee is to make a bank or financial institution stand as irrevocable collateral security or first-call guarantor of the beneficiary's obligations deriving from the grant agreement or grant decision.

This financial guarantee, in euro, shall be provided by an approved bank or financial institution established in an EU Member State. When the beneficiary is established in a non-EU country, the National or Executive Agency may agree that a bank or financial institution established in such country provides the guarantee, if it considers that the bank or financial institution offers equivalent financial security and characteristics as those offered in an EU Member State.

The guarantee may be replaced by a joint third-party guarantee, or from several third-party guarantees from the participating organisations who are parties to the same grant agreement.

The guarantee will be released after the pre-financing is gradually cleared against an interim payment or payment of the balance to the beneficiary, in accordance with the conditions laid down in the grant agreement or grant decision. In case the payment of the balance takes the form of a recovery, the guarantee will be released after the beneficiary is notified.

SUB-CONTRACTING AND AWARD OF PROCUREMENT CONTRACT

The beneficiary may resort to subcontracting for specific technical services requiring specialised skills (relating to the legal, accounting, tax, human resources fields, IT, etc.) or implementation contracts. The costs incurred by the beneficiary for this type of services may therefore be considered eligible costs provided they meet all the other criteria described in the grant agreement or grant decision.

Where implementation of the project requires the procurement of goods, works or services (implementation contract), beneficiaries must award the contract to the economically most advantageous offer, i.e. the bid offering the best value for money, or, as appropriate to the tender offering the lowest price, ensuring that there is no conflict of interests and that documentation is retained in case of audit.

In the event of implementation contract exceeding a value of 60 000 EUR (or 25.000 EUR for the Capacity Building in higher education action), the National or Executive agency may impose special rules on the beneficiary, in addition to those referred to in the previous paragraph. Those special rules would be published on the websites of the National Agencies and Executive Agency.

INFORMATION ON THE GRANTS AWARDED

Grants awarded in the course of a financial year must be published on the website of the Commission, the Executive Agency and/or the National Agencies during the first half of the year following the closure of the financial year for which they were awarded.

The information may also be published in any other appropriate medium, including the Official Journal of the European Union.

The National Agencies and the Executive Agency will publish the following information:

- name and locality of the beneficiary;
- amount of grant awarded;
- nature and purpose of the award.

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

As far as personal data referring to natural persons are concerned, the information published shall be removed two years after the end of the financial year in which the funds were awarded.

The same shall apply to personal data indicated in the official titles of legal persons (e.g. an association or company having as title the names of their founders).

This information shall not be published for scholarships paid to natural persons and other direct support paid to natural persons in most need (refugees and unemployed persons). Also the beneficiary organisations are not authorised to publish this type of information in relation to persons receiving a mobility grant under Erasmus+.

PUBLICITY

Apart from the requirements regarding the visibility of the project and for the dissemination and exploitation of its results (which are award criteria), there is an obligation of minimal publicity for each granted project.

Beneficiaries must clearly acknowledge the European Union's support in all communications or publications, in whatever form or whatever medium, including the Internet, or on the occasion of activities for which the grant is used.

This must be done according to the provisions included in the grant agreement or grant decision. If these provisions are not fully complied with, the beneficiary's grant may be reduced.

Please refer to the Dissemination Guidelines for beneficiaries in Annex II of this Guide for further requirements regarding the visibility of the project.

CHECKS AND AUDITS

The National or Executive Agency and/or the European Commission may carry out technical and financial checks and audits in relation to the use of the grant. They may also check the statutory records of the beneficiary (or co-beneficiary) for the purpose of periodic assessments of lump sum, unit cost or flat-rate financing. The beneficiary (or co-beneficiary) will undertake, with the signature of its legal representative, to provide proof that the grant has been used correctly. The European Commission, the Executive Agency, National Agencies and/or the European Court of Auditors, or a body mandated by them, may check the use made of the grant at any time up to five years, or for up to three years for grants not exceeding 60 000 EUR, starting from the date of payment of the balance or execution of the recovery by the National or Executive Agency. Therefore, beneficiaries shall keep records, original supporting documents, statistical records and other documents connected with the grant during this period.

For projects managed at centralised level by the Executive Agency, different types of audit procedures may be applied according to the type of Action concerned and the size of the grant awarded (if applicable, Audit Type I for grants exceeding 60 000 EUR and lower than 750 000 EUR; Audit Type II for grants of 750 000 EUR or higher). More information is available on the website of the Executive Agency.

The detailed provisions concerning checks and audits are described in the grant agreement or grant decision.

DATA PROTECTION

Any personal data included in the application form or in the grant agreement/decision shall be processed by the National or Executive Agency, or by the European Commission in accordance with:

- Regulation (EC) No 45/2001 of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data by the European Union institutions and bodies and on the free movement of such data;
- where applicable, the national legislation on personal data protection of the country where the application has been selected.

Unless marked as optional, the applicant's replies to the questions in the application form are necessary to evaluate and further process the grant application in accordance with the Erasmus+ Programme. Personal data may be transferred on a need to know basis to third parties involved in the evaluation of applications or in the grant management procedure, without prejudice of transfer to the bodies in charge of monitoring and inspection tasks in accordance with European Union law or to bodies mandated to undertake evaluations of the Programme or any of its Actions. In particular, for the purposes of safeguarding the financial interests of the Union, personal data may be transferred to internal audit services, to the European Court of Auditors, to the Financial Irregularities Panel or to the European Anti-Fraud Office and between

authorising officers of the Commission and the executive agencies. The applicant shall have the right of access to his/her personal data and the right to rectify any such data. Should the applicant have any queries concerning the processing of his/her personal data, he/she shall address them to the Agency that has selected the project. In case of conflicts; the applicant also has the right of recourse at any time to the European Data Protection Supervisor. More information regarding the processing of personal data is included in the grant agreement or decision.

Concerning the processing of personal data under the Erasmus+ Programme, a detailed privacy statement, including contact information, is available on the website of the Commission and Executive Agency.

Applicants and, if they are legal entities, persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations mentioned in:

- the Commission Decision of 13.11.2014 on the Early Warning System (EWS) for the use of authorising officers of the Commission and the executive agencies¹⁵², or
- the Commission Regulation of 17.12.2008 on the Central Exclusion Database¹⁵³ (CED),

their personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the EWS only or both in the EWS and CED, and communicated to the persons and entities listed in the above-mentioned Decision and Regulation, in relation to the award or the execution of a procurement contract or a grant agreement or decision.

OPEN LICENCE AND INTELLECTUAL PROPERTY RIGHTS

An open licence is a way by which the owner of a work grants permission to everyone to use the resource. There are different open licences according to the extent of the permissions granted or the limitations imposed and the beneficiaries are free to choose the specific license to apply to their work. An open licence must be associated to each resource produced.

An open licence is not a transfer of copyrights or Intellectual Property Rights (IPR). Beneficiaries will remain the copyright holders of the materials they produce and are allowed to use them as they wish. The only requirement for grant beneficiaries is to make educational resources (or other documents and media produced by the project) freely accessible through open licences. To fulfil this requirement, licenses need at least to grant use and, ideally, sharing and, adaptation rights. Beneficiaries can also commercialise their project outcomes and experience shows that open access brings visibility and may encourage interested users to buy the printed version or physical material, document or media.

MOBILITY PROJECT FOR HIGHER EDUCATION STUDENTS AND STAFF

1. BEFORE MOBILITY

a. ACCREDITATION OF PARTICIPATING ORGANISATIONS

ERASMUS CHARTER FOR HIGHER EDUCATION

The Erasmus Charter for Higher Education (ECHE) provides the general quality framework for European and international cooperation activities a higher education institution (HEI) may carry out within the Programme. The award of an Erasmus Charter for Higher Education is a pre-requisite for all HEIs located in a Programme Country and willing to participate in learning mobility of individuals and/or cooperation for innovation and good practices under the Programme. For HEIs located in Partner Countries, the ECHE is not required, and the quality framework will be established through inter-institutional agreements (see below) between HEIs.

A call for proposals for the award of the ECHE is launched by the Executive Agency in Brussels on an annual basis. If awarded, the Charter is valid for the entire duration of the Programme. The conditions for applying to receive an ECHE are described in the website of the Executive Agency at: https://eacea.ec.europa.eu/erasmus-plus/funding/erasmus-charter-for-higher-education-2014-2020_en.

HEIs must respect all the provisions of the ECHE during the implementation of the project. Their compliance will be monitored by the National Agency. Violation of any of its principles and commitments may lead to its withdrawal by the European Commission.

CONSORTIUM ACCREDITATION

A higher education national mobility consortium can support any of the four eligible mobility activities within a higher education mobility project.

The purpose of mobility consortia is to facilitate the organisation of mobility activities and to offer added value in terms of quality of activities compared to what each individual sending higher education institutions would be able to deliver alone. The member organisations of a national mobility consortium may pool or share services related to the organisation of mobility. Joint activities may include joint administrative, contractual and financial management of mobility, joint selection and/or preparation and mentoring of participants as well as, where relevant, a centralised point for finding enterprises and for matchmaking enterprises and participants. The national mobility consortium can also act as a facilitator for incoming student and staff trainees. This includes finding a receiving organisation in the region where the mobility consortium partners are located and providing assistance in case of need.

The consortium coordinator, possibly together with other/intermediary organisations, can play an active role in fostering contacts with enterprises and finding opportunities for traineeships and training places for staff, in promoting these activities and providing information, etc.

Each sending HEI remains responsible for the quality, the contents and the recognition of the mobility periods. Each member of the consortium is required to sign an agreement with the consortium coordinator to specify the roles and responsibilities and the administrative and financial arrangements; the modalities of cooperation shall specify matters like the mechanisms for preparation, quality assurance and follow-up of mobility periods. Furthermore, each sending HEI is responsible for signing inter-institutional agreements (see following section) with HEIs that receive their students and staff.

The national mobility consortium can only get funding if it was awarded a consortium accreditation. If the assessment of the national mobility consortium is not successful, the consortium will have to reapply for the accreditation and for funding in the following year.

Compliance with the consortium accreditation shall be subject to the monitoring by the National Agency. Any major problems (e.g. misuse of funds, non-respect of obligations and weaknesses in the financial capacity) or any violation by the consortium of its commitments may lead to the withdrawal of the accreditation by the National Agency. The National Agency shall require the consortium coordinator to notify the National Agency without delay of any change in the composition, situation or status of the consortium which might necessitate changes to or withdrawal of the accreditation.

b. INTER-INSTITUTIONAL AGREEMENT

Student mobility for studies and staff mobility for teaching between HEIs shall take place as part of an inter-institutional agreement between HEIs. The templates are available at http://ec.europa.eu/education/opportunities/higher-education/quality-framework_en.htm. Inter-institutional agreements can be signed by two or more HEIs.

This inter-institutional agreement, in the case of mobility between Programme Countries and Partner Countries, lays out the general principles that are adhered to in an ECHE and ensures that both or all sides will commit to implementing them.

The inter-institutional agreement may also be extended to cover student mobility for traineeships and/or staff mobility for training, relying on their partner institutions' knowledge of enterprises to identify receiving enterprises/organisations abroad.

c. MOBILITY TOOL+

At the earliest once the participants are selected, the beneficiary organisation must encode general information regarding the participant and the type of mobility activity s/he will carry out (e.g. participant name, destination, duration of the mobility, etc.) into Mobility Tool+. The beneficiary organisation is also responsible for updating the Mobility Tool+ at least once a month during the lifetime of the mobility project with any new information regarding the participants and the mobility activities.

For mobility projects between Programme and Partner Countries, it will be necessary to identify the Partner Country HEIs within Mobility Tool+ via a PIC. If the Partner Country HEI does not already have a PIC based on prior participation in EU programmes, then they should register for one via the Participant Portal and communicate it to the beneficiary.

Mobility Tool+ will support the beneficiary in the management of the Erasmus+ mobility activities. Beneficiaries will be able to generate prefilled reports from Mobility Tool+ based on the information they have provided. Mobility Tool+ will also generate reports to be filled in by the participants in mobility activities.

d. CONDITIONS OF PARTICIPATION OF STUDENTS

SELECTION

Students apply to their HEI who carries out the selection of participants in the mobility action. The selection of students - as well as the procedure for awarding them a grant - must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process.

The HEI shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or process of students' selection.

The selection criteria - such as for example: the academic performance of the candidate, the previous mobility experiences, the motivation, the previous experience in the receiving country (i.e. return to country of origin) etc. - shall be made public. For students from Partner Countries, the first criterion for selecting students will be academic merit, but with equivalent academic level, preference should be assigned to students from less advantaged socio-economic backgrounds (including refugees, asylum seekers and migrants).

Lower priority will be given to those who have already participated in mobility actions in the same study cycle under the LLP-Erasmus Programme, Erasmus Mundus Programme or Erasmus+ Programme.

Once students are selected, they should receive from their sending institution the Erasmus+ Student Charter, setting out the student's rights and obligations with respect to her/his period of study or traineeship abroad, and explaining the different steps to be undertaken before, during and after mobility.

AGREEMENT WITH THE STUDENT

Prior to their departure, each selected student must sign an agreement which includes also a "learning agreement" setting out the programme of studies and/or traineeship to be followed, as agreed by the student, the sending and the receiving organisation. The template is available at http://ec.europa.eu/education/opportunities/higher-education/quality-framework_en.htm. This learning agreement defines the target learning outcomes for the learning period abroad and specifies the formal recognition provisions. The agreement also specifies the location of the study period and/or traineeship. In this learning agreement, the sending institution and the student should also agree on the language level (main language of instruction or workplace) to be reached by the student by the start of the study/traineeships period, in line with the recommended level specified in the inter-institutional agreement between sending and receiving institutions

(or in line with the enterprise expectations in case of traineeships). Where applicable, the sending institution and the student will agree on the best suited linguistic support to be provided, so that the student can reach the agreed level (see next paragraph on online service for linguistic support).

GRANT FOR STUDENTS

Students may receive a "student grant" to contribute to the increased costs that the mobility period abroad generates. Such grant may consist of one or both of the following:

- an EU grant, calculated per month and paid as a unit cost (see the "funding rules" section in Part B of this Guide); and/or
- a national, regional and local grant provided by a public or private donor, or loan scheme.

Students with a zero-grant from EU funds are allowed (both for study and traineeship mobility), i.e. students who fulfil all Erasmus student eligibility criteria and benefit from all advantages of being an Erasmus student without receiving an EU mobility grant. The rules stated in this Programme Guide, except those relating to the allocation of grants, also apply to such students with a zero-grant from EU funds. The number of students with a zero-grant from EU funds for the entire mobility period counts in the statistics for the performance indicator used to allocate the EU budget between the countries.

Students taking part in a higher education mobility project supported by the Erasmus+ Programme - whether or not they receive an Erasmus+ EU grant for their participation - are exempted from paying fees for tuition, registration, examinations and access to laboratory and library facilities at the receiving institution. However, small fees may be charged for costs such as insurance, student unions and the use of miscellaneous material such as photocopies, laboratory products, on the same basis as these are charged to local students. Outbound students shall not be liable to any additional fees or charges in connection with the organisation or administration of their mobility period.

In addition, the entitlement to any grant or loan awarded to students to study in their sending institution must be maintained during the period abroad.

In the case of traineeships, if the receiving enterprise/organisation grants the student an allowance or any kind of remuneration, it is compatible with the Erasmus+ EU grant.

A mobility period is compatible with a part-time job and, if the student receives an Erasmus+ EU grant, it is compatible as well with the revenue that the student would receive as long as he or she carries the activities foreseen in the agreed mobility programme.

Students taking part in a higher education mobility project (either studying or doing a traineeship abroad) cannot be at the same time beneficiaries of an Erasmus Mundus Joint Master Degree scholarship, and vice versa.

Students that receive an Erasmus+ EU grant will fully or partially reimburse the EU grant if they do not comply with the terms of the grant agreement (unless they were prevented from completing their planned activities abroad due to a case of force majeure). They may be asked to partially or fully reimburse the EU grant received if they fail to complete and submit the final online report.

ONLINE LINGUISTIC SUPPORT

By signing the Erasmus Charter for Higher Education, HEIs commit to provide all the necessary support to participants in mobility activities in terms of linguistic preparation. In this regard, an online linguistic support will be gradually implemented in the course of the Programme for all mobility activities between Programme Countries lasting two months and longer. Such online support is made available by the European Commission to selected students, with a view to assess their competence in the language they will use to study or carry out their traineeships abroad. This tool will also offer them, where necessary, the possibility to improve the knowledge of the language before and/or during the mobility period.

The online linguistic support will be provided as follows:

- National Agencies allocate online licences to higher education institutions according to general criteria specified by the European Commission;
- once selected by their higher education institution all students (except native speakers and in duly justified cases) benefiting from the online service must carry out an online test to assess their competences in the main language they will use for studying or doing the traineeship abroad. This is a pre-requisite before leaving on mobility. The results of this test will be communicated to the student and to the sending HEI. This will allow the sending HEI to quantify the number of students that will potentially need an online language course;

- based on the number of online licences available for language courses, HEIs will distribute licences according to student needs. The students will assume the responsibility of following the online course, as described and agreed in the grant agreement;
- at the end of the mobility period, the student will carry out a second assessment to measure the progress made in the main foreign language. The results will be communicated to the student and to the sending HEI.

Further details are made available on the websites of the European Commission and National Agencies.

For all other types of mobility, or if the Commission's online service is not available for a given language, higher education institutions may provide other types of linguistic support to students, to be funded under the "organisational support" grant.

e. CONDITIONS OF PARTICIPATION OF STAFF

SELECTION

Staff taking part in a higher education mobility project must be selected by their sending HEI in a fair and transparent way. Prior to their departure, they must have agreed on a mobility programme with the sending and receiving institutions/enterprise.

The selection of teachers and HEI staff shall be carried out by the HEI. The selection and grant award procedure must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process. The selection criteria (for example priority given to staff going abroad for the first time, limitation on the possible number of mobility activities per staff member during a given time period, etc.) shall be made public.

The HEI shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or selection process of individual beneficiaries.

In the case of a mobility of staff from an enterprise to an HEI, it shall be arranged by an invitation of the institution to the staff member of the enterprise; the grant is managed by the receiving HEI.

MOBILITY AGREEMENT

The selection of the HEI's staff will be made by the sending institution on the basis of a draft mobility programme submitted by the staff member after consultation with the receiving institution/enterprise. Prior to departure, the final mobility programme shall be formally agreed by both the sending institution/enterprise and the receiving institution/enterprise (by exchange of letters or electronic messages).

Both the sending institution/enterprise and receiving institution/enterprise shall be responsible for the quality of the mobility period abroad.

GRANT FOR STAFF

The financial rules for the two types of staff mobility are the same. The grant is a contribution to the travel and subsistence costs for a period of teaching or training abroad (see the "funding rules" section in Part B of this Guide).

Mobility with a zero-grant from EU funds is allowed for higher education staff.

2. DURING MOBILITY

INTERRUPTION OF STUDENTS' MOBILITY

When a mobility period of a student is interrupted, for example because there is a gap between the end of a language course and the start of the actual study/traineeship, the number of days of interruption shall be encoded in Mobility Tool+ and the grant amount adapted accordingly.

For traineeships, the period of mobility abroad may be interrupted by the enterprise holidays if the enterprise is closed during this period. The grant is maintained during this period. The closure period does not count towards the minimum duration of a traineeship period but it will count towards the maximum of 12 months per each cycle of study for which the same student may receive grants for mobility periods.

PROLONGATION OF STUDENTS' MOBILITY

A prolongation of an on-going mobility period may be agreed between the sending and the receiving organisations subject to the following:

- the request for prolongation of the mobility period must be introduced at the latest one month before the end of the mobility period initially planned;
- if the request is accepted by all parties, the grant agreement must be amended and all the arrangements related to the prolongation of the duration must be completed;
- if the student receives an Erasmus+ grant, the sending institution may either amend the grant amount to take into account the longer duration, or reach an agreement with the student that the additional days are considered "zero-grant from EU funds" period;
- the actual start and end dates of the mobility period shall be included in the receiving institution's Transcript of Records or in the student's Traineeship Certificate according to the following definitions:
 - the start date should be the first day that the student needs to be present at the receiving organisation (for example, this could be the start date of the first course/first day at work, a welcoming event organised by the receiving institution, or language and intercultural courses);
 - the end date should be the last day the student needs to be present at the receiving organisation (for example, this could be the last day of the exam period/course/work/mandatory sitting period).
- the actual duration defined as indicated above is the period to be indicated by the HEIs in their final reports and is the maximum number of months to be covered through the EU grant. When the prolongation of the student's mobility is considered as "zero-grant from EU funds" days, these days shall be deducted from the total duration of the mobility period to calculate the final grant amount;
- the additional period must follow immediately after the on-going mobility period. There can be no gaps (holidays and university/enterprise closures are not considered "gaps") unless duly justified and approved by the National Agency.

3. AFTER MOBILITY

a. RECOGNITION OF LEARNING OUTCOMES

At the end of the period abroad, the receiving institution/enterprise must provide the student and his HEI with a transcript of records or traineeship certificate ('transcript of work') confirming the results of the agreed programme.

The follow-up to the mobility period includes formal recognition, by the sending institution, of the credits awarded abroad for formal learning of newly acquired competences (using ECTS credits or an equivalent system) including for traineeships, where applicable, and the documentation of outcomes resulting from non-formal and informal learning outside the classroom or workplace (using the Diploma Supplement). However this does not apply for traineeships carried out by recent graduate students.

The results of language assessment and online language courses will be reported centrally but will not provide any formal qualification.

As regards staff mobility, the sending institutions should ensure that the learning outcomes of participating staff are properly recognised, disseminated and widely used within the institution.

b. REPORTING

At the end of the period abroad, all students and staff who have undertaken a mobility activity are required to complete and submit a final report. For mobility activities lasting two months or more, the report also includes a qualitative evaluation of the linguistic support received during the mobility period.

Those students and staff who fail to submit the report may be required by their sending HEI to partially or fully reimburse the EU grant received. Reimbursement shall not be requested when a student or staff member has been prevented from completing her/his planned activities abroad due to a case of force majeure. Such cases shall be reported by the sending institution and be subject to the written acceptance by the NA.

MOBILITY PROJECT FOR VET LEARNERS AND STAFF

1. ORGANISATIONAL SUPPORT

The organisational support grant is a contribution to any costs incurred by the organisations in relation to activities to support student and staff mobility of high quality. For example:

- providing information and assistance to students and staff;
- selecting students and staff;
- preparing the learning agreements to ensure full recognition of the students' educational components; preparation and recognition of mobility agreements for staff;
- providing linguistic and intercultural preparation to both students and staff – especially sector-specific language courses for VET;
- general management around setting up and managing mobility project;
- ensuring an efficient mentoring and supervision arrangements of mobile participants;
- specific arrangements to ensure the quality of traineeships in enterprises.

The quality of the implementation and follow-up of the project by the institution will be taken into account when the final grant is decided. The quality implementation of the mobility project should follow the guidelines set out in this Annex on the Mobility for VET learners and staff.

2. BEFORE MOBILITY

a. ACCREDITATION OF PARTICIPATING ORGANISATIONS – THE ERASMUS+ VET MOBILITY CHARTER

From 2015 onwards there is the possibility for non-accredited organisations to apply for the Erasmus+ VET Mobility Charter through separate yearly calls launched by the National Agencies, provided that those organisations fulfil the prerequisite selection criteria and demonstrate the quality and sustainability of their internationalisation strategies. Please take good note that if organisations do acquire a new Erasmus+ VET Mobility Charter in a given year, they will only be able to use it for undertaking VET mobility from the following General Call onwards. For example, if organisations apply for a Charter under a specific call and this Charter is awarded in 2016, they will still have to apply at the same time for a VET mobility project without a Charter if they wish to carry out mobility under the 2016 General Call. They would only be able to use the Charter in the following call year (in this example 2017).

More detailed information is made available on the websites of the European Commission and National Agencies.

b. EUROPEAN QUALITY CHARTER FOR MOBILITY

VET organisations that plan to organise mobility activities for VET learners and staff must organise their activities in line with the principles and criteria set out in the European Quality Charter for Mobility¹⁵⁶.

The European Quality Charter for Mobility constitutes the quality reference document for education and training stays abroad. The Charter provides guidance on mobility arrangements for learning or other purposes, such as professional betterment, to both young learners and staff. The respect of the principles set out in the Charter should help to ensure that mobility participants always have a positive experience both in the host country and in their country of origin on their return, and that the number and depth of education and training exchanges are stepped up. The Charter is available at: http://europa.eu/legislation_summaries/education_training_youth/lifelong_learning/c11085_en.htm

c. ECVET - MEMORANDA OF UNDERSTANDING

VET organisations may decide to apply the European Credit system for Vocational Education and Training (ECVET) in the framework of their mobility activities (for more information, see below). In these cases, a precondition for using ECVET is the setting up of an ECVET partnership. This partnership needs to bring together the competent organisations involved in 1) identifying the suitable learning outcomes during mobility activities; 2) delivering VET programmes that are apt at satisfying

¹⁵⁶ Recommendation (EC) No 2006/961 of the European Parliament and of the Council of 18 December 2006 on transnational mobility within the Community for education and training purposes: European Quality Charter for Mobility (Official Journal L 394 of 30.12.2006).

these needs; 3) assessing the extent to which learning outcomes have been achieved by learners; and 4) validating and recognising learners' credits on their return to the home institution.

The partnership for ECVET mobility activities can be formalised through a Memorandum of Understanding (MoU). A MoU is an agreement between competent organisations which sets the framework for credit transfer. It formalises the ECVET partnership by stating the mutual acceptance of the status and procedures of competent organisations and institutions involved. It also establishes partnerships' procedures for cooperation.

MoUs can be developed by networks of competent organisation/institutions from several countries/systems, but they can also be bilateral, depending on the partnership needs and ambitions. For more information and guidance on the establishment of a MoU please refer to the ECVET User's Guide available on the website of the European Commission or refer to the following links: http://ec.europa.eu/education/policy/vocational-policy/ecvet_en.htm and <http://www.ecvet-team.eu/>

d. MOBILITY CONSORTIUM

Besides VET providers applying as a single organisation, a national mobility consortium can also apply for a VET mobility project.

The purpose of mobility consortia is to facilitate the organisation of mobility activities and to offer added value in terms of quality of activities compared to what each individual sending VET institution (eg VET school) would be able to deliver alone. The member organisations of a national mobility consortium are expected to pool or share services related to the organisation of mobility and develop their internationalisation together through mutual cooperation and sharing of contacts. Joint activities include typically joint administrative, contractual and financial management of mobility, joint selection and/or preparation and mentoring of participants as well as, where relevant, a centralised point for finding enterprises and for matchmaking enterprises and participants. The national mobility consortium can also act as a facilitator for incoming trainees and staff. This includes finding a receiving organisation in the region where the national mobility consortium partners are located and providing assistance in case of need.

The consortium coordinator, possibly together with other/intermediary organisations, has to play an active role in fostering contacts with enterprises and finding opportunities for traineeships and training places for staff, in promoting these activities and providing information, etc.

Each sending VET organisation remains responsible for the quality, the contents and the recognition of the mobility periods. Each member of the consortium is required to sign an agreement with the consortium coordinator to specify the roles and responsibilities and the administrative and financial arrangements; the modalities of cooperation shall specify matters like the mechanisms for preparation, quality assurance and follow-up of mobility periods.

e. EUROPEAN DEVELOPMENT PLAN

The European Development Plan concerns only applications from applicants that do not possess the Erasmus+ VET Mobility Charter. Although non-Charter holders are not expected to be aiming for internationalisation or sustainability to the same degree as those organisations that have been accredited with the Charter, nevertheless they are expected to already be reflecting on the impact of mobility on their respective organisations beyond the mere mobility itself. Before applying, a VET provider or a national mobility consortium coordinator must develop a European Development Plan; this plan is part of the application form. This section indicates how the planned mobility activities are inscribed in a wider and long-term strategy of development and modernisation of the VET providers involved in the project.

This European Development Plan will be an important part of the evaluation of grant applications and should provide information on:

- the needs of the VET providers in terms of quality development and internationalisation (e.g. as regards management competences, staff competences, new teaching methods or tools, European dimension, language competences, curriculum, organisation of teaching, training and learning, reinforcing links with partner institutions) and how the planned activities will contribute to meeting these needs;
- the impact expected on learners, teachers, trainers and other staff, and on the VET provider overall;
- the way VET schools and companies will integrate the competences and experiences acquired by their staff into their curriculum and/or their development plan;
- the way work-based learning can be enhanced sustainably through transnational cooperation.

f. MOBILITY TOOL+

At the earliest when the participants are selected, the beneficiary organisation must encode general information regarding the participant and the type of mobility activity s/he will carry out (e.g. participant name, destination, duration of the mobility, etc.) into Mobility Tool+. The beneficiary organisation is also responsible for updating Mobility Tool+ with any change occurred to participants or activities during the lifetime of the mobility project. Beneficiaries will be able to generate prefilled reports from Mobility Tool+ based on the information they have provided. Mobility Tool+ will also generate reports to be filled in by the participants in mobility activities.

More information about Mobility Tool+ and how to access it will be provided in the grant agreement between the National Agency and the beneficiary.

g. CONDITIONS OF PARTICIPATION OF VET LEARNERS

SELECTION

The sending organisation carries out the selection of participants in the mobility activity. The selection of learners - as well as the procedure for awarding them a grant - must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process.

The sending organisation shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or selection process of individual participants.

ACCOMPANYING PERSONS

VET learners with special needs or disadvantaged backgrounds may be accompanied by a person that will support them during the mobility period. The involvement of the accompanying person should be proportional to the number of learners involved (usually one accompanying person per group of learners carrying out a traineeship in the same receiving organisation).

The duration of the stay abroad of accompanying persons should also be proportional to the needs of the learners (usually a stay for the whole duration of the activity is accepted only in cases where the learners are not autonomous or minors).

AGREEMENT WITH THE LEARNER

Prior to their departure, VET learners must sign an agreement with the sending and receiving organisation which includes also the following:

- a "learning agreement" setting out the programme of training to be followed, as agreed by the learner, the sending and the receiving organisation. This agreement defines the target learning outcomes for the learning period abroad, specifies the formal recognition provisions (e.g. ECVET);
- a "Quality Commitment", annexed to the learning agreement, showing the rights and obligations of the trainees, the sending and receiving organisations and, when relevant, intermediary organisations.

When signing the learning agreement, VET learners are entitled to receive a grant to support them during the period of traineeship abroad. Such grant may consist of one or both of the following:

- an EU grant, calculated per day of activity (see the "funding rules" section in Part B of this Guide); and/or
- a local, regional and national grant provided by a public or private donor, or loan scheme.

"Zero-grant VET learners" are allowed, (i.e. learners who carry out traineeships which respect the Erasmus+ VET mobility criteria and benefit from the advantages of being an Erasmus+ learner without receiving an Erasmus+ mobility grant). The rules stated in this Programme Guide, except those relating to the allocation of grants, also apply to such "zero-grant VET learners".

ONLINE LINGUISTIC SUPPORT

VET learners undertaking a mobility activity lasting one month or longer are eligible to receive linguistic support prior to departure or during the mobility activity. In this regard, the Commission makes available an online service for selected VET learners, with a view to assess their competence in the language they will use to carry out their traineeships abroad. This service also offers them, where necessary, the possibility to improve the knowledge of the language before and/or during the mobility period. Such an online service will be gradually implemented in the course of the Programme. The linguistic support is provided as follows:

- at the time of applying for a VET mobility project, the applicant organisation will estimate the need for linguistic support - in the main language of instruction or work - of the learners undertaking a traineeship in the framework of the mobility project;
- National Agencies allocate online licences to beneficiary organisations according to general criteria specified by the Commission;
- once selected by their sending organisation - and before signing their learning agreement - all learners (except native speakers) benefiting from the online service will carry out an online test to assess their competences in the language they will use for their traineeship. The results of this test will be communicated to the learner and, upon request, to the sending organisation. These results will not have any influence on the possibility for the learner to go abroad;
- based on the number of online licences available for language courses, those participants who need linguistic support may be offered the possibility to follow an online language course;
- at the end of their traineeship, VET learners will carry out a second assessment to measure the progress made in the language of instruction/work. The results will be communicated to the student and, upon request, to the sending organisation.

In the initial stages of the Programme, the online assessment and courses will not be provided in all EU languages and language courses may not be available for all participants requesting them. Further details will be made available at the websites of the Commission and National Agencies.

For languages not covered by the Commission's service, linguistic support must be arranged by the participating organisations in the VET mobility project; a specific grant for "linguistic support" may be provided for that purpose. Furthermore, organisations involved in a VET mobility project can use the "organisational support" grant to address the needs of participants in terms of pedagogical, intercultural or specific linguistic preparation (see the "funding rules" section in Part B of this Guide).

h. CONDITIONS OF PARTICIPATION OF STAFF

SELECTION

The selection of staff shall be carried out by the sending organisation. The selection and grant award procedure must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process.

The sending organisation shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or selection process of individual beneficiaries.

The selection criteria (priority given to staff going abroad for the first time, limitation on the possible number of mobility activities per staff member during a given time period, etc.) shall be made public.

MOBILITY AGREEMENT

The selection of the staff will be made by the sending organisation on the basis of a draft mobility programme submitted by the staff member after consultation with the receiving institution or enterprise/organisation. Prior to departure, the final mobility programme shall be formally agreed by both the sending and receiving organisations by exchange of letters or electronic messages.

Both the sending and the receiving organisations shall be responsible for the quality of the mobility period abroad.

3. DURING MOBILITY

INTERRUPTION OF LEARNERS' MOBILITY

For traineeships, the period of mobility abroad may be interrupted by the enterprise holidays if the enterprise is closed during this period. The grant is maintained during this period. The closure period does not count towards the minimum duration of a traineeship period.

PROLONGATION OF LEARNERS' MOBILITY

A prolongation of an on-going mobility period may be agreed between the sending and the receiving organisations subject to the following:

- before the end of the mobility period initially planned, the grant agreement must be amended and all the arrangements relating to the prolongation of the duration must be completed. Such amendment is particularly important in those cases where the prolongation also determines a request of extension of the monthly EU grant. In fact, although the duration of the mobility period shall be defined in the student's Certificate of Attendance (this is the period indicated by the beneficiary organisations in their final reports), the maximum number of months to be covered through the EU grant shall be the one set out in the mobility agreement or its amendment(s). This will be the case, even if the duration indicated in the learning agreement is shorter than the one indicated in the Certificate of Attendance;
- the additional period must follow immediately after the on-going mobility period. There can be no gaps (holidays and VET school/enterprise closures are not considered "gaps") unless duly justified and approved by the National Agency.

4. AFTER MOBILITY

a. RECOGNITION OF LEARNING OUTCOMES

The sending and receiving organisations involved should agree on issuing a Europass Mobility certificate at the end of the mobility. For more information on how to proceed, consult the Europass website:

<http://europass.cedefop.europa.eu/en/home>.

The results of language assessment and online language courses will be reported centrally but will not provide any formal qualification.

ECVET

VET organisations may decide to apply the ECVET system in the framework of their mobility activities. ECVET is a common methodological framework that facilitates the accumulation and transfer of credits for learning outcomes from one qualifications system to another. It aims to promote transnational mobility and access to lifelong learning. It is not intended to replace national qualification systems, but to achieve better comparability and compatibility among them. ECVET applies to all outcomes obtained by an individual from various education and training pathways that are then transferred, recognised and accumulated in view of achieving a qualification. This initiative makes it easier for European citizens to gain recognition of their training, skills and knowledge in another Programme Country. More information about ECVET can be found on the Commission's website at:

http://ec.europa.eu/education/policy/vocational-policy/ecvet_en.htm and

<http://www.ecvet-team.eu/>

When ECVET is used, the credits accrued for learning outcomes acquired should be made transparent and should be specified in the Memorandum of Understanding between the participating organisations.

b. REPORTING

At the end of the period abroad, all VET learners and staff who have undertaken a mobility activity are required to complete and submit a final report. For mobility activities lasting one month or more, the report also includes a qualitative evaluation of the linguistic support received during the mobility period.

Those students and staff who fail to submit the report may be required to partially or fully reimburse the EU grant received. Reimbursement shall not be requested when a learner or staff member has been prevented from completing her/his planned activities abroad due to a case of force majeure. Such cases shall be reported by the sending organisation and be subject to the written acceptance by the National Agency.

MOBILITY PROJECT FOR SCHOOL EDUCATION STAFF

Mobility projects allow schools to give their teachers and other educational staff opportunities and incentives to acquire new competences linked to the needs of the school. School management should play an active role in planning, supporting and following up the mobility project.

In order to ensure and maximise the impact of these activities on professional development of all staff, schools should make sure that after the mobility the competences acquired by their staff are well disseminated across the school and integrated into the school teaching practice.

Before applying, schools should carefully think about how many of staff can realistically participate within the duration of the project (i.e. 1 or 2 years), what kind of activities they would engage in and how these activities could be effectively followed-up at home. At application stage, applicant organisations will need to provide indicative numbers, types and destination countries of planned mobility activities.

If the National Agency selects the mobility project and confirms the budget requested, the beneficiary can start the selection of participants and the detailed organisation of the activities.

1. ORGANISATIONAL SUPPORT

The organisational support grant is a contribution to costs incurred by the institutions in relation to activities in support of staff mobility. For example:

- preparation and follow-up of the European Development Plan;
- organisational arrangements with partner institutions (mainly in case of job-shadowing and teaching assignments);
- providing information and assistance to staff;
- selection of staff for mobility activities;
- preparation of mobility agreements to ensure the quality and recognition of mobility activities;
- linguistic and intercultural preparation for mobile staff;
- facilitating the integration of incoming mobile staff in the school;
- ensuring efficient mentoring and supervision arrangements of mobile participants;
- supporting the reintegration of mobile participants and building on their acquired new competences for the benefit of the school, teaching staff and pupils.

2. BEFORE MOBILITY

a. EUROPEAN DEVELOPMENT PLAN

Before applying, a school or a national mobility consortium coordinator must develop a European Development Plan; this plan is part of the application form. This section indicates how the planned mobility activities are inscribed in a wider and long-term strategy of development and modernisation of the school(s) involved in the project.

This European Development Plan will be an important part of the evaluation of grant applications and should provide information on:

- the needs of the school(s) in terms of quality development and internationalisation (e.g. as regards management competences, staff competences, new teaching methods or tools, European dimension, language competences, curriculum, organisation of teaching, training and learning, reinforcing links with partner institutions) and how the planned activities will contribute to meeting these needs;
- the impact expected on pupils, teachers and other staff, and on the school overall;
- the way schools will integrate the competences and experiences acquired by their staff into their curriculum and/or the school development plan;
- the way eTwinning is going to be used in connection with the planned mobility activities, if relevant (see the section below).

b. ETWINNING

eTwinning promotes school collaboration and school networking in Europe through the use of Information and Communication Technologies (ICT). It provides advice, ideas and tools to make it easy for schools to set up partnerships and start collaborative projects in any subject area.

In connection with a mobility project, eTwinning allows to:

- find potential partners/receiving organisations abroad and work together with them before applying for funding, in order to improve the quality and impact of the planned projects;
- use the available project tools to implement more strategic projects and better exploit the inputs from partners;
- prepare the outgoing staff, for instance through communication with the receiving organisation (learning more about the receiving country and receiving organisation, discussing and agreeing on activities to carry out), participate in online learning events related to their mobility;
- cooperate intensively among all schools involved during and after the staff mobility project.

No formal application is required to use eTwinning, all schools need to do is register in the eTwinning portal: <http://www.etwinning.net>. The European eTwinning portal is a fully multilingual website offering collaboration tools and services through which teachers register, find partners and work together with them. It also serves as a meeting point where all interested teachers can share resources, discuss and find partner schools.

eTwinning assists schools both at European level, through the Central Support Service, and at national level, through the National Support Services. All teachers can benefit from the services, training, recognition and tools provided by the eTwinning national and European Support Services. For more information about these Services, see the section "What other bodies are involved in the implementation of the Programme?" in Part A of this Guide.

C. CONDITIONS OF PARTICIPATION OF STAFF

SELECTION

The sending school is responsible for selecting the staff undertaking mobility activities. The selection process must be fair, transparent, coherent and documented and shall be made available to all parties involved. The profile of participants must correspond to the eligibility criteria set out in part B of this guide. The sending school should define the selection procedure, i.e. how staff will be invited to apply, the documentation that the applicants need to submit and how it will be treated.

The school should define the criteria to be considered in the selection process. General criteria might be: motivation, clear goals for the mobility, willingness to share the experience upon return. It is strongly recommended to form a selection committee, which could also involve external people, rather than letting one staff member take the decision alone.

In addition to these general criteria, there may be specific criteria linked to the nature or purpose of the mobility project (i.e. relevance of the activities planned by an individual staff member to the needs of the school and other criteria defined by the school).

Both the general and the specific criteria must be agreed and shared by all those involved in the selection process and should be clearly communicated to the applicants. Sharing or discussing selection criteria and their rationale with the receiving organisation may facilitate preparation of the activities. There should be a written record of the selection process in case of possible internal complaints.

MOBILITY AGREEMENT

When the participant is selected, s/he should, with the help of the sending school (and the partner organisation if the mobility is a teaching assignment or a job-shadowing) formally agree on the type of training to be undertaken and its content, clarify how s/he will prepare for this training, how the knowledge/competences acquired will be disseminated across the school and outside, and what will be the benefits of participation at institutional and individual level. They should also agree how the training will be evaluated and recognised by the sending school. This agreement should be established before the start of a mobility activity. Its main aim is that the sending school, the receiving organisation and the participant clarify expectations and ensure that the stay abroad is meaningful.

MOBILITY TOOL+

At the earliest when the participants are selected, the beneficiary organisation must encode general information regarding the participant and the type of mobility activity s/he will carry out (e.g. participant name, destination, duration of the mobility, etc.) into Mobility Tool+. Mobility Tool+ will support the beneficiary in the management of the Erasmus+ mobility activities. The beneficiary organisation is also responsible for updating Mobility Tool+ with any change occurred to participants or activities during the lifetime of the mobility project. Beneficiaries will be able to generate prefilled reports from Mobility Tool+ based on the information they have provided. Mobility Tool+ will also generate reports to be filled in by the participants in mobility activities. More information about Mobility Tool+ and how to access it will be provided in the grant agreement between the National Agency and the beneficiary.

3. AFTER MOBILITY

a. RECOGNITION OF LEARNING OUTCOMES

The sending and receiving organisations involved should agree on issuing a Europass Mobility certificate at the end of the mobility. For more information on how to proceed, consult the Europass website: <http://europass.cedefop.europa.eu/en/home>.

b. REPORTING

At the end of the period abroad, all staff members who have undertaken a mobility activity are required to complete and submit a final report. Those who fail to submit the report may be required to partially or fully reimburse the EU grant received. Reimbursement shall not be requested when a staff member has been prevented from completing her/his planned activities abroad due to a case of force majeure. Such cases shall be reported by the sending school or national mobility consortium coordinator and be subject to written acceptance by the National Agency.

MOBILITY PROJECT FOR ADULT EDUCATION STAFF

Learning mobility for adult education staff aims at raising the key competences and skills of staff in adult education in order to increase the quality of teaching and learning in all forms and to make them relevant to the needs of the labour market and society at large. Particular attention will be given to projects addressing the teaching/learning needs of disadvantaged adult learners (including refugees, asylum seekers and migrants). It is expected that adult education organisations use learning mobility of their staff strategically and in terms of internationalising their organisation and of raising the capacity of it.

1. ORGANISATIONAL SUPPORT

The organisational support grant is a contribution to costs incurred by the organisations in relation to activities of staff mobility. The purpose of the grant is to facilitate the organisation of high quality mobility activities with a view to raising the capacity of the adult education organisations. For example:

- preparation and follow-up of the European Development Plan;
- providing information and assistance to staff;
- selection of staff for mobility activities;
- organisational arrangements with partner institutions (in particular in case of job-shadowing and teaching assignments);
- preparation of mobility agreements to ensure the quality and recognition of mobility activities
- linguistic and intercultural preparation for mobile staff;
- ensuring efficient mentoring and supervision arrangements of mobile staff;
- supporting the reintegration of mobile participants and building on their acquired new competences to improve the quality of teaching and learning provisions of the adult education organisation.

The quality of the implementation and follow-up of the project by the organisation will be taken into account when the final grant is decided. The quality implementation of the mobility project should follow the guidelines set out in this Annex on Mobility for adult education staff.

2. BEFORE MOBILITY

a. EUROPEAN DEVELOPMENT PLAN

Before applying, an adult education organisation must develop a European Development Plan; this plan is part of the application form. This section indicates how the planned mobility activities are inscribed in a wider and long-term strategy of development and modernisation of the organisation.

This European Development Plan will be an important part of the evaluation of grant applications and should provide information on:

- the needs of the organisation in terms of quality development and internationalisation (e.g. as regards management competences, staff competences, new teaching/learning methods or tools, European dimension, language competences, curriculum, organisation of teaching, training and learning, reinforcing links with partner organisations) and how the planned activities will contribute to meeting these needs;
- the impact expected on adult learners, teachers, trainers and other staff, and on the organisation overall;
- the way the organisation will integrate the competences acquired by its staff into their curriculum and/or the organisation's development plan.

The purpose of the European Development Plan is to ensure that the planned activities are relevant both for the individual participants and for the organisation as a whole, as they will have a higher impact on the quality of teaching and learning if they are well integrated in the organisation's strategic development.

b. MOBILITY TOOL+

At the earliest when the participants are selected, the beneficiary organisation must encode general information regarding the participant and the type of mobility activity s/he will carry out (e.g. participant name, destination, duration of the mobility, etc.) into the Mobility Tool+. The Mobility Tool+ will support the beneficiary in the management of the Erasmus+ mobility activities. The beneficiary organisation is also responsible for updating the Mobility Tool+ with any change occurred to participants or activities during the lifetime of the mobility project. Beneficiaries will be able to generate prefilled reports from the Mobility Tool+ based on the information they have provided. The Mobility Tool+ will also generate reports to be filled in by the participants in mobility activities.

More information about the Mobility Tool+ and how to access it will be provided in the grant agreement between the National Agency and the beneficiary.

c. CONDITIONS OF PARTICIPATION OF STAFF

SELECTION

The selection of staff shall be carried out by the sending organisation. The selection and grant award procedure must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process.

The sending organisation shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or selection process of individual participants.

MOBILITY AGREEMENT

It is recommended that the sending and receiving organisation, together with the participants, agree on the activities undertaken by staff members prior to the start of the mobility period by exchange of letters or electronic messages. This agreement will define the target learning outcomes for the period abroad, specify the recognition provisions and list the rights and obligations of each party.

Both the sending and the receiving organisations shall be responsible for the quality of the mobility period abroad.

3. AFTER MOBILITY

a. RECOGNITION OF LEARNING OUTCOMES

The sending and receiving organisations involved should agree on issuing a Europass Mobility certificate at the end of the mobility. For more information on how to proceed, consult the Europass website: <http://europass.cedefop.europa.eu/en/home>.

b. REPORTING

At the end of the period abroad, all staff members who have undertaken a mobility activity are required to complete and submit a final participant's report. Those who fail to submit the report may be required to partially or fully reimburse the EU grant received. Reimbursement shall not be requested when a staff member has been prevented from completing her/his planned activities abroad due to a case of force majeure. Such cases shall be reported by the sending organisation and be subject to the written acceptance by the National Agency.

MOBILITY PROJECT FOR YOUNG PEOPLE AND YOUTH WORKERS

The Actions supported by the Erasmus+ Programme in the field of youth provide many opportunities for young people to acquire competences and grow as individuals, through non-formal and informal learning.

Non-formal learning refers to the learning which takes place outside formal educational curriculum. It has a participative and learner-centred approach; it is carried out by learners on a voluntary basis and therefore is closely linked to young people's needs, aspirations and interests. By providing an additional source and new forms of learning, such activities are also important means to improve the attainment in formal education and training as well as to address young NEETs (i.e. young people not in employment, education or training) or young people with fewer opportunities and combat social exclusion.

Informal learning refers to the learning in daily life activities, in work, with peers, etc. It is mainly learning by doing. In the youth sector, informal learning can take place in youth initiatives, in peer group discussions, through voluntary activities and in a variety of other situations.

Non-formal and informal learning enable young people to acquire essential competences that contribute to their personal and socio-educational development and foster their active participation in society, thereby improving their employment prospects. Learning activities within the youth field are meant to have a significantly positive impact on young people as well as on the organisations involved, the communities in which these activities take place, the youth field itself and the European economic and societal sectors at large.

A high-quality non-formal and informal learning dimension is a key aspect of all youth projects supported under the Erasmus+ Programme. Youth projects funded by the Erasmus+ Programme must adhere to the following non-formal and informal learning principles:

- learning in non-formal contexts is intended and voluntary;
- young people and youth workers are actively participating in the planning, preparation, implementation and evaluation of the project;
- learning activities take place in a diverse range of environments and situations;
- the activities are carried out with the support of professional facilitators (such as trainers, youth workers, experts in the youth field) or volunteers (such as youth leaders, youth trainers, etc.);
- the activities usually document learning in a specific, field-oriented way.

The activities must also be planned in advance and be based on participatory methods that:

- offer space for interaction of participants, sharing of ideas, avoiding passive listening;
- allow participants to contribute to the activities with their own knowledge and skills, reversing the traditional roles of outside "experts" (a reversal of learning, from extracting to empowering);
- allow participants to undertake their own analyses, including reflections on competences acquired during the activity (i.e. their own learning outcomes);
- ensure that participants have influence over project decisions, not simply involvement.

Finally, the activities should have an intercultural/European dimension and:

- encourage participants to reflect on European topics and to involve them in the construction of Europe;
- offer participants the opportunity to identify common values with persons from different countries in spite of their cultural differences;
- challenge viewpoints that perpetuate inequality, discrimination;
- promote the respect of cultural diversity and fight against racism or xenophobia.

1. BEFORE MOBILITY

a. AGREEMENT BETWEEN PROJECT PARTNERS

All participating organisations involved in a youth mobility project are strongly recommended to sign an internal agreement between them. Such an agreement has the purpose of clearly defining responsibilities, tasks and financial contribution for all parties involved in the project. It is up to the participating organisations to jointly decide on how the EU grant will be distributed and which costs it will cover.

An internal agreement constitutes a key instrument for ensuring a solid and smooth cooperation among partners in a youth mobility project as well as to avoid or manage potential conflicts. Indicatively, it should contain at least the following information:

- project title and reference of the grant agreement between the applicant participating organisation and the granting Agency;
- names and contacts of all the participating organisations involved in the project;
- role and responsibilities of each participating organisation; division of the EU grant (according to the above responsibilities);
- modalities of payments and budget transfers among participating organisations.

Although this practice is strongly recommended to safeguard the interests of each partner in a project, such an agreement remains an internal document among partners; it will not be requested by the granting National Agency.

b. ACCREDITATION OF ORGANISATIONS PARTICIPATING IN EUROPEAN VOLUNTARY SERVICE

Accreditation serves to gain access to European Voluntary Service and to ensure that the principles and minimum quality standards of EVS are met. These standards are set in the EVS Charter and in the EVS Accreditation Guidelines that are published on the website¹⁵⁷ of the European Commission.

Any organisation from a Programme Country, a Western Balkan country, a Southern Mediterranean country, an Eastern Partnership country or from the Territory of Russia as recognised by international law wishing to send or receive EVS volunteers or to coordinate an EVS project must be accredited. Organisations taking part in large-scale EVS events or organisations from other Partner Countries of the world involved in Capacity-building projects can participate in EVS activities without accreditation.

To be accredited, an organisation must submit an application for accreditation. This form must be submitted to the relevant bodies responsible for accreditation (see below). The same organisation may request to be accredited for one or more purposes (as sending, as receiving and/or as coordinating organisation). If the organisation has more than one role in a project application, it must have a valid accreditation for all those roles.

The applications for accreditation can be submitted at any time (no deadline). However, these requests must be submitted within reasonable time before the submission of the project application including EVS activities (at least 6 weeks before the submission) in order to avoid that the EVS activity is rejected due to the fact that some of the organisations involved are not yet accredited.

The accreditation of EVS organisations is carried out by:

- the National Agency of the country where the organisation is located, for organisations located in Programme Countries;
- SALTO SEE for organisations located in Western Balkans countries;
- SALTO EECA for organisations located in Eastern Partnership countries and the Territory of Russia as recognised by international law;
- SALTO Euromed for organisations located in Southern Mediterranean countries.

The accreditation can be valid for the entire duration of the Erasmus+ Programme, or for a shorter period. The applicant enters the requested validity period in the accreditation form. The bodies in charge of accreditation may carry out regular or punctual controls to verify that the accredited organisations still meet the EVS quality standards. Following these controls, the accreditation may be temporarily suspended or withdrawn.

In order to facilitate partner-finding profiles of all accredited organisations are published in a database of European Voluntary Service organisations (Volunteering Database)¹⁵⁸. Accredited organisations are invited to use the Volunteering Database to advertise when they are looking for volunteers for EVS projects. The database can be consulted on the European Youth Portal.

c. SAFETY AND PROTECTION OF PARTICIPANTS

EUROPEAN HEALTH INSURANCE CARD

If applicable, it is strongly recommended that young people and youth workers taking part in youth mobility projects are in possession of a European Health Insurance Card. This is a free card that gives access to medically necessary, state-provided healthcare during a temporary stay in any of the 28 EU countries, Iceland, Liechtenstein and Norway, under the same conditions and at the same cost (free in some countries) as people insured in that country. More information on the card and on how to obtain it is available at <http://ec.europa.eu/social/main.jsp?catId=559>.

YOUTH EXCHANGES

All participants in a Youth Exchange must be insured against the risks linked to their participation in these activities. The Erasmus+ Programme does not define a unique format of insurance, nor does it recommend specific insurance companies. The Programme leaves it up to participating organisations to seek the most suitable insurance policy according to the type of activity carried out and to the insurance formats available at national level. Furthermore, it is not necessary to stipulate a project-specific insurance, if the participants are already covered by insurance policies previously stipulated by themselves or the participating organisations. In any circumstances, the following areas must be covered: third party liability for youth leaders (including, wherever appropriate, professional indemnity or insurance for responsibility); accident and serious illness (including permanent or temporary incapacity); death (including repatriation in case of activities carried out abroad); wherever relevant, medical assistance, including after care and special insurance for particular circumstances such as outdoor activities.

EUROPEAN VOLUNTARY SERVICE

Every EVS volunteer must be enrolled in the EVS Insurance foreseen by the Erasmus+ Programme, which complements the coverage by the European Health Insurance Card and/or national social security systems.

Those volunteers who are not eligible for the European Health Insurance Card shall be entitled to receive a full coverage through the EVS Insurance provided by the European Commission.

The coordinating organisation, in cooperation with the sending and receiving organisations, is responsible for the enrolment of the volunteer(s). This enrolment must be done before the departure of the volunteer(s) and cover the duration of the EVS activity.

Information about the coverage and support available through the insurance for EVS volunteers, as well as instructions for enrolment, is available on the website of the Executive Agency.

d. VISA REQUIREMENTS

Young people and youth workers taking part in youth mobility projects may need to obtain a visa for staying abroad in the Programme or Partner Country hosting the activity.

It is a collective responsibility of all the participating organisations to ensure that the authorisations required (short/long stay visas or residence permits) are in order before the planned activity takes place. It is strongly recommended that the authorisations are requested from the competent authorities well in advance, since the process may take several weeks. National Agencies and the Executive Agency may give further advice and support concerning visas, residence permits, social security, etc.

e. CONDITIONS OF PARTICIPATION OF EVS VOLUNTEERS

SELECTION

The selection of volunteers can be carried out by any of the organisations involved in the project (usually this task is carried out by the sending or coordinating organisation).

The European Voluntary Service is open to all young people, including people with fewer opportunities. Volunteers are to be selected in a fair, transparent and objective way, regardless of their ethnic group, religion, sexual orientation, political opinion, etc. No previous qualifications, educational level, specific experience or language knowledge should be required. A more specific profile of the volunteer might be drawn up if justified by the nature of the tasks of the EVS activity or by the project context.

AGREEMENT WITH THE VOLUNTEER

Prior to their departure, each EVS volunteer must sign a Volunteering Agreement with the coordinating organisation. This agreement defines the tasks s/he will carry out during the EVS, the intended learning outcomes, etc. As part of the agreement, the coordinating organisation will provide the volunteer with the EVS Info-kit, which contains information about what to expect from EVS and on how to use Youthpass and receive a certificate at the end of the activity. The Volunteering Agreement remains an internal document among partners and volunteers; however it may be requested by the granting National Agency.

MOBILITY TOOL

When the volunteers are selected, the beneficiary organisation must encode general information regarding the volunteer and the type of EVS activity s/he will carry out (e.g. participant name, destination, duration of the EVS, etc.) into Mobility Tool+ as soon as possible. Mobility Tool+ will support the beneficiary in the management of the Erasmus+ mobility activities. The beneficiary organisation is also responsible for updating Mobility Tool+ with any change occurred to participants or activities during the lifetime of the mobility project. Beneficiaries will be able to generate prefilled reports from Mobility Tool based on the information they have provided. Mobility Tool+ will also generate reports to be filled in by the participants in mobility activities.

More information about Mobility Tool+ and how to access it will be provided in the grant agreement between the National Agency and the beneficiary.

LINGUISTIC SUPPORT

Young volunteers undertaking an EVS lasting two months or longer are eligible to receive linguistic support prior to departure or during the activity.

For languages that are available through the Online Linguistic Support:

The Commission makes available an online tool for EVS volunteers with a view to assess their competence in the language they will use to carry out their volunteering abroad. This tool offers them, where necessary, the possibility to improve the knowledge of the language before and/or during the EVS. Such an online service will be gradually implemented in the course of the Programme. The linguistic support is provided as follows:

- at the time of applying for EVS, the applicant organisation will estimate the need for linguistic support for their participants - in the main language that volunteers will use to carry out their tasks;
- National Agencies allocate online licences to beneficiary organisations according to general criteria specified by the European Commission;
- once selected, all volunteers (except native speakers and in duly justified cases) benefiting from the online service must carry out an online language test to assess their competences in the foreign language they will use during their EVS. The results of this assessment will be communicated to the volunteers and will not have any influence on their possibility to go abroad;
- based on the number of online licences available for language courses, the volunteers who need linguistic support may be offered the possibility to follow an online language course;
- at the end of their EVS, volunteers will carry out a second online language assessment to measure the progress made in the language used for volunteering. The results will be communicated to the volunteer, to the coordinating organisation upon request, and could thereafter be integrated in the Youthpass certificate.

In the initial stages of the Programme, the online assessment and courses will not be provided in all EU languages and language courses may not be available for all participants requesting them. Further details are made available on the websites of the Commission and National Agencies.

For languages that are not available through the Online Linguistic Support:

For languages not covered by the online service, support for language learning must be arranged by the participating organisations in the youth mobility project. A specific grant for "linguistic support" may be provided for that purpose. Beneficiaries of this grant should encourage participants to start learning the language before their EVS. Furthermore, organisations involved in a youth mobility project can use the "organisational support" grant to address the needs of participants in terms of pedagogical, task-related, intercultural or specific linguistic preparation (see the "funding rules" section in Part B of this Guide).

PRE-DEPARTURE TRAINING

Pre-departure training is the responsibility of the EVS organisations (usually the sending organisation or the coordinating organisation) and gives volunteers an opportunity to talk about their expectations, develop their motivation and learning

objectives, and obtain information on their host country and on the Erasmus+ Programme. In addition, a one-day pre-departure training aimed at establishing contacts with the outgoing volunteers may be organised.

2. DURING MOBILITY

EVS TRAINING AND EVALUATION CYCLE

EVS volunteers have the right and obligation to participate in the following EVS training and evaluation sessions, organised in line with the document "[EVS Volunteer Training and Evaluation Cycle: Guidelines and Minimum Quality Standards of the European Commission](#)", available on the website.

WHO ORGANISES THE EVS TRAINING AND EVALUATION CYCLE?

The responsibility for organising the EVS Training and Evaluation Cycle depends on where the events are to take place:

- in Programme Countries: the training/evaluation is organised by the National Agencies;
- in Partner Countries neighbouring the EU (region 1-4): the training/evaluation is organised respectively by SALTO SEE, SALTO EECA and SALTO Euromed Resource Centres¹⁵⁹ in the countries covered by each of the centres respectively;
- in other Partner Countries: training and evaluation sessions are not organised by National Agencies or SALTOs. It is responsibility of the participating organisations to ensure that the volunteers receive an on-arrival training and that they are provided a space for carrying out a mid-term evaluation of their EVS experience. In this regard, for EVS activities organised within the framework of Capacity Building in the youth field, the costs linked to such preparation can be covered under the item "activity costs".

As soon as the contract is signed by both parties, the coordinating organisations should immediately fill out the information about the volunteer(s) in Mobility Tool+ and contact the relevant National Agency or the SALTO Resource Centre in order to allow those structures to organise the Training and Evaluation sessions for the volunteers involved in their project.

In any case, beneficiaries are always encouraged to provide additional training and evaluation opportunities to the volunteers, even if no specific funds are allocated for that purpose within the project grant. All relevant providers of training and evaluation activities in EVS should provide information about Youthpass.

For projects lasting less than 2 months, participating organisations have the responsibility to organise preparation sessions that are adapted to the needs of the volunteers and/or to the type of EVS activity. Within the framework of mobility projects, the costs linked to such preparation can be covered under the item "exceptional costs" (see "funding rules" section in Part B of this Guide). Within the framework of large scale EVS events, the costs linked to such preparation can be covered under the item "activity costs".

3. AFTER MOBILITY

RECOGNITION OF LEARNING OUTCOMES - YOUTHPASS

Every young person, volunteer or youth worker taking part in a youth mobility project is entitled to receive a Youthpass certificate. Youthpass describes and validates the non-formal and informal learning experience acquired during the project (learning outcomes). Youthpass can also be used during the project activities as a tool to help participants to become more aware of their learning process. For support and more information on Youthpass, please consult the Youthpass guide and other relevant material at www.youthpass.eu.

4. MOBILITY OF YOUNG PEOPLE AND YOUTH WORKERS OUTSIDE MOBILITY PROJECTS

Beyond the mobility projects under Key Action 1, the Erasmus+ Programme supports mobility of young people and youth workers also under Large-scale EVS projects, Strategic Partnerships and Capacity Building in the field of youth. In these cases, if applicable, the participating organisations must follow the same principles and quality standards set for the activities funded within the framework of mobility projects.

ERASMUS MUNDUS JOINT MASTER DEGREES

1. CONDITIONS RELATING TO THE DESIGN OF THE ERASMUS MUNDUS JOINT MASTER DEGREES

An EMJMD must be fully developed at the time of the application and be ready to run for three consecutive editions as from the second academic year following the application if the consortium opts for a preparatory year after being selected. The EMJMD consortia that have opted not to implement a preparatory year are expected to run the first edition of the Master immediately, thus the first academic year following their selection.

In order to comply with the minimum requirements set in the Programme Guide, HEIs established in a Programme Country must be able to demonstrate the accreditation of each degree-awarding Master programme on the basis of which the EMJMD programme is composed. Besides accreditation, national Master degree-awarding programmes must be mutually recognised by the consortium HEI partners from Programme Countries. If the proposed EMJMD study programme is the result of a completely new curriculum that cannot be associated with an already existing and accredited national Master programme, then the accreditation of the EMJMD must be confirmed at application stage. In addition, applicants should note that the process of recognition of EMJMD study periods within the consortium must have been agreed before the first EMJMD student intake starts.

Programme Country HEIs acting as partners in the consortium must be Master degree-awarding institutions with the capacity to issue either a joint or a multiple degree (at least a double degree) for EMJMD graduates. Consortia must also ensure that all graduated students are provided with a [joint Diploma Supplement](#) at the end of their study period, covering the entire content of the Master programme.

Unless applicants explicitly opt out, the first year will be a preparatory and promotion/awareness-raising year during which the programme will be advertised and the first intake of students selected. EMJMDs must ensure joint/common procedures for student admission requirements¹⁶⁰, teaching/training activities, quality assurance mechanisms, student examination and performance evaluation, consortium administrative and financial management, the nature/scope of services offered to students (e.g. language courses, visa support), etc. All students must be covered by a health and insurance scheme chosen by the consortium. This scheme must respect the minimum EMJMD requirements as defined in the respective guidelines available on the Executive Agency website.

These elements are crucial to demonstrate full integration of an EMJMD course and its implementing consortium. Therefore it is expected that a draft Consortium Agreement is provided at application stage which covers these and other important items in a clear and transparent manner. The existence of an up-to-date, comprehensive, and robust draft Consortium Agreement is a sign of the readiness of the partners and maturity of the application.

The EMJMD consortium will need to design joint promotion and awareness-raising activities in order to ensure worldwide visibility of the joint study programme as well as of the Erasmus+ scholarship scheme. These activities will necessarily include the development of an integrated and comprehensive course website (in English, as well as in the main teaching language if different) providing all the necessary information on the EMJMD for students and future employers, prior to the first scholarship application round.

The student application procedure and submission deadline should be designed in such a way that it provides the students with all the necessary information well in advance and with enough time to prepare and submit an application (i.e. at least 4 months before the scholarship deadline). The consortium is also encouraged to organise language courses in the language of the host institutions and offer courses in other widely spoken languages. Visibility will be supported through the Commission and Executive Agency websites, via National Agencies and EU Delegations. Guidelines on EMJMD websites can be found on the Executive Agency website.

2. CONDITIONS RELATING TO MASTER STUDENTS

Master students wishing to enrol in an EMJMD must have previously obtained a first higher education degree¹⁶¹ or demonstrate a recognised equivalent level of learning according to national legislation and practices. Each EMJMD consortium will be responsible for defining its specific student application procedure and selection criteria in accordance with the requirements and guidelines available on the Executive Agency website. In this context, student candidates can apply for an EMJMD scholarship to any of the Erasmus+ Erasmus Mundus courses of their choice (EMJMD catalogue

¹⁶⁰ The selection procedure must be organised in a way to ensure that the best students worldwide are selected.

¹⁶¹ While this condition must necessarily be fulfilled at the time of enrolment, EMJMD consortia may decide to accept scholarship applications from students in the last year of their first higher education degree.

available at the following webpage: http://eacea.ec.europa.eu/erasmus-plus/library/emjmd-catalogue_en), but are limited to a maximum of three different joint programmes per academic year.

Erasmus+ EMJMD student scholarships can be offered to students from any region of the world. Consortia will have to take geographical balance into account – i.e. no more than 3 candidates from the same country (/with the same nationality) should be awarded an EMJMD scholarship during the same intake. Students with double nationality must specify the nationality under which they submit their scholarship application. However, particular rules may apply in case of additional funding for specific regions of the world. EMJMD consortia will also be encouraged to enrol self-funded students¹⁶² representing approximately 25% of the Erasmus+ scholarship holders.

EMJMD student scholarships are awarded for participation in the complete EMJMD programme. Scholarship holders cannot transfer university credits from courses taken prior to their enrolment in their EMJMD for the purpose of reducing their mandatory activities in the joint programme. Furthermore, EMJMD scholarship holders cannot at the same time be beneficiaries of a grant for student or staff mobility in the framework of other higher education programmes funded by the EU budget, and *vice versa*.

In order to guarantee full transparency in the EMJMD implementation rules, as well as to define the rights and responsibilities of enrolled students towards the EMJMD consortia, both parties (i.e. accepted students and EMJMD consortia) will have to sign a Student Agreement (see model on the Executive Agency website) prior to student enrolment in the EMJMD. This Student Agreement will cover all the academic, financial, administrative, behavioural, etc. aspects related to the EMJMD implementation and, for the scholarship holders, the scholarship management. It should include performance indicators for the successful acquisition of minimum ECTS credits (and the consequences in case of failure to acquire them), information about the services provided to the student, as well as details related to health/social security, mobility requirements, and thesis/exam/graduation rules, etc. For transparency, the Student Agreement template must be published on the EMJMD website of the consortium (all EMJMDs must have a specific webpage).

3. CONDITIONS RELATING TO MONITORING AND QUALITY ASSURANCE

In order to effectively monitor the implementation of EMJMD courses, the beneficiary consortia will need to apply a number of monitoring and Quality Assurance (QA) mechanisms:

- definition of a joint QA plan with common evaluation methods and criteria, agreed implementation timetable/milestones and follow-up actions. The QA procedure will need to be embedded in the EMJMD project design at application stage, notably internal and external evaluation exercises, feedback on indicators (e.g. employability of graduates, sustainability), etc. QA findings and conclusions drawn will be reported by the consortium to the Executive Agency;
- submission of regular progress reports (some of which will condition the payment of the next grant instalments);
- quantitative and qualitative monitoring of the student mobility and performance (in terms of activities implemented, ECTS credits acquired and degree awarded) through the Executive Agency online Mobility Tool (EMT);
- liaison and cooperation (where applicable and expected) with the EM Alumni Association (EMA website: www.em-a.eu);
- joint meetings of the participating HEIs, student representatives, Executive Agency programme officer(s), staff of the National Agencies concerned and, when needed, external experts; at least two meetings will have to be organised by the EMJMD consortium during the period covered by the grant agreement;
- feedback from the enrolled students;
- participation in thematic cluster meetings organised by the Commission, the National Agencies or the Executive Agency to support exchange of good practice and mutual learning.

4. SELECTION PROCEDURE OF EMJMD CONSORTIA

The main objective of the EMJMD programme is to attract, select, and fund excellence; this should be understood both in terms of academic quality of the main actors (participating organisations and EMJMD Master students), as well as in terms of the implementation capacity of the consortia which are expected to carry out an integrated international study programme with students from Programme and Partner Countries. The main aim of the selection procedure for EMJMD projects will therefore focus on selecting excellent projects offering enhanced employment prospects to graduates. In order to be able to identify and concentrate on the best proposals in a highly competitive selection, a two-step quality review will be applied.

¹⁶² Self-funded students are either self-paying students or students who have been awarded a scholarship from another scheme.

Step 1: Independent academic experts will assess the first award criterion "Relevance of the project" focusing on the pertinence of the proposal in its different aspects. Only those proposals that pass the minimum threshold under this criterion will go through to the next step of the selection.

Step 2: Independent academic experts will assess the remaining award criteria, i.e. Quality of the project design and implementation, Quality of the project team and the cooperation arrangements, Impact and dissemination. This will result in a ranking list of all proposals. Only proposals which have scored at least 70 points in total will be considered for funding.

The applicants have the option to apply for additional scholarships for targeted groups of Partner Countries, defined under the "Additional scholarships for students from targeted regions of the world" section. To assess this additional part of the proposal, under step 2, the independent academic experts will analyse and evaluate the answers given for the additional award criterion: "Relevance of the project in the targeted region(s)". Only proposals which score at least 2.5 points (50%) will be considered for additional scholarships.

The assessment of the additional criterion will not influence the original ranking list produced from the evaluation of the four award criteria (Relevance of the project, Quality of the project design and implementation, Quality of the project team and the cooperation arrangements, Impact and dissemination).

STRATEGIC PARTNERSHIPS

1. PROJECT FORMATS

Strategic Partnerships support a wide and flexible range of activities in order to implement innovative practices, promote development and modernisation of organisations, and support policy developments at European, national and regional level.

Depending on the objectives of the project, the participating organisations involved, the expected impact, and other elements, Strategic Partnerships can be of different sizes, and adapt their activities accordingly. In simplified terms, this action enables participating organisations to gain experience in international cooperation and to strengthen their capacities, but also to produce high quality innovative deliverables. The quality assessment of the project application will be proportional to the objectives of the cooperation and the nature of the organisations involved.

The section below provides ideas on the types of activities that can be carried out within a Strategic Partnership either promoting a cross-sectoral cooperation or addressing a given field of education, training and youth. This section is purely illustrative and does not prevent participating organisations planning their project in a different way.

ACTIVITIES:

- curricula, courses, joint study programmes, common modules (including e-modules), integration of a greater variety of learning modes (distance, part-time, modular learning);
- learning, teaching, training, youth work materials and methods, pedagogical approaches and tools;
- project-based collaboration, peer-learning, workshops, virtual laboratories, virtual collaboration spaces;
- capacity building and networking activities;
- elaboration and implementation of strategic cooperation plans;
- information, guidance, coaching and counselling activities;
- surveys, comparative analyses, evidence-gathering, studies of real life cases;
- definition of qualitative standards and competence-based/occupational profiles;
- improvement of qualifications frameworks, credit transfer, quality assurance, recognition and validation;
- training, teaching and learning activities (see paragraph 2 below).

Furthermore, all Strategic Partnerships will be expected to undertake a targeted and wide dissemination of their results so as to encourage their wider use and increase their impact beyond the organisations directly participating in the project. The requirements for dissemination will be proportional to the objective and scope of the project.

Organisations, institutions from different fields of education, training and youth, as well as from other socio-economic sectors can jointly cooperate in order to achieve – through their projects – the objectives in one or in several fields of education, training and youth. The following typologies of activities are particularly meaningful in each given field to achieve the policy objectives described in Part B of the Guide, within or across sectorial boundaries.

¹⁶³ Content and language integrated learning.

2. TRAINING, TEACHING AND LEARNING EMBEDDED IN STRATEGIC PARTNERSHIPS

Strategic Partnerships may also organise training, teaching and learning activities of individuals, in so far as they bring added value in the achievement of the project's objectives. Some of these activities are particularly relevant in one or more fields of education training and youth, and notably

Blended mobility of learners	All fields of education, training and youth

Short-term exchanges of groups of pupils	School education
Intensive Study Programmes	Higher education
Long-term study mobility of pupils	School education
Long-term teaching or training assignments	Higher education, VET, School and Adult education

The sections below, provide additional descriptions of the activities listed above.

LEARNERS

INTENSIVE STUDY PROGRAMMES (5 DAYS TO 2 MONTHS)

An Intensive Study Programme (ISP) is a short programme of study which brings together students and teaching staff from participating higher education institutions as well as other relevant experts/specialist/professionals in order to:

- encourage efficient and multinational teaching of specialist topics;
- enable students and teachers to work together in multinational and multidisciplinary groups and so benefit from special learning and teaching conditions not available in a single institution, and to gain new perspectives on the topic being studied;
- allow members of the teaching staff to exchange views on teaching content, new curricula approaches, to test innovative teaching methods that could eventually become part of a newly devised joint course or curriculum in an international classroom environment.

Desirable features of an ISP are the following:

- ISPs should provide significantly new learning opportunities, skills development, access to information and to state-of-the-art research results and other knowledge, etc. for the participating teachers and students;
- the workload of participating students should be recognised through ECTS credits (or equivalent system);
- ISPs are expected to use ICT tools and services to support the preparation and follow-up of the ISP, thereby contributing to the creation of a sustainable learning community in the subject area concerned;
- the ratio of staff to students should guarantee active classroom participation;
- a balance should be kept between the participation of transnational and national students and staff;
- the ISP should present a strong multidisciplinary approach, fostering the interaction of students from different academic disciplines;
- in addition to the learning outcomes on subject-related competences, ISPs should favour the transfer of transversal competences.

The selection of ISP participants (teaching staff and students) is carried out by the Strategic Partnership consortium.

The number of teaching and training hours must ensure that the majority of time spent abroad is related to education and training and not to research or any other activity.

BLENDED MOBILITY OF STUDENTS, TRAINEES, ADULT LEARNERS, SCHOOL PUPILS, YOUNG PEOPLE (5 DAYS TO 2 MONTHS OF PHYSICAL MOBILITY)

Activities that combine one or more short periods of physical mobility (up to 2 months in total) with virtual mobility (i.e. the use of information and communication technologies such as collaborative workspaces, live streaming, videoconferencing, social media, etc. to complement or prolong the learning outcomes of physical mobility). It can be used to prepare, support and follow up physical mobility. It can also be organised to address people with special needs or with fewer opportunities to help them overcome the barriers to long-term physical mobility.

SHORT-TERM EXCHANGES OF GROUPS OF PUPILS (5 DAYS TO 2 MONTHS)

Short-term exchanges of groups of pupils can be organised between schools from different countries participating in the same Strategic Partnership. During such events, pupils work together in one of the partner schools and can be hosted in each others' families. Joint project work during the visits should be linked to the aims of the Strategic Partnership. Please note that the cooperation between schools in a partnership should not be limited to such events but also include common online and local activities. Schools are encouraged to use eTwinning in order to work together on the project before and after the mobility events.

Pupils undertaking short-term exchanges should always be accompanied by adults to ensure their protection and safety, as well as their effective learning during the mobility experience.

Joint project work events during the visits should give pupils and teachers in different countries an opportunity to work together on one or more topics of mutual interest. They help pupils and teachers to acquire and improve skills not only in the topic or subject area on which the project is focused, but also in terms of teamwork, intercultural learning, social relations, planning and undertaking project activities and using information and communication technologies (ICT). Participating in joint project work with groups of pupils from partner schools from different countries also gives pupils and teachers the opportunity to practice foreign languages and increases their motivation towards language learning.

Project activities should ideally be integrated into the regular activities of the schools and be included in the curriculum of participating pupils. Pupils should be able to be involved in all phases of the project, including the planning, organisation and evaluation of activities.

LONG-TERM STUDY MOBILITY OF PUPILS (2 TO 12 MONTHS)

The aim of the activity is to strengthen the cooperation between the schools involved in the same Strategic Partnership. The mobility activities should be linked to the aims of the Strategic Partnership and need to be embedded in the project design. Schools are encouraged to use eTwinning in order to work together on the project before, during and after the mobility activities of pupils. These measures should help in maximising the impact on participating schools. The activity also allows pupils to develop their understanding of the diversity of European cultures and languages, and helps them acquire competences necessary for their personal development. The schools involved in the partnership should work together on developing learning agreements, recognising the studies undertaken at the partner school abroad and strengthening the European dimension in school education. This activity should also be a valuable international pedagogical experience for the teachers involved in the organisation and implementation of the mobility.

Participants are selected by the schools. They need to be pupils aged at least 14 and be enrolled full-time in a school participating in the Strategic Partnership. Selected pupils can spend between 2 and 12 months in a receiving school and a host family abroad.

A reciprocal exchange of pupils between schools/host families is encouraged but is not compulsory.

All actors involved in the study mobility – schools, pupils, their parents and host families – should consult the specific Guide to Study Mobility of Pupils which aims to help them in implementing the activity and ensure the safety and well-being of the pupils involved. The Guide specifies roles and responsibilities, gives guidance and provides the necessary templates and forms for participants. The Guide is available in English at the Europa website and in translation at the website of the relevant National Agency.

ONLINE LINGUISTIC SUPPORT

Participants in long-term mobility activities (2 to 12 months) within a Strategic Partnership can benefit from linguistic preparation. In this regard, an online linguistic support will be gradually implemented in the course of the Programme. Such online support is made available by the European Commission to selected pupils, with a view to assess their competence in the language they will use to study abroad. This tool also offers them, where necessary, the possibility to improve the knowledge of the language before and/or during the mobility period.

When implemented for schools, the online linguistic support will be provided as follows:

- National Agencies allocate online licences to schools according to general criteria specified by the European Commission.
- Once selected all pupils (except native speakers) benefiting from the online service will carry out an online test to assess their competences in the language they will use for studying. The results of this test will be communicated to the pupil and the school.
- Based on the number of online licences available for language courses, schools will distribute licences according to needs.
- At the end of the mobility period, pupils will carry out a second assessment to measure the progress made in the foreign language.

Further details on the online linguistic support are made available on the websites of the European Commission and National Agencies.

For languages not covered by the Commission's service, a specific grant for "linguistic support" may be provided for that purpose.

STAFF IN EDUCATION AND TRAINING AND YOUTH WORKERS

JOINT STAFF TRAINING EVENTS (5 DAYS TO 2 MONTHS)

Joint staff training events allow the participating organisations in the Strategic Partnership to organise short training events for education and training staff or youth workers linked to the topic or scope of the Strategic Partnership. These should be organised for small groups of staff from different countries in order to maximise the impact on each participating organisation.

They can have various formats, i.e. study visits combining on-site visits to relevant organisations, presentations, discussion workshops, training courses, etc. A balance should be kept between the participation of transnational and national participants.

TEACHING AND TRAINING ASSIGNMENTS (2 TO 12 MONTHS)

The aim of the activity is to strengthen the cooperation between the organisations involved in the same Strategic Partnership. The activity allows staff to develop their knowledge and understanding of European education and training systems, and helps them share and acquire professional competences, methods and practices.

This activity allows teachers/professors and other educational staff in general school education, higher education, VET or adult education working in an educational institution participating in a Strategic Partnership to undertake an assignment of 2 to 12 months abroad, teaching in a partner institution or engaging in professional activities in another partner organisation related to the field of their expertise. The activity may consist of work in an educational institution/centre or other relevant organisation (e.g. enterprises, NGOs, school authorities, etc.), participation in structured courses or seminars (e.g. in teacher training colleges or research organisations), placements or observation periods in a company or organisation in the field of education, training or youth.

The sending institution has to ensure a fair, transparent and open selection process, to develop the content of the activity with the participant and to ensure an internal and as far as possible external recognition of this long-term mobility abroad.

As regards teaching and training assignments in higher education, the following types of sending and receiving organisations are eligible:

- For long-term staff mobility for teaching, the sending organisation can be any participating organisation while the receiving organisation must be a participating HEI.
- For long-term staff mobility for receiving training, the sending organisation must be a participating HEI while the receiving organisation can be any participating organisation.
- The sending and receiving organisations must be located in different countries and the receiving country must be different from the country of residence of the participant.

The organisations involved in the Strategic Partnership work together on developing mobility agreements, recognising the work undertaken at the partner organisation abroad and strengthening the European dimension in education and training. This activity should also be a valuable international experience for those involved in the organisation and implementation of the mobility activity at both the sending and the receiving organisation.

MOBILITY OF YOUTH WORKERS (2 TO 12 MONTHS)

This activity allows youth workers to experience a different working reality than the one in their home countries, increasing their professional, personal and intercultural competences. Youth workers have the possibility to work abroad for a period from 2 to 12 months actively contributing to the daily work of the receiving organisation, at the same time enriching their profile as professionals in the field. These activities also aim at strengthening the capacities of the organisations involved, benefiting from new perspectives and experiences. Mobility activities can be carried out either as individual activities (i.e. one youth worker being sent to a receiving organisation) or in pairs, as a mutual exchange of youth workers (simultaneously or not) between the two partner organisations.

ONLINE LINGUISTIC SUPPORT

Participants in long-term mobility activities within a Strategic Partnership can benefit from linguistic preparation. In this regard, an online linguistic support will be gradually implemented in the course of the Programme. Such online support is made available by the European Commission to selected staff and youth workers, with a view to assess their competence in the language they will use to study abroad. This tool also offers them, where necessary, the possibility to improve the knowledge of the language before and/or during the mobility period.

When implemented for staff and youth workers, the online linguistic support will be provided as follows:

- National Agencies allocate online licences to organisations according to general criteria specified by the European Commission.
- Once selected all participants (except native speakers) benefiting from the online service will carry out an online test to assess their competences in the language they will use for studying. The results of this test will be communicated to the participant.
- Based on the number of online licences available for language courses, organisations will distribute licences according to needs.
- At the end of the mobility period, participants will carry out a second assessment to measure the progress made in the foreign language.

Further details on the online linguistic support are made available on the websites of the European Commission and National Agencies.

For languages not covered by the Commission's service, a specific grant for "linguistic support" may be provided for that purpose.

TRANSNATIONAL YOUTH INITIATIVES

Strategic Partnerships in the field of youth also support the development of transnational youth initiatives fostering social commitment and entrepreneurial spirit, jointly carried out by two or more groups of young people from different countries.

For example, these initiatives may concern:

- the establishment of (networks of) social enterprises, associations, clubs, NGOs;
- the development and delivery of courses and trainings on entrepreneurship education (notably social entrepreneurship and use of ICTs;
- information, media literacy, sensitization actions, or actions stimulating civic commitment among young people (e.g. debates, conferences, events, consultations, initiatives around European topics, etc.);
- actions for the benefit of the local communities (e.g. support to vulnerable groups such as elderly people, minorities, migrants, disabled, etc.);
- artistic and cultural initiatives (theatre plays, exhibitions, music performances, discussion fora, etc.).

A Youth Initiative is a project initiated, set up and carried out by young people themselves. It gives young people the chance to try out ideas through initiatives, which give them an opportunity to be directly and actively involved in planning and carrying out a project. Participation in a Youth Initiative is an important non-formal learning experience. While implementing a Youth Initiative, young people have the opportunity to address specific challenges or problems encountered in their communities. They have the opportunity to discuss and reflect their chosen topic in a European context, to contribute to the construction of Europe.

A Youth Initiative must be transnational: a networking of local activities jointly carried out by two or more groups from different countries. Cooperation with international partners in transnational Youth Initiatives is based on similar needs or interests, in order to share practices and learn from peers.

Youth initiatives enable a large number of young people to become inventive and creative in their daily life and to speak out on their local needs and interests but also on the challenges faced by the communities they live in.

Young people can try out ideas by initiating, setting up and carrying out a project affecting various areas of life. Youth Initiatives can also lead to the self-employment or setting up of associations, NGOs or other bodies active in the area of social economy, no-profit and youth fields.

Young people carrying out transnational Youth Initiatives may be supported by a coach. A coach is a resource person who has youth work and/or Youth Initiatives experience to accompany groups of young people, facilitate the learning process and support their participation. S/he plays different roles depending on the needs of a given group of young people.

The coach remains outside the Youth Initiative but supports the group of young people in the preparation, implementation and evaluation of their project based on the needs of the group. Coaches support the quality of the learning process and they provide an on-going partnership designed to help a group or individuals produce fulfilling results in their projects. A coach is not: a project leader; a consultant/adviser; a member of the group carrying out the project; a professional trainer/expert providing only a technical support in a specific field; the legal representative of the project. If the Youth Initiative is carried out by minors, the support of a coach is compulsory.

3. EXAMPLES OF STRATEGIC PARTNERSHIPS

PROMOTION OF FLEXIBLE LEARNING PATHWAYS

Integrating practical and theoretical knowledge in higher education institutions' curricula can provide opportunities for students to gain the skills needed now and in the future on the labour market, and thus improve their future employability. A Strategic Partnership will support a project-based collaboration between enterprises and students and staff at HEIs, to develop, test and adapt a joint curriculum between participating HEIs, based on an exhaustive needs analysis and focusing on a "real-life" transnational approach. This will also imply teaching/learning activities, including exchange of personnel between HEIs and enterprises, and integrated ("embedded") mobility, in which students follow a joint programme, the components of which are taught by different partners and on different locations. The final result is the delivering of the joint curriculum and the dissemination to organisations beyond the partnership. The partnership consists of HEIs and enterprises, including SMEs and social enterprises, to ensure the necessary competence as well as the adequacy of the skills developed within the joint curriculum.

INTEGRATED LOCAL/REGIONAL DEVELOPMENT

The elaboration of integrated local/regional development plans can hugely benefit from the involvement of all the relevant stakeholders. A Strategic Partnership will develop, test and implement innovative course packages enriching each curriculum of the partner HEIs in view of delivering double certificates or double degrees. The project will involve key stakeholders and rely on their continuous supervision in particular via a specific Steering Group to ensure that the needs of local/regional actors are conveniently met. The project will also imply teaching/learning activities, including exchange of personnel between HEIs and student "blended" mobility. The final result is the integration of these course packages into the curriculum and the delivery of a double certificate/degree. The partnership includes higher education institutions, as well as local actors and local level public authorities.

The involvement of less experienced partners in the activities carried out can be gradual, ensuring that, at the latest in the last year of the project, all partners are integrated into the whole package of activities.

CREATIVITY AND INNOVATION

Small and medium-sized enterprises face the challenges of skill development and innovation without necessarily having adequate resources or the strategic vision to cope with fierce market competition. A Strategic Partnership supports the spread of a creative and innovative culture inside small businesses by transferring and implementing methodologies, tools and concepts that facilitate organisational development and product creation. Partners from the creative sectors and higher education institutions help the other partners to learn how to apply creative thinking successfully in their organisations and to develop the capacity for innovation and change.

One tangible outcome is the production of tailor-made action plans for creativity and innovation development based on previous analyses of success cases and methodologies. The partnership includes creative sectors, small-and medium-sized enterprises, employers' associations, chambers of commerce, industry or craft.

QUALITY OF EDUCATION

Local school authorities in Sweden, Denmark and UK partner up to propose a Strategic Partnership. The local authorities have identified a need to improve the quality of education in science, maths and technology, and have designed a project aiming to develop a joint framework for supporting pupils' involvement in learning. The objectives of the project are to improve the quality of education in maths and the natural sciences, and to increase the take-up of these subjects in upper secondary and higher education. The project is led by the two local authorities, and involves all primary and lower secondary schools in the respective areas. In addition, the local authorities have involved other partners from their local communities: universities, a media centre as well as several enterprises and business associations in the fields of technology, science and the environment. The project activities involve staff exchange between the participating organisations, with the aim of exchanging experiences and good practice. The partners share materials and resources, and develop units of cross-curricular work in maths, science and technology that are tested/implemented in primary and secondary schools. The business partners invite school classes for study visits to give pupils insight into the various practical applications of the topics they are working on. University students contribute as "study buddies" for pupils, providing additional one-on-one help with the subjects as well as serving as role models, motivating pupils to study science and technology. The project results in university cooperation on initial teacher education as well as further pedagogical cooperation and new projects between the schools involved.

INCREASING EDUCATION ATTAINMENT

Increasing the level of tertiary attainment, widening access and facilitating completion of higher education studies are major challenges in many countries. A Strategic Partnership will support the development of better progression routes into higher education and to graduation, with a specific focus on non-traditional learners, such as students from under-represented groups or with disadvantaged backgrounds, by transferring and testing innovative approaches. The Partnership will test how upper secondary students with specific backgrounds are prepared and guided before entering into higher education via collaboration between HEIs, schools and institutions active in the field of VET. Monitoring and support of this student population will also be tested, in particular via tailor-made services (guidance, counselling, coaching etc.) that aim at preventing drop-out and encouraging graduation within the expected time. The project will involve HEIs as well as upper secondary general and vocational education schools, ensuring that the services offered are adequate and match the identified needs. The project will also imply teaching/learning activities, including "blended" student mobility. The final result is the adaptation of the model, its implementation by participating HEIs and the dissemination to organisations beyond the partnership, aiming in particular at other education providers and key policy-makers.

INNOVATION

A Strategic Partnership will support the development of new pedagogical approaches and in particular e-learning tools and on-line collaborative platforms where pupils, students and teachers will be able to learn, teach and co-create content of courses. The Partnership composed of universities, schools, research organisations and/or enterprises will develop together the tools that schools and higher education institutions will use to teach and learn specific disciplines at different levels. Research organisations and/or enterprises will have a key role either to develop the tools or to make the content more relevant and concrete. In addition, intensive study programmes will be organised to test the tools developed by the partnership with students and teachers. Joint staff training events will also allow training the teachers in using the tools.

LANGUAGE SKILLS

A cross-sectoral Strategic Partnership aiming to support those families where more than one language is spoken, by developing language resources for children to show them the benefits of having two or more languages, both in terms of its intrinsic value and in view of concrete use they can make of it. This project addresses all stakeholders that work with bilingual families so that they can disseminate the project resources to them. Research is carried out to test the efficiency of the pedagogical approaches used to strengthen the language competences of multilingual children, both in the classroom and through informal learning. Partners include a university, several schools, a small and medium-sized enterprise (SME), an NGO and an association of adult learning institutions.

INFORMATION AND COMMUNICATION TECHNOLOGIES

A cross-sectoral project aiming to develop a shared vision on how ICTs can help making lifelong learning a reality for all based on real-life scenarios and insights. The use of ICT for learning in Europe is gaining ground, but to unleash its potential as a driver of change for our economies and societies, there is a need to move from fragmentation and piloting to articulation and system adoption. Partners include a range of higher education institutions, skills organisations that work across a number of different educational fields.

COOPERATION BETWEEN REGIONS

A Spanish, a Portuguese, an Italian and a Czech local authority partner up to explore the causes of early school leaving in their regions, and to develop new solutions to address it. They involve the secondary schools in their respective regions, as well as two teacher education institutions. Looking at the problem of early school leaving in a wider perspective, they want to address several aspects of young people's lives. Therefore, local youth organisations and parent associations are also invited to join the Strategic Partnership. The local authorities themselves are involved on a broad, cross-sectoral basis, including education departments, youth and social services.

The aim is to establish a permanent network in each region, bringing different actors and services together to create an effective support mechanism for young people.

The partner institutions work together through regular project meetings as well as an online community. First, they want to establish the extent of early school leaving in their area and explore its causes. Then they aim to find and implement effective ways of supporting young people at risk of exclusion. As part of the project activities they conduct surveys for pupils, teachers and families to investigate the reasons for early school leaving in their local context. They also organise workshops and seminars exploring a range of topics, for example the impact of informal learning opportunities.

As a result, they develop a common methodology which is implemented in the two regions. A guide for teachers, trainers and local authorities is published to support this. All results and materials are shared on the project website, through paper

publications, and through a conference in each of the regions. In this way, the methodology and resources developed by the project are introduced to other schools and local authorities.

EQUITY AND INCLUSION

Youth organisations, institutions, schools, VET providers and authorities in the youth field working with NEETs ("Not in Education, Employment, or Training") and drop-outs, come together with the aim of improving a methodology to have more young people back to education or work. In the frame of their Strategic Partnership they organise transnational meetings of staff to exchange practices and design the project, as well as carry out job shadowing and professional development activities of youth workers. At the same time, a research compilation in the field is conducted, and discussed during a transnational meeting where a final handbook is developed and plans the testing and evaluation of the improved methodology. To ensure sustainability and dissemination of project results, the Strategic Partnership foresees conferences at local, national and European level, as well as designs jointly a follow-up strategy.

OPEN EDUCATIONAL RESOURCES (OER)

Fire fighters can be killed or injured when responding to fires inside burning buildings. Practical training tailored to address critical situations inside burning buildings could prevent lethal accidents. A Strategic Partnership creates a learning package based on state-of-the-art methodology and technology. The final result is a blended e-learning programme that provides supplementary training in firefighting strategy and tactics to address the initial phase of an intervention to create capability for early, efficient emergency response. The e-learning is combined with practical exercises. The Strategic Partnership includes fire and rescue services, public authorities responsible for public safety and of course VET providers.

ACTIVE PARTICIPATION OF YOUNG PEOPLE IN SOCIETY

Three upper secondary schools from Finland, Germany and the Netherlands find each other on the eTwinning platform because they are all interested in developing a project on democracy in school. The three schools decide to apply for funding for a Strategic Partnership. The aim of the project is to develop school leadership by involving teachers, pupils and also parents in the school decision-making. The project lasts three years and each year the participating schools look at how each of these groups is currently involved in the school decision-making and how their participation could realistically be improved on the basis of what they learn from their partners. The project is supported by and actively involves the school management, teachers and parents. Participating pupils develop their autonomy and critical thinking skills, as well as their understanding of concepts such as freedom, rights and obligations. They also reflect on how they can contribute to make their school more relevant for them. Throughout the project activities, pupils are given the opportunity to express their opinions, to listen to the opinions of others, to discuss using relevant arguments, and to explain decisions using valid reasons. The project activities take place both through the project TwinSpace on the eTwinning site and face to face in two meetings where a group of pupils from each school participate with their teachers. School management and representatives of parents also participate in the meetings. In between project meetings, the partners also use the eTwinning site to collaborate on developing the project activities, discuss and share resources. Pupils write a collaborative blog where they post pictures and updates on project activities, as well as opinions and reflections on the topics they are working on. The blog, the teaching plans and learning materials developed in the project, as well as some of the pupils' work, are published through eTwinning and made available as a resource for others who want to conduct a similar project.

TRANSVERSAL SKILLS / BASIC SKILLS

With an aim of improving numeracy and financial literacy competences of disadvantaged adult groups (migrants, low-skilled, socio-economically disadvantaged, etc.), adult education organisations, in cooperation with local/regional authorities and social partners develop up-to-date training provisions by using new and adequate training methodologies and resources. Outputs, such as curricula, handbooks for trainers, kits/toolboxes for adult learners are tested by the partner organisations and validated by the relevant stakeholders. A targeted dissemination activity is a prerequisite for an impact not only on adult learners' competencies but at local/regional level as the project may offer tailored learning opportunities to disadvantaged groups leading to their integration into local society.

RECOGNITION AND VALIDATION OF LEARNING OUTCOMES

Partner organisations may give significant input to the process of validation of non-formal and informal learning. Considering the different situation in the partners, the exchange of ideas and experiences the Strategic Partnership may analyse the current state and propose recommendations for validation in their countries.

PROFESSIONAL DEVELOPMENT AND PROFESSIONALISATION IN YOUTH WORK

Inspired by the priorities of the EU Youth Strategy, a group of experienced youth workers establish a Strategic Partnership with people responsible for youth work at institutional level, youth think tanks, educational institutions specialised in youth

work, and researchers, in order to come up with a set of reference documents supporting youth workers in their activities dealing with mental health of young people. In the frame of the project, all partners come together to map and analyse key concepts as base for their research. They organise seminars with experts, meetings and study visits to document their work, as well as bring together young people and youth workers with experiences in the area of mental health in order to exchange good practices and ideas, with the final aim of publishing a book once the project is concluded and disseminating it among practitioners in the field.

CAPACITY BUILDING IN THE FIELD OF HIGHER EDUCATION

1. CLARIFICATIONS ON THE SCOPE OF THE EU GRANT

STAFF COSTS

The applicant will estimate the staff workload required on the basis of the category of staff concerned and the number of days to be worked on the project, in relation to the activities, the work-plan and the outputs and results foreseen. Working days might include week-end, obligation and bank holidays. For the sake of estimating the budget, working days per individual will not exceed 20 days per month or 240 days per year. The estimation of the budget results from applying Erasmus+ contribution to unit costs for staff. It is independent from the actual remuneration modalities that will be defined in the partnership agreement and implemented by the beneficiaries.

The profile of staff involved in capacity-building projects is regrouped in four categories:

- **Managers (staff category 1)** (including legislators, senior officials and managers) carry out top managerial activities related to the administration and coordination of project activities.
- **Researchers, teachers and trainers (RTT) (staff category 2)** typically carry out academic activities related to curriculum/training programme development, development and adaptation of teaching/training materials, preparation and teaching of courses or trainings.
- **Technical staff (staff category 3)** (including technicians and associate professionals) carries out technical tasks such as book-keeping, accountancy and translation activities. External translation services and external language courses provided by sub-contracted non-consortium members should be classified as “Sub-contracting costs”.
- **Administrative staff (staff category 4)** (including office and customer service clerks) carries out administrative tasks such as secretarial duties.

Actual remuneration modalities of staff involved in the project will be defined jointly by the participating organisations, endorsed by the managers responsible for their employment and will be part of the partnership agreement to be signed among the partners at the beginning of the project.

TRAVEL COSTS – STAFF

Any category of staff (e.g. managers, RTT, technical and administrative staff) under official contract in the beneficiary institutions and involved in the project may benefit from financial support for travel and subsistence provided it is directly necessary to the achievement of the objectives of the project.

Travels are intended for the following activities:

- Teaching/training assignments;
- Training and retraining purposes (only eligible for staff from Partner Countries);
- Updating programmes and courses;
- Practical placements in companies, industries and institutions (only eligible for staff from Partner Countries);
- Project-management related meetings (e.g. for management, coordination, planning, monitoring and quality control activities purposes);
- Workshops and visits for result dissemination purposes.

The duration of such travels must not exceed a maximum of three months.

TRAVEL COSTS – STUDENTS

Students (at short cycle, first cycle (Bachelor or equivalent), second cycle (Master or equivalent) and third or doctoral cycle) registered in one of the beneficiary institutions may benefit from financial support for travel and subsistence provided it supports the achievement of the project's objectives. Travels for students must take place in a participating organisation or in another organisation under the supervision of a participating organisation.

They must be targeted mainly at Partner Country students and intended for the following activities:

Activity	Duration
<ul style="list-style-type: none"> ▪ Study periods in a Partner Country institution; ▪ Study periods in a Programme Country institution (only for students from Partner Countries); ▪ Participation in intensive courses organised in a Programme or Partner Country institution; ▪ Practical placements, internships in companies, industries or institutions in a Partner Country; ▪ Practical placements, internships in companies, industries or institutions in a Programme Country (only for students from Partner Countries). 	Min. 2 weeks – Max. 3 months
<ul style="list-style-type: none"> ▪ Participation in short-term activities linked to the management of the project (steering committees, coordination meetings, quality control activities, etc.). 	Max. 1 week

Prior authorisation from the Executive Agency is required if the student concerned, intends to carry out activities not described above.

EQUIPMENT

The EU grant may be used to support the purchase of equipment. Only the purchase of equipment which is directly relevant to the objectives of the project can be considered as eligible expenditure. This could include, for example, (e-)books and periodicals, fax machines, photocopying machines, computers and peripherals (including notebooks/laptops and tablettes), software, machines and equipment for teaching purposes, laboratory supplies (teaching purposes), video-projectors (hardware) and video-presentations (software), television sets, installing/setting up of communication lines for internet connection, access to databases (libraries and electronic libraries outside the partnership) and clouds, equipment maintenance, insurance, transport and installation costs.

Equipment is intended exclusively for the Partner Country Higher Education Institutions which are included in the partnership where it must be installed as soon as practically possible. The equipment must be recorded in the inventory of the institution where it is installed. This institution is the sole owner of the equipment.

- Equipment should be instrumental to the objectives of the project and should therefore be purchased at the beginning of the project implementation period and preferably not later than four months before the end of the project.
- Under no circumstances may equipment be purchased for any Programme Country institution/organisation or for non-higher education institutions in the Partner Countries.
- Hiring of equipment may be considered eligible, but only in exceptional and duly justified circumstances and provided it does not continue beyond the duration of the Grant Agreement.
- Considering the particular nature of the Capacity Building action under the Erasmus+ programme, the total purchase cost of the equipment will be taken into account and not the equipment's depreciation.

In the event of purchasing equipment over €25.000, and less than €134.000, the beneficiaries must obtain competitive tenders from at least three suppliers and retain the one offering the best value for money, observing the principles of transparency and equal treatment of the potential contractors and taking care to avoid conflicts of interests. For purchase of equipment over €134.000 national legislations will be applicable. The beneficiaries may not split the purchase of equipment into smaller contracts below the threshold.

Applicants should be aware of the fact that the procurement and delivery of equipment to Partner Country institutions is often a rather complex procedure and this should be taken into consideration at the planning stage.

SUB-CONTRACTING

Subcontracting is intended for specific, time-bound, project-related tasks which cannot be performed by the consortium members themselves. It includes self-employed / free-lance experts. Sub-contracting to external bodies should be very occasional. The specific competences and particular expertise needed to reach the project objectives should be found in the consortium and should determine its composition. Sub-contracting for project-management related tasks is therefore not allowed.

Typical activities which may be sub-contracted are (provided they are not carried out by beneficiaries' staff):

- Evaluation activities and auditing
- IT courses
- Language courses
- Printing, publishing and dissemination activities
- Translation services
- Web design and maintenance

In all cases, tasks to be subcontracted have to be identified in the proposal (based on relevant supporting information, along with clear reasons as to why the task cannot be carried out by the beneficiaries) and the estimated amount entered in the budget. Sub-contracting initially not foreseen in the budget will need prior written approval from the Agency during project implementation.

In the event of subcontracting over €25.000, and lower than €134.000, the beneficiaries must obtain competitive tenders from at least three suppliers and retain the one offering best value for money, observing the principles of transparency and equal treatment of potential contractors and taking care to avoid conflicts of interests. For purchase of equipment over €134.000 national legislations will be applicable. The beneficiaries may not split the purchase of services into smaller contracts below the threshold.

Subcontracting must be done on the basis of a contract, which should describe the specific task being carried out and its duration. It must include a date, project number and the signature of both parties.

Staff members of co-beneficiaries are not allowed to operate in a subcontracting capacity for the project.

The actual travel costs and costs of stay related to subcontracted service providers have to be declared under the subcontracting budget heading and be justified and documented.

2. FINANCIAL REPORTING AND FINAL CALCULATION OF THE GRANT

For each project, the budget foreseen is laid down in the Grant Agreement and has to be used according to the provisions included therein. Projects may increase budget headings, by means of transfer from another budget heading, up to a maximum of 10% without prior authorisation, even if the increased amount exceeds the maximum ceilings for staff, equipment and sub-contracting.

Requests to increase budget headings by more than 10% must be presented in writing to the Agency and will lead to an amendment. If, as a consequence of the increase, the maximum ceilings for staff, equipment and sub-contracting costs are exceeded, the request will not be accepted.

At reporting stage, the Executive Agency will request the partners to provide information about the co-funding provided for statistical purpose.

STAFF COSTS

For the purposes of any financial evaluation and/or audit, beneficiaries will have to be able to justify / prove the following :

- the existence of a formal contractual relationship between the employee and the employer.
- the declared workloads are identifiable and verifiable. Evidence is required of work completed and time spent on the project (e.g. attendance lists, tangible outputs / products, compulsory time sheets);
- no justification will be asked to prove the level of expenses.

At financial reporting stage, a duly filled-in staff convention for each person employed by the project must be attached to the project accounts and retained by the co-ordinator as supporting documents. The conventions must be signed by the person concerned, then signed and stamped by the person responsible (e.g. the dean) in the institution where this person is normally employed. For staff performing different categories of tasks a separate convention must be signed for each type of activity.

In addition, time-sheets have to be attached to each staff convention. They must indicate:

- the date of the service provided;
- the number of days worked on these dates;
- the tasks performed (short description) in relation to the activity plan.

The time-sheets must be signed by the person concerned and countersigned by the person responsible in the institution

where this person is normally employed. Supporting documents should not be sent with the financial report at the end of the project. The staff conventions (with supporting time-sheets) should, however, be retained with the project accounts.

At this stage, the Executive Agency will verify the eligibility of the activities implemented on the basis of the report sent by the co-ordinator (see Annex of the Grant Agreement- "Final Report"). If there are doubts about any particular point, the Agency may request that all the supporting documents be forwarded.

The actual contribution of the EU will be re-calculated globally for the overall project, using the unit cost approach, on the basis of the actual human resources mobilised. The EU contribution to the staff costs cannot exceed 110% of the absolute amount indicated in the grant agreement or its amendments.

TRAVEL COSTS AND COSTS OF STAY

For the purposes of any financial evaluation and/or audit, beneficiaries will have to be able to justify / prove the following:

- the journeys are directly connected to specific and clearly identifiable project-related activities.
- the journeys actually took place (boarding pass, hotel invoices, attendance list, etc.). No justification will be requested as regards the actual costs of travels and costs of stay.

At financial reporting stage, for each journey, an Individual Mobility Report must be attached to the project accounts and retained by the co-ordinator as supporting documents. Supporting documentation will have to be attached to each mobility report in order to demonstrate the fact that the trip actually took place (e.g. travel tickets, boarding passes, invoices, receipts, attendance list). It will not be necessary to prove the actual cost of the travel.

Supporting documents should not be sent with the financial report at the end of the project. The Individual Mobility Reports should, however, be retained with the project accounts.

At this stage, the Executive Agency will verify the eligibility of the activities implemented on the basis of the report sent by the co-ordinator (see Annex of the Grant Agreement - "Final Report"). If there are doubts about any particular point, the Agency may request that all the supporting documents be forwarded.

The actual contribution of the EU will be re-calculated globally for the overall project, using the unit cost approach, on the basis of the actual human resources mobilised. The EU contribution to staff costs cannot exceed 110% of the absolute amount indicated in the grant agreement or its amendments.

EQUIPMENT

For the purposes of any financial evaluation and/or audit, beneficiaries will have to be able to justify / prove the following elements:

- the declared costs are identifiable and verifiable, in particular have been recorded in the accounting system of the beneficiary.
- the equipment is properly registered in the inventory of the institution concerned.

Supporting documents should not be sent with the financial statement. The following should, however, be retained with the project accounts:

- Invoice(s) for all purchased equipment (please note that order forms, pro-forma invoices, quotations or estimates are not considered as proof of expenditure).
- When the threshold of EUR 25 000 is exceeded, documentation on the tendering procedures. In such cases, the beneficiaries may not split the purchase of equipment into smaller contracts with lower individual amounts.

At financial reporting stage, the Executive Agency will take note of the expenses on the basis of financial statements (lists of expenses) sent by the co-ordinator (see Annex of the Grant Agreement- "Final Report"). Executive Agency staff will examine these lists in detail to verify the eligibility of expenses. If there are doubts on any particular point, the Agency may request that all the supporting documents be forwarded.

Please note however, that when the total value of the invoice amounts to more than EUR 25 000, the copies (not originals) of the invoice and the comparable offers must be sent as supporting documents with the financial statement. At this stage, eligible equipment costs cannot exceed 110% of the absolute amount indicated for equipment in the grant agreement or its amendments.

SUB-CONTRACTING

For the purposes of any financial evaluation and/or audit, beneficiaries will have to be able to justify / prove the following :

- the existence of a formal contract.

- the declared costs are identifiable and verifiable, in particular being recorded in the accounting system of the beneficiary.

Supporting documents should not be sent with the financial statement. The following should, however, be retained with the project accounts:

- Invoices, subcontracts and bank statements.
- In the case of travel activities of subcontracted service provider, individual mobility reports (Annex) together with all copies of travel tickets, boarding passes, invoices and receipts, or for car travel, a copy of the internal regulations on the reimbursement rate per km. The aim of the supporting documentation is to demonstrate the actual cost of the travel and the fact that the trip actually took place.
- When the threshold of EUR 25 000 is exceeded, documentation on the tendering procedures. In such cases, the beneficiaries may not split the purchase of equipment into smaller contracts with lower individual amounts.

At financial reporting stage, the Executive Agency will take note of the expenses on the basis of financial statements (lists of expenses) sent by the co-ordinator. The Executive Agency will examine these lists in detail to verify the eligibility of expenses. If there are doubts on any particular point, the Agency may request that all the supporting documents be forwarded. Please note however, that when the total value of the subcontract amounts to more than EUR 25,000, the copies (not originals) of the subcontract, the invoice and the comparable offers must be sent as supporting documents with the financial statement. At this stage, eligible sub-contracting costs cannot exceed 110% of the absolute amount indicated for sub-contracting in the Grant Agreement or its amendments.

FINAL CALCULATION OF THE GRANT

At reporting stage, at the end of the project, the actual contribution of the EU will be re-calculated globally for the overall project, using the unit cost (for salaries, travels and costs of stay) and real cost (for equipment and sub-contracting) approaches, on the basis of the actual activities carried out. The EU contribution to the different budget headings cannot exceed 110% of the absolute amount indicated in the Grant Agreement or its amendments.

3. OTHER RULES FOR THE MOBILITY OF STUDENTS AND STAFF (SPECIAL MOBILITY STRAND)

BEFORE MOBILITY

a. INTER-INSTITUTIONAL AGREEMENT

Higher education institutions commit themselves to comply with all the principles of the Erasmus Charter for Higher Education to ensure mobility of high quality, including these: "ensure that outgoing mobile participants are well prepared for the mobility, including having attained the necessary level of linguistic proficiency" and "provide appropriate linguistic support to incoming mobile participants". Advantage can be taken of existing facilities within the institutions for language training.

In all cases, beneficiaries will be contractually obliged to deliver such high quality services and their performance will be monitored as part of the general monitoring of the Capacity-building projects taking into account also the feedback provided by students and staff via Mobility Tool+ (see below).

As a result, student and staff mobility shall take place as part of an inter-institutional agreement between HEIs. This inter-institutional agreement, in the case of mobility between Programme Countries and eligible Partner Countries (and between eligible Partner Countries) will lay down the general principles that are adhered to in the ECHE and both sides will commit to implementing them.

The inter-institutional agreement may also be extended to cover student mobility for traineeships and/or staff mobility for training, relying on their partner institutions' knowledge of enterprises to identify receiving enterprises/organisations in their country.

It is important to note that institutions must have in place effective procedures and arrangements to promote and guarantee the safety and protection of the participants in their project. In this regard, all students and staff, involved in a mobility activity must be insured against the risks linked to their participation in these activities. It is up to the project organisers to seek the most suitable insurance policy according to the type of project carried out and the type of insurance available at national level. Furthermore, it is not necessary to subscribe to a project-specific insurance, if the participants are already covered by the existing insurance policies of the project organisers.

In either case, the following areas must be covered:

- wherever relevant, travel insurance (including damage or loss of luggage);

- third party liability (including, wherever appropriate, professional indemnity or insurance for responsibility);
- accident and serious illness (including permanent or temporary incapacity);
- death (including repatriation in case of projects carried out abroad).

b. MOBILITY TOOL

When the participants are selected, and at the latest when they start their mobility, the beneficiary organisation must encode general information regarding the participant and the type of mobility activity s/he will carry out (e.g. participant name, destination, duration of the mobility, etc.) into the Mobility Tool. The Mobility Tool will support the beneficiary in the management of the Erasmus+ mobility activities. The beneficiary organisation is also responsible for updating the Mobility Tool with any changes which have taken place to participants or activities during the lifetime of the mobility project. Beneficiaries will be able to generate prefilled reports from Mobility Tool based on the information they have provided. The Mobility Tool will also generate reports to be filled in by the participants in mobility activities.

More information about the Mobility Tool and how to access it will be provided in the grant agreement between the EACEA and the beneficiary.

c. CONDITIONS UNDER WHICH STUDENTS CAN PARTICIPATE

- SELECTION

Students apply to the partnership who carries out the selection of participants in the mobility action. The selection of students - as well as the procedure for awarding them a grant - must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process.

The HEI shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or process of students' selection.

The selection criteria - such as for example: the academic performance of the candidate, the previous mobility experiences, the motivation, the previous experience in the receiving country (i.e. return to country of origin) etc. - shall be made public.

Once students are selected, they should receive from their sending institution the Erasmus+ Student Charter, setting out the student's rights and obligations with respect to her/his period of study or traineeship abroad, and explaining the different steps to be undertaken before, during and after mobility.

- AGREEMENT WITH THE STUDENT

Prior to their departure, each selected student must sign an agreement which also includes a "learning agreement" setting out the programme of studies and/or traineeship to be followed, as agreed by the student, the sending and the receiving organisation. This learning agreement defines the target learning outcomes for the learning period abroad and specifies the formal recognition provisions. The agreement also specifies the location of the study period and/or traineeship. In this learning agreement, the sending institution and the student should also agree on the language level (main language of instruction or workplace) to be reached by the student by the start of the study/traineeships period, in line with the recommended level specified in the inter-institutional agreement between sending and receiving institutions (or in line with the enterprise expectations in the case of traineeships). Where applicable, the sending institution and the student will agree on the best suited linguistic support to be provided, so that the student can reach the agreed level.

- GRANT FOR STUDENTS

When signing the learning agreement, students are entitled to receive an EU grant to support them during the period of study or traineeship abroad. In addition, on top of the EU grant, they may receive a regional, a national or any other type of grant, managed by another organisation (e.g. Ministry or regional authorities).

Students taking part in a Capacity Building special mobility strand are exempted from paying fees for tuition, registration, examinations and access to laboratory and library facilities at the receiving institution. However, small fees may be charged for costs such as insurance, student unions and the use of miscellaneous material such as photocopies, laboratory products, on the same basis as these are charged to local students. Outbound students shall not be liable to pay any additional fees or charges in connection with the organisation or administration of their mobility period.

In addition, the entitlement to any grant or loan awarded to students to study in their home institution must be maintained during the period abroad.

Students taking part in a Capacity Building special mobility strand cannot at the same time be beneficiaries of Key Action 1 learning mobility grants and vice versa.

d. CONDITIONS UNDER WHICH STAFF CAN PARTICIPATE

- SELECTION

Staff taking part in a Capacity Building special mobility strand must be selected by their sending organisation in a fair and transparent way. Prior to their departure, they must have agreed on a mobility programme with the sending and receiving institutions/enterprise.

The selection of teachers and organisation staff shall be carried out by the partnership. The selection and grant award procedure must be fair, transparent, coherent and documented and shall be made available to all parties involved in the selection process. The selection criteria (for example priority given to staff going abroad for the first time, limitation on the possible number of mobility activities per staff member during a given time period, etc.) shall be made public.

The organisation shall take the necessary measures to prevent any conflict of interest with regard to persons who may be invited to take part in the selection bodies or selection process of individual beneficiaries.

In the case of mobility of staff from an enterprise to an HEI, it shall be arranged by an invitation of the institution to the staff member of the enterprise.

- MOBILITY AGREEMENT

The selection of the HEI's staff will be made by the sending institution on the basis of a draft mobility programme submitted by the staff member after consultation with the receiving institution/enterprise. Prior to departure, the final mobility programme shall be formally agreed by both the sending institution/enterprise and the receiving institution/enterprise (by exchange of letters or electronic messages).

Both the sending institution/enterprise and receiving institution/enterprise shall be responsible for the quality of the mobility period abroad.

AFTER MOBILITY

a. RECOGNITION OF LEARNING OUTCOMES

At the end of the period abroad, the receiving institution/enterprise must provide the student and his HEI with a transcript of records or traineeship certificate ('transcript of work') confirming the results of the agreed programme.

The follow-up to the mobility period includes formal recognition, by the sending institution, of the credits awarded abroad for formal learning of newly acquired competences (using ECTS or an equivalent system) including for traineeships, where applicable, and the documentation of outcomes resulting from non-formal and informal learning outside the classroom or workplace (using the Diploma Supplement).

As regards staff mobility, the sending institutions should ensure that the learning outcomes of participating staff are properly recognised, disseminated and widely used within the institution.

b. REPORTING

At the end of the period abroad, all students and staff who have undertaken a mobility activity are required to complete and submit a final report. For mobility activities lasting two months or more, the report also includes a qualitative evaluation of the linguistic support received during the mobility period.

Those students and staff who fail to submit the report may be required by the partnership to partially or fully reimburse the EU grant received. Reimbursement shall not be requested when a student or staff member has been prevented from completing her/his planned activities abroad due to a case of force majeure. Such cases shall be reported by the partnership and by EACEA.

4. OTHER IMPORTANT RULES AND RECOMMENDATIONS

PARTNERSHIP AGREEMENT

Detailed implementation modalities of the project must be agreed upon by the partners and formalised in a partnership agreement to be signed at the beginning of the project.

A copy of the partnership agreement will have to be provided to the Executive Agency within six months of the signature of the grant agreement.

This partnership agreement will have to cover the various financial, technical and legal aspects related to the implementation of the project, including:

- partners role and responsibilities;
- budget matters (co-funding, breakdown of budget per activity and partner, modalities of transfer of funds, etc.);
- remuneration policy for staff;
- reimbursement modalities for travels and costs of stay;
- reporting mechanisms;
- conflict management mechanisms, etc.

COMPOSITION AND MODIFICATION OF THE PARTICIPATING ORGANISATIONS

Any proposed modification to the project beneficiaries must be signalled and requires prior approval by the Executive Agency. The following requirements are necessary for the different modifications to the project partnership:

- Addition of a co-beneficiary requires a mandate signed between the co-ordinator and the new co-beneficiary and acceptance letters from all other co-beneficiaries signed by the legal representative. These should be forwarded by the co-ordinator with the request.
- Withdrawal of a co-beneficiary requires written explanation from the co-ordinator and a withdrawal letter from the withdrawing co-beneficiary, signed by the legal representative. Where the minimum partnership requirements are no longer fulfilled, the Education, Audiovisual & Culture Executive Agency reserves the right to decide on the continuation of the agreement.
- Changes of contact person for the co-ordinator require written confirmation signed by the new contact person, the legal representative and the former contact person of the co-ordinator.

INELIGIBLE COSTS

In addition to the ineligible costs list under Part C, the following costs shall not be considered eligible for Capacity-building projects:

- equipment such as: furniture, motor vehicles of any kind, equipment for research and development purposes, telephones, mobile phones, alarm systems and anti-theft systems;
- costs of premises (purchase, heating, maintenance, repairs etc.);
- costs linked to the purchase of real estate;
- depreciation costs.

COMPULSORY EXTERNAL AUDIT (AUDIT CERTIFICATE)

An external audit report (audit type II) on the action's financial statement and underlying accounts must be sent with the Final Report and the required supporting documents.

The purpose of the audit is to provide Executive Agency with a reasonable assurance that the costs as well as the receipts have been declared in the Final Financial Report in accordance with the relevant legal and financial provisions of the Grant Agreement.

Each beneficiary is free to choose a qualified external auditor, including its statutory external auditor, provided that the following cumulative requirements are met:

- the external auditor must be independent from the beneficiary;
- the external auditor must be qualified to carry out statutory audits of accounting documents in accordance with national legislation implementing the Directive on statutory audits of annual accounts and consolidated accounts or any European Union legislation replacing this Directive.

A beneficiary established in a third country must comply with equivalent national regulations in the audit field.

SUPPORTING DOCUMENTS

When required, readable copies (not originals) of the supporting documents must be sent. If there are doubts on any particular point, the Agency may request that all the supporting documents be forwarded.

Submitting the required supporting documents is an integral part of the agreement obligations and failure to submit one or more documents may lead to a request for reimbursement of the corresponding expenses.

Copies of subcontracts and invoices exceeding EUR 25 000 must be sent with the Final Report.

Quotations from at least three suppliers must be obtained for all purchases of equipment and services in excess of EUR 25 000, irrespective of the budget heading.

ANNEX II – DISSEMINATION AND EXPLOITATION OF RESULTS

A practical guide for beneficiaries

INTRODUCTION

Activities serving the dissemination and exploitation of results are a way to showcase the work that has been done as part of the Erasmus+ project. Sharing results, lessons learned and outcomes and findings beyond the participating organisations will enable a wider community to benefit from a work that has received EU funding, as well as to promote the organisation's efforts towards the objectives of Erasmus+, which attaches fundamental importance to the link between Programme and policies. Therefore each of the projects supported by the Programme is a step towards achieving the general objectives defined by the Programme to improve and modernise education, training and youth systems.

Dissemination activities will vary between projects, and it is important to consider what kinds of dissemination activities are fitted to each participating organisations. Partners in smaller projects should undertake dissemination and exploitation appropriate to the level of their activity. Dissemination activities for a mobility project will trigger different requirements than those for a partnership project. The extent of dissemination and exploitation activities will increase with the size and strategic importance of the project. When applying, applicants will be asked to explain their intentions/plans for dissemination and exploitation activities, and if successful, required to carry them out.

Section 1 defines some key terms and explains what can be achieved with dissemination and exploitation of results and how these activities will contribute to the overall objectives of the project.

Section 2 outlines the requirements for Erasmus+ beneficiaries in terms of dissemination and exploitation of results.

1. Dissemination and exploitation of project results: what, why, who, when, where and how

WHAT DO DISSEMINATION AND EXPLOITATION MEAN?

Dissemination is a planned process of providing information on the results of programmes and initiatives to key actors. It occurs as and when the result of programmes and initiatives become available. In terms of the Erasmus+ Programme this involves spreading the word about the project successes and outcomes as far as possible. Making others aware of the project will impact on other organisations in the future and will contribute to raising the profile of the organisation carrying out the project. To effectively disseminate results, an appropriate process at the beginning of the project needs to be designed. This should cover why, what, how, when, to whom and where disseminating results will take place, both during and after the funding period.

Exploitation means to use and benefit from something. For Erasmus+ this means maximising the potential of the funded activities, so that the results are used beyond the lifetime of the project. It should be noted that the project is being carried out as part of an international programme working towards lifelong learning and supporting European policies in the field of education, training, youth and sport. Results should be developed in such a way that they can be tailored to the needs of others; transferred to new areas; sustained after the funding period has finished; or used to influence future policy and practice.

WHAT IS INTENDED BY "RESULTS OF THE ACTIVITY"?

Results are the outputs of the European activity or project funded. The type of result will vary depending on the type of project. Results can be accessible products like curricula, studies, reports, materials, events, or websites; results can also mean the knowledge and experience gained by participants, partners or other stakeholders involved in the project.

WHAT DO IMPACT AND SUSTAINABILITY MEAN?

Impact is the effect that the activity carried out and its results have on people, practices, organisations and systems. Dissemination and exploitation of results plans can help to maximize the effect of the activities being developed so that they will impact on the immediate participants and partners for years to come. Benefits to other stakeholders should also be considered in order to make a bigger difference and get the most from the project.

Sustainability is the capacity of the project to continue and use its results beyond the end of the funding period. The project results can then be used and exploited in the longer-term, perhaps via commercialisation, accreditation or mainstreaming. Not all parts of the project or results may be sustainable and it is important to view dissemination and exploitation as a progression that extends beyond the duration of the project, and into the future.

WHAT ARE THE AIMS AND OBJECTIVES OF DISSEMINATION AND EXPLOITATION?

The first goal of dissemination and exploitation is to spread and embed the project's results. The second goal is to contribute to the implementation and shaping of national and European policies and systems. Beneficiaries should develop their own way of achieving this aim. To develop ideas for dissemination and exploitation is important for every project funded by the Erasmus+ Programme. However, the type and intensity of dissemination and exploitation activities should be proportional and tailored to particular needs and type of project developed. This includes whether the project is process-oriented or aimed to produce tangible deliverables; if it is stand alone or part of a larger initiative; whether is developed by large or small-scale participating organisations, etc. Participating organisations should discuss the aims and objectives of the activities/plan and decide on the best activities and approaches as well as share the tasks among partners taking into account the particular specifics of the project.

For structured cooperation projects such as Strategic Partnerships, Knowledge Alliances, Sector Skills Alliances, Sport, Collaborative Partnerships and Capacity-building projects, a good quality dissemination and exploitation plan should include measurable and realistic objectives, adhere to a timetable and provide a resource planning for the activities to be undertaken. Involving target groups in activities will also help to maximise the use of the project's results. It is important to get the strategy right as this is the main way that will help communicating with the target audiences. Such a requirement is not foreseen for mobility projects. However, project organisers are invited to communicate the learning outcomes reached by participants in such activities. They should also encourage participants to share with others what they have gained from taking part in the mobility activity. Another aim is to raise the quality of the Programme by stimulating innovative projects and sharing good practices.

Communication is a broader concept. It includes information and promotion activities to raise awareness and enhance the visibility of the project's activities in addition to the dissemination and exploitation of the project results. However, very often it is difficult to make a clear distinction between these areas. For this reason it can be more efficient to plan an overall strategy framework covering both fields so as to make the most of the available resources. Dissemination and exploitation of results should form a crucial part of any communication activities taking place during the project's lifetime.

WHY IS IT IMPORTANT TO SHARE PROJECT RESULTS? WHAT ARE THE WIDER BENEFITS?

Taking the time to develop a comprehensive dissemination and exploitation plan will be advantageous for both the beneficiary and its partners. As well as raising the profile of the organisation, dissemination and exploitation activities can often create new opportunities to extend the project and its results or develop new partnerships for the future. Successful dissemination and exploitation may also lead to external recognition of the work carried out adding further credit to it. Sharing the results will enable others to benefit from the activities and experiences of the Erasmus+ Programme. Project results can serve as examples and inspire others by showing what is possible to achieve under the Programme.

Dissemination and exploitation of project results can help to inform future policy and practice. Dissemination and exploitation of results activities carried out by beneficiaries will support the wider aim of improving the European Union's systems. The impact of the Erasmus+ Programme is measured not only by the quality of project results but also by the extent to which these results are known and used outside the project partnership. By reaching out to as many potential users as possible through effective dissemination, this will help to achieve a return on investment.

The dissemination and exploitation of project results also increases awareness of the opportunities offered by the Programme and highlights the European added value of activities supported by Erasmus+. This can contribute to a positive public perception and encourage wider participation in this new EU Programme. It is fundamental to consider the aims and objectives of the dissemination and exploitation plan. These should link to the project aims to ensure that the methods and approaches used are appropriate for the Erasmus+ project and its results, as well as for the identified target audiences. Dissemination and exploitation goals may be to:

- raise awareness;
- extend the impact;
- engage stakeholders and target groups;
- share a solution and a know how;
- influence policy and practice;
- develop new partnerships.

WHAT CAN BE DISSEMINATED AND EXPLOITED?

The next step is to identify **what** to disseminate and exploit. The results of the project may be of diverse nature and consist of both concrete (tangible) results as well as of skills and personal experiences that both project organisers and participants to the activities have acquired (intangible results).

Tangible results may include for example:

- an approach or a model to solve a problem;
- a practical tool or product, such as handbooks, curricula, e-learning tools;
- research reports or studies;
- good practice guides or case studies;
- evaluation reports;
- recognition certificates;
- newsletters or information leaflets.

In order to disseminate more widely experiences, strategies, processes, etc, it is recommended to document them.

Intangible results may include for example:

- knowledge and experience gained by participants, learners or staff;
- increased skills or achievements;
- improved cultural awareness;
- better language skills.

Intangible results are often more difficult to measure. The use of interviews, questionnaires, tests, observations or self-assessment mechanisms may help to record this type of result.

WHO ARE THE TARGET AUDIENCES?

Identifying target groups, both at different geographical levels (local, regional, national, European) and in the own field of the beneficiary (colleagues, peers, local authorities, other organisations leading the same type of activity, networks, etc.) is essential. Activities and messages have to be tailored appropriately taking into account audiences and target groups, for example:

- end-users of the project activities and deliverables;
- stakeholders, experts or practitioners in the field and other interested parties;
- decision-makers at local, regional, national and European level;
- press and media;
- general public.

The project plans should be flexible enough to allow target groups and other stakeholders to become involved during the different stages of the project. This will help to ensure that the project remains on track in terms of their needs. Their participation will also highlight the potential value of your project as well as help to spread the news to other interested parties throughout Europe.

HOW TO DISSEMINATE AND EXPLOIT RESULTS?

In order to reach as many people as possible, it is advisable to translate as many communication materials and project outputs in as many languages as possible. It is recommended to cover all languages of the partnership and English; the cost of these translations could be included in the grant request if necessary.

There are many different ways to disseminate and exploit results. Being creative and thinking of fresh ideas so that the Erasmus+ project and results really stand out will be appreciated. Beneficiaries could use:

- the Erasmus+ Project Results Platform (see below);
- project or organisational websites;
- meetings and visits to key stakeholders;
- dedicated discussion opportunities such as information sessions, workshops, seminars, training courses, exhibitions, demonstrations, or peer reviews;
- targeted written material such as reports, articles in specialised press, newsletters, press releases, leaflets or brochures;
- audiovisual media and products such as radio, TV, YouTube, Flickr, video clips, podcasts or apps;
- social media;
- public events;
- project branding and logos;
- existing contacts and networks.

In terms of exploitation it is important to think about how results can make a difference to the project, end-users, peers or to policy makers. Exploitation mechanisms include:

- positive reputational effects for the participating organisations;
- increased awareness on a theme, target or area of work;
- increased financial support by other supporters or donors;
- increased influencing on policy and practice.

WHEN SHOULD DISSEMINATION AND EXPLOITATION ACTIVITIES BE CARRIED OUT?

Dissemination and exploitation of results are an integral part of the Erasmus+ project throughout its lifetime: from the beneficiary's initial idea, during the project and even after European funding has ended.

Setting up a timetable of activities together with the partners involved and allocating appropriate budget and resources will be necessary. The plan will also have to:

- agree realistic targets and deadlines with partners to monitor progress;
- align dissemination and exploitation activities with key stages of the project;
- offer sufficient flexibility to respond to the needs of the target group as well as wider developments in policy and practice.

Examples of activities at different stages of the project cycle are:

BEFORE the project starts

- drafting the dissemination and exploitation plan;
- definition of the expected impact and deliverables;
- consideration of how and to whom dissemination and exploitation outcomes will be disseminated.

DURING the project

- contacting relevant media e.g. at local or regional level;
 - conducting regular activities such as information sessions, training, demonstrations, peer reviews;
 - assessing the impact on target groups;
 - involving other stakeholders in view of transferring results to end users/ new areas/policies.
- AT FINAL REPORT STAGE
- uploading the final project results and an update of the project description on the Erasmus+ Project Results Platform.

AFTER the project

- continuing further dissemination (as described above);
- developing ideas for future cooperation;
- evaluating achievements and impact;
- contacting relevant media;
- contacting policy-makers if relevant.

HOW TO ASSESS SUCCESS?

The impact assessment is an essential part of the process. It evaluates achievements and generates recommendations for future improvements. Indicators could be used to measure progress towards goals. These are signs that help to measure performance. Indicators can be both quantitative relating to numbers and percentages as well as qualitative relating to the quality of the participation and experience. Questionnaires, interviews, observations and assessments could also be used to measure the impact. Defining indicators relating to the different project activities should be foreseen at the start of the project and part of the overall dissemination plan.

Some examples:

- Facts and figures related to the website of project organisers (updates, visits, consultation, cross referencing);
- Numbers of meetings with key stakeholders;
- Numbers of participants involved in discussions and information sessions (workshops, seminars, peer reviews); follow-up measures;
- Production and circulation of products;
- Media coverage (articles in specialised press newsletters, press releases, interviews, etc.);
- Visibility in the social media and attractiveness of website;
- Participation in public events;
- Links with existing networks and transnational partners; transfer of information and know-how;
- Impact on regional, national, EU policy measures;
- Feedback from end-users, other stakeholders, peers, policy-makers

2. REQUIREMENTS IN TERMS OF DISSEMINATION AND EXPLOITATION

GENERAL QUALITATIVE REQUIREMENTS

Depending on the action, applicants for funding under Erasmus+ are required to consider dissemination and exploitation activities at the application stage, during their activity and after the activity has finished. This section gives an overview of the basic requirements laid down in the official documentation of the Erasmus+ Programme.

Dissemination and exploitation is one of the award criteria on which the application will be assessed. Depending on the project type, it will be given a different weight in the assessment of the application.

- For mobility projects, listing planned dissemination activities and identifying potential target groups will be requested in the application form.
- For cooperation projects, a detailed and comprehensive plan, describing targets, tools and outcomes will be requested and further assessed. Although generally one partner will take the responsibility for dissemination and exploitation coordination for the whole project, the responsibility for implementation should be shared among all partners. Each partner will be involved in these activities according to the needs and roles in the project.

For all project types, reporting on the activities carried out to share the results inside and outside participating organisation will be requested at final stage.

VISIBILITY OF THE EUROPEAN UNION AND OF THE ERASMUS+ PROGRAMME

Beneficiaries shall always use the European emblem (the 'EU flag') and the name of the European Union spelled out in full in all communication and promotional material. The preferred option to communicate about EU funding through the Erasmus+ Programme is to write 'Co-funded by the Erasmus+ Programme of the European Union' next to the EU emblem.

Examples of acknowledgement of EU funding and translations of the text are available at http://eacea.ec.europa.eu/about-eacea/visual-identity_en

The brand name of 'Erasmus+' shall not be translated.

Guidelines for beneficiaries on the use of the EU emblem in the context of EU programmes are available at http://ec.europa.eu/dgs/communication/services/visual_identity/pdf/use-emblem_en.pdf

USE OF THE ERASMUS+ PROJECT RESULTS PLATFORM

A new platform was established for Erasmus+ to offer a comprehensive overview of projects funded under the Programme and to highlight good practice examples and success stories. The platform also makes available products/deliverables/intellectual outputs which are the result of the projects funded.

Good practices will be the object of an annual selection by each National Agency and by the Executive Agency. Success stories will be further selected at central level by DG EAC services.

The new platform serves different purposes:

- project database (including project summaries, URL links, etc.);
- database of project results giving access to end-users and practitioners to main outcomes;
- showcasing of good practices and success stories among Erasmus+ beneficiaries that will be selected every year at national and European level.

For most Erasmus+ projects, beneficiaries will be required to provide a summary describing their project in English at application stage.

The project summary is of particular importance as it provides a description for the general public. It should therefore be drafted in a plain language and clear style so that the actual content of the project can be quickly understood, also by outsiders.

The following elements are to be part of the summary: context/background of project; objectives of project; number and profile of participants; description of activities; methodology to be used in carrying out the project; a short description of the results and impact envisaged and finally the potential longer term benefits.

The Erasmus+ Project Results Platform can be consulted at: <http://ec.europa.eu/programmes/erasmus-plus/projects/>
